Consumerism David A. Aaker, George S. Day, 1978 **Consumerism** David A. Aaker, George S. Day, 1983-02-01

Consumerism David A. Aaker, 1974 **Consumerism in Twentieth-Century Britain** Matthew Hilton, 2003-11-13 This book is the first comprehensive history of consumerism as an organised social and political movement Matthew Hilton offers a groundbreaking account of consumer movements ideologies and organisations in twentieth century Britain He argues that in organisations such as the Co operative movement and the Consumers Association individual concern with what and how we spend our wages led to forms of political engagement too often overlooked in existing accounts of twentieth century history He explores how the consumer and consumerism came to be regarded by many as a third force in society with the potential to free politics from the perceived stranglehold of the self interested actions of employers and trade unions Finally he recovers the visions of countless consumer activists who saw in consumption a genuine force for liberation for women the working class and new social movements as well as a set of ideas often deliberately excluded from more established political organisations

Consumption and the World of Goods John Brewer, Roy Porter, 2013-06-17 The study of past society in terms of what it consumes rather than what it produces is relatively speaking a new development The focus on consumption changes the whole emphasis and structure of historical enquiry While human beings usually work within a single trade or industry as producers as say farmers or industrial workers as consumers they are active in many different markets or networks And while history written from a production viewpoint has by chance or design largely been centred on the work of men consumption history helps to restore women to the mainstream The history of consumption demands a wide range of skills It calls upon the methods and techniques of many other disciplines including archaeology sociology social and economic history anthropology and art criticism But it is not simply a melting pot of techniques and skills brought to bear on a past epoch Its objectives amount to a new description of a past culture in its totality as perceived through its patterns of consumption in goods and services Consumption and the World of Goods is the first of three volumes to examine history from this perspective and is a unique collaboration between twenty six leading subject specialists from Europe and North America The outcome is a new interpretation of the seventeenth and eighteenth centuries one that shapes a new historical landscape based on the consumption of goods and services

Routledge Handbook of Consumer Protection and Behaviour in Energy Markets Tina Soliman Hunter, Marcin Kraśniewski, Jurgita Malinauskaite, Marzena Czarnecka, 2024-09-27 The Routledge Handbook of Consumer Protection and Behaviour in Energy Markets provides a comprehensive study of consumer protection and consumer behaviour in selected jurisdictions worldwide Each chapter is written by experts and provides a contemporary overview of national consumer protection and policy developments in the energy sector Today energy has become an essential factor in ensuring the socio economic development of any country and improving the quality of life of society and is now an essential element of life for everyone The energy market has become a competitive market based on

the assumption that generation and sale of energy is not a natural monopoly and that market mechanisms in particular competition between energy companies are the best way to reduce prices and improve customer service The purchase of energy is inextricably linked with its distribution from the producer to the purchaser The book shows that well functioning energy markets need informed and well protected consumers who can benefit from competition and transparent offers They are free to choose the most competitive providers and know their rights with access to effective means of redress Given that the energy market has a specific technical nature the book analyses the energy market within the scope of free market principles with a focus on the protection of the weaker party to the contract the consumer In addition consumers can also play an active part of the clean energy transition

The Politics of Consumption Martin Daunton,Matthew Hilton,2001-06-01 Objects and commodities have frequently been studied to assess their position within consumer or material culture but all too rarely have scholars examined the politics that lie behind that culture This book fills the gap and explores the political and state structures that have shaped the consumer and the nature of his or her consumption From medieval sumptuary laws to recent debates in governments about consumer protection consumption has always been seen as a highly political act that must be regulated directed or organized according to the political agendas of various groups An internationally renowned group of experts looks at the emergence of the rational consuming individual in modern economic thought the moral and ideological values consumers have attached to their relationships with commodities and how the practices and theories of consumer citizenship have developed alongside and within the expanding state How does consumer identity become available to people and how do they use it How is consumption negotiated in a dictatorship Are material politics about state politics consumer politics or the relationship between these and consumer practices From the specifics of the politics of consumption in the French Revolution what was the status of rum How complicated did a vinegar recipe have to be before the resultant product qualified as luxury to the highly contentious twentieth century debates over American political economy this original book traces the relationships among political cultures consumers and citizenship from the eighteenth century to the present

Housing and Planning References ,1979 *Investigated Reporting* Chad Raphael,2010-10-01 Triple Award Winner 2006 History Division Book Award of the Association for Education in Journalism and Mass Communication 2006 Frank Luther Mott Kappa Tau Alpha Communications Award and 2005 Donald McGannon Award for Social and Ethical Relevance in Communications Policy Research The public often views television investigative reporting as a watchdog on the government In fact some of the centerpiece moments of TV muckraking relied heavily on official sources for inspiration information and regulatory protection from critics At the same time criticism by government officials and overt threats to regulate the television industry influenced the decision making and content that went into some of broadcast news s iconic moments Chad Raphael s looks at the relationship between journalism and regulation during the celebrated period of muckraking that took place on American television between 1960 and 1975 Raphael offers new insights

into the economic political and industrial forces that shaped documentaries like Harvest of Shame Hunger in America and Banks and the Poor while placing the investigative television documentary into its institutional regulatory and cultural context Throughout Raphael exposes the complex strands of influence used by government officials to shape and attack investigative reporting and highlights how these tactics created a troubling legacy for the regulation of television news today
