Opening up the discipline of history to new approaches and introducing those working in other disciplines to historical approaches this book is the ideal introduction to the opportunities and challenges of researching material culture

The New World History Ross E. Dunn, Laura J. Mitchell, Kerry Ward, 2016-08-23 The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field The forty four articles in this book take stock of the history evolving literature and current trajectories of new world history These essays together with the editors introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts approaches and insights valuable to their own work The selections are organized in ten chapters that survey the history of the movement the seminal ideas of founding thinkers and today s practitioners changing concepts of world historical space and time comparative methods environmental history the big history movement globalization debates over the meaning of Western power and ongoing questions about the intellectual premises and assumptions that have shaped the field

The Force of Fashion in Politics and Society Beverly Lemire, 2010 Throughout history fashion has emerged as one of the most powerful driving forces determining the political economic and social ramifications of the production distribution and circulation of goods Using fashion as the lens through which to analyse and understand cultural economic and political shifts within a broad spectrum of societies from the seventeenth to twenty first centuries this volume represents an important shift in scholarship towards a more indepth understanding of the force of fashion

History at the End of the World? History Climate Change and the Possibility of Closure Mark Levene, Robert Johnson, Penny Roberts, 2010-01-01 This collection of essays proposes that climate change means serious peril Our argument however is not about the science per se It is about us our deep and more recent history and how we arrived at this calamitous impasse With contributions from academic activists and independent researchers History at the End of the World challenges advocates of business as usual to think again But in its wide ranging assessment of how we transcend the current crisis it also proposes that the human past could be our most powerful resource in the struggle for survival Our approaches begin from archaeology literature religion psychology sociology philosophy of science engineering and sustainable development as well as straight history

Culture in History Joseph Melling, 1992 This volume of interdisciplinary essays brings together leading academics from the fields of history economic history politics and sociology to review and take forward a series of debates on the role of culture in social explanation The book is aimed at those involved in cultural studies but is particularly concerned with the relationship between the economic and the cultural The contributors suggest that the boundaries of production and consumption are themselves cultural constructs formed by changing conceptions of economic and cultural explanation but offer very different approaches to resolving the problems created by this

America in the World Frank Costigliola, Michael J. Hogan, 2013-12-23 This volume includes historiographical surveys of American foreign relations since 1941 by some of the country s leading historians Some of the essays offer sweeping overviews of the major

trends in the field of foreign international relations history Others survey the literature on US relations with particular regions of the world or on the foreign policies of presidential administrations The result is a comprehensive assessment of the historical literature on US foreign policy that highlights recent developments in the field
