the consumer benchmarks are suitable in terms of achieving the three goals of the Directive achieving a high level of consumer protection increasing the smooth functioning of the internal market and improving competition in the market as such In addition to providing a thorough analysis of the consumer benchmarks and their relationship to the goals of the Directive at a more practical level the book provides insight into the working and consequences of the benchmarks that can be used in the evaluation of the Unfair Commercial Practices Directive and its application by the CJEU This assessment is important because the Directive while promising to regulate unfair commercial practices in a way that achieves the Directive's goals has removed the possibility for Member States to regulate unfair commercial practices themselves **APAIS 1994:**
