Consuming Russia:

Consuming Russia Adele Marie Barker, 1999 A timely study of the new Russia at the end of the twentieth century

Not by Bread Alone Melissa L. Caldwell, 2004-03-16 What Muscovites get in a soup kitchen run by the Christian Church of Moscow is something far more subtle and complex if no less necessary and nourishing than the food that feeds their hunger In Not by Bread Alone the first full length ethnographic study of poverty and social welfare in the postsocialist world Melissa L Caldwell focuses on the everyday operations and civil transactions at CCM soup kitchens to reveal the new realities the enduring features and the intriguing subtext of social support in Russia today In an international food aid community Caldwell explores how Muscovites employ a number of improvisational tactics to satisfy their material needs She shows how the relationships that develop among members of this community elderly Muscovite recipients Russian aid workers African student volunteers and North American and European donors and volunteers provide forms of social support that are highly valued and ultimately far more important than material resources In Not by Bread Alone we see how the soup kitchens become sites of social stability and refuge for all who interact there not just those with limited financial means and how Muscovites articulate definitions of hunger and poverty that depend far more on the extent of one's social contacts than on material factors By rethinking the ways in which relationships between social and economic practices are theorized by identifying social relations and social status as Russia's true economic currency this book challenges prevailing ideas about the role of the state the nature of poverty and welfare the feasibility of Western style reforms and the primacy of social connections in the daily lives of ordinary people in post Soviet Russia

Independent Music in Russia Marco Biasioli, 2025-06-27 This book explores Russian independent music nezavisimaia muzyka in a time of profound transformations in Russian society looking especially at the mutual influence between music and the socio political context in which it was created Contrary to what is commonly believed the book argues that nezavisimaia muzyka as a widespread form of non state sponsored culture was not necessarily oppositional to the Russian state instead it was rooted in identity quests that could overlap with some aspects of the official narrative as they could mock disrupt and refashion others The book demonstrates that Russian independent music is considerably more than the creation appreciation and dissemination of sounds For the practitioners to get involved in the scene is to participate in the construction of cultural legitimacy imagined communities and national identity involving values that can be cosmopolitan Western conservative supposedly Russian and often a mixture of all these In addition the book examines Russian independent music s interaction with Western and global trends and assesses its successes and failures in conquering a niche in foreign markets This book will be of interest to scholars of Russian culture media and politics as well as to scholars of popular music sociology national identity and Russia West relations

protecting the nation from Western cults and culture Twentieth-Century Russian Poetry Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21 The canon of Russian poetry has been reshaped since the fall of the Soviet Union A multi authored study of changing cultural memory and identity this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval Literary canon and national identity are inextricably tied together the composition of a canon being the attempt to single out those literary works that best express a nation's culture This process is of course fluid and subject to significant shifts particularly at times of epochal change This volume explores changes in the canon of twentieth century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008 In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy the way was open for wholesale reinterpretation of twentieth century poets such as Iosif Brodskii Anna Akhmatova and Osip Mandel'shtam their works and their lives In the last twenty years many critics have discussed the possibility of various coexisting canons rooted in official and non official literature and suggested replacing the term Soviet literature with a new definition Russian literature of the Soviet period Contributions to this volume explore the multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics Among factors which may influence the composition of the canon are educational institutions competing views of scholars and critics including figures outside Russia and the self canonising activity of poets themselves Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre revolutionary cultural traditions through a narrative of the past which foregrounds continuity Despite persistent nostalgic yearnings in some quarters for a single canon the current situation is defiantly diverse balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground Required reading for students teachers and lovers of Russian literature Twentieth Century Russian Poetry brings our understanding of post Soviet Russia up to date **A History of Women's Writing in Russia** Adele Marie Barker, Jehanne M. Gheith, 2002-07-11 A History of Women's Writing in Russia offers a comprehensive account of the lives and works of Russia's women writers Based on original and archival research this volume forces a re examination of many of the traditionally held assumptions about Russian literature and women's role in the tradition In setting about the process of reintegrating women writers into the history of Russian literature contributors have addressed the often surprising contexts within which women's writing has been produced Chapters reveal a flourishing literary tradition where none was thought to exist They redraw the map defining Russia's literary periods they look at how Russia's women writers articulated their own experience and they reassess their relationship to the dominant male tradition The volume is supported by extensive reference features including a bibliography and guide to writers and their works **Media Cultures of the Russian 1990s** Maya Vinokour, 2025-10-14 Examining Russian language media from the long 1990s the period beginning with Mikhail

Gorbachev's policy of glasnost openness and ending with the election of President Vladimir Putin Media Cultures of the Russian 1990s shows how post Soviet civil society emerged simultaneously with the explosion of new media especially a newly liberated television and internet A brief and contested period of media independence ensued as explosive creativity collided with rank commercialism journalistic integrity with burgeoning political ambitions and fringe with mainstream By the late 1990s however the media landscape had succumbed to economic and political exploitation The causes and nature of this shift which set the stage for Putin's crackdown on independent media after 2000 as well as Russia's slide into aggressive authoritarianism are embedded in the era's media artifacts Written by an interdisciplinary group of experts this edited collection addresses the mutual influence among disparate spheres of public life that enabled the media Wild West of the first post Soviet decade As a joint platform the volume and the associated Multimedia Sourcebook of the Russian 1990s present the decade's media cultures in a manner that reflects their historical interconnectedness and relationship to the global present Edited by Maya Vinokour with contributions from Bradley Gorski Courtney Doucette Fabrizio Fenghi Rita Safarians Daniil Leiderman Thomas Keenan and Pavel Khazanov *Russian Style* Julie A. Cassiday, 2023-12-19 In the two decades after the turn of the millennium Vladimir Putin's control over Russian politics and society grew at a steady pace As the West liberalized its stance on sexuality and gender Putin's Russia moved in the opposite direction remolding the performance of Russian citizenship according to a neoconservative agenda characterized by increasingly exaggerated gender roles By connecting gendered and sexualized citizenship to developments in Russian popular culture Julie A Cassiday argues that heteronormativity and homophobia became a kind of politicized style under Putin's leadership However while the multiple modes of gender performativity generated in Russian popular culture between 2000 and 2010 supported Putin's neoconservative agenda they also helped citizens resist and protest the state's mandate of heteronormativity Examining everything from memes to the Eurovision Song Contest and self help literature Cassiday untangles the discourse of gender to argue that drag or travesti became the performative trope par excellence in Putin's Russia Provocatively Cassiday further argues that the exaggerated expressions of gender demanded by Putin's regime are best understood as a form of cisgender drag This smart and lively study provides critical nuanced analysis of the relationship between popular culture and politics in Russia during Putin's first two decades in power **Russia's Arctic Strategies and the Future of the Far North** Marlene Laruelle, 2015-01-28 This book offers the first comprehensive examination of Russia's Arctic strategy ranging from climate change issues and territorial disputes to energy policy and domestic challenges As the receding polar ice increases the accessibility of the Arctic region rival powers have been manoeuvring for geopolitical and resource security Geographically Russia controls half of the Arctic coastline 40 percent of the land area beyond the Circumpolar North and three quarters of the Arctic population In total the sea and land surface area of the Russian Arctic is about 6 million square kilometres Economically as much as 20 percent of Russia's GDP and its total exports is generated north of the Arctic Circle In terms of

resources about 95 percent of its gas 75 percent of its oil 96 percent of its platinum 90 percent of its nickel and cobalt and 60 percent of its copper reserves are found in Arctic and Sub Arctic regions Add to this the riches of the continental shelf seabed and waters ranging from rare earth minerals to fish stocks After a spike of aggressive rhetoric when Russia planted its flag in the Arctic seabed in 2007 Moscow has attempted to strengthen its position as a key factor in developing an international consensus concerning a region where its relative advantages are manifest despite its diminishing military technological and human capacities

Russian Society and the Orthodox Church Zoe Knox,2004-06-02 Russian Society and the Orthodox Church examines the Russian Orthodox Church s social and political role and its relationship to civil society in post Communist Russia It shows how Orthodox prelates clergy and laity have shaped Russians attitudes towards religious and ideological pluralism which in turn have influenced the ways in which Russians understand civil society including those of its features pluralism and freedom of conscience that are essential for a functioning democracy It shows how the official church including the Moscow Patriarchate has impeded the development of civil society while on the other hand the non official church including nonconformist clergy and lay activists has promoted concepts central to civil society

Lifestyle in Siberia and the Russian North Joachim Otto Habeck ,2019-11-25 Lifestyle in Siberia and the Russian North breaks new ground by exploring the concept of lifestyle from a distinctly anthropological perspective Showcasing the collective work of ten experienced scholars in the field the book goes beyond concepts of tradition that have often been the focus of previous research to explain how political economic and technological changes in Russia have created a wide range of new possibilities and constraints in the pursuit of different ways of life Each contribution is drawn from meticulous first hand field research and the authors engage with theoretical questions such as whether and how the concept of lifestyle can be extended beyond its conventionally urban Euro American context and employed in a markedly different setting Lifestyle in Siberia and the Russian North builds on the contributors clear commitment to diversifying the field and providing a novel and intimate insight into this vast and dynamic region This book provides inspiring reading for students and teachers of Anthropology Sociology and Cultural Studies and for anyone interested in Russia and its regions By providing ethnographic case studies it is also a useful basis for teaching anthropological methods and concepts both at graduate and undergraduate level Rigorous and innovative it marks an important contribution to the study of Siberia and the Russian North
