Contagious Divides:

Contagious Divides Nayan Shah, 2001-10-29 Nayan Shah has written a book of exceptional originality and importance. With a focus on issues of body, family and home, central concerns of urban health reform, he illuminates the role of political leaders, public opinion and professionals in the construction and reconstruction of race and the making of citizens in San Francisco. He brilliantly analyzes the politics of the movement from exclusion to inclusion, regulation to entitlement, showing it to be an interactive process. Yet as he shows with great subtlety, the mark of race remains. As a study of citizenship and difference, this work speaks to a central theme of American history. Thomas Bender, Director of the International Center for Advanced Studies at NYU and editor of *Rethinking American History in a Global Age*. **Contagious Divides** is an ambitious contribution to our understanding of the troubled history of race in America. Nayan Shah offers new insight into the ways that race was inscribed on the streets, the bodies and the institutions of San Francisco's Chinatown. Above all, he offers powerful examples of the impact of ideas about disease, sexuality and place on the rhetoric and practice of racial inequality in modern America. Thomas J. Sugrue, author of *The Origins of the Urban Crisis*. **Faith and Reckoning after Trump** De La Torre, Miguel, 2021-10-20 Essays by religious scholars and activists assess the lessons of the Trump era both for the nation and the religious community. **Immigration and Apocalypse** Yii-Jan Lin, 2024-11-26 Tracing the metaphor of America as the Book of Revelation's New Jerusalem, Yii-Jan Lin shows how apocalyptic narratives have been used to exclude unwanted immigrants. America appeared on the European horizon at a moment of apocalyptic expectation and ambition. Explorers and colonizers imagined the land to be paradise, the New Jerusalem of the Bible's Book of Revelation. This groundbreaking volume explores the conceptualization of America as the New Jerusalem from the time of Columbus to the Puritan colonists through U.S. expansion and from the eras of Reagan to Trump. While the metaphor of the New Jerusalem has been useful in portraying a shining, God-blessed refuge with open gates, it has also been used to exclude, attack and criminalize unwanted peoples. Yii-Jan Lin shows how newspapers, political speeches, sermons, cartoons and novels throughout American history have used the language of Revelation to define immigrants as God's enemies who must be shut out of the gates. This book exposes Revelation's apocalyptic logic at work in the history of Chinese exclusion, the association of the unwanted with disease, the contradictions of citizenship laws and the justification for building a U.S.-Mexico wall like the wall around the New Jerusalem. This book is a fascinating analysis of the religious, biblical and apocalyptic in American immigration history and a damning narrative that weaves together American religious history, immigration and ethnic studies and the use of biblical texts and imagery. **Not Fit to Stay** Sarah Isabel Wallace, 2017-01-31 In the early 1900s, panic over the arrival of South Asian immigrants swept up and down the west coast of North America. While racism and fear of labour competition were at the heart of this furor, public leaders including physicians, union leaders, civil servants, journalists and politicians latched on to unsubstantiated public health concerns to justify the exclusion of South Asians from British Columbia, Washington, Oregon.

and California Not Fit to Stay examines how and why South Asians were excluded from immigration through legislation that took effect in Canada and the United States in the early twentieth century This book is an important study of how white North Americans saw first wave South Asian immigrants as separate from and inferior to other groups in the evolving racial hierarchy on the west coast of North America

Segregation Carl H. Nightingale, 2012-05-01 When we think of segregation what often comes to mind is apartheid South Africa or the American South in the age of Jim Crow two societies fundamentally premised on the concept of the separation of the races But as Carl H Nightingale shows us in this magisterial history segregation is everywhere deforming cities and societies worldwide Starting with segregation s ancient roots and what the archaeological evidence reveals about humanity s long standing use of urban divisions to reinforce political and economic inequality Nightingale then moves to the world of European colonialism It was there he shows segregation based on color and eventually on race took hold the British East India Company for example split Calcutta into White Town and Black Town As we follow Nightingale s story around the globe we see that division replicated from Hong Kong to Nairobi Baltimore to San Francisco and more The turn of the twentieth century saw the most aggressive segregation movements yet as white communities almost everywhere set to rearranging whole cities along racial lines Nightingale focuses closely on two striking examples Johannesburg with its state sponsored separation and Chicago in which the goal of segregation was advanced by the more subtle methods of real estate markets and housing policy For the first time ever the majority of humans live in cities and nearly all those cities bear the scars of segregation This unprecedented ambitious history lays bare our troubled past and sets us on the path to imagining the better more equal cities of the future

Subverting Exclusion Andrea Geiger, 2011-11-29 Concerned with people called variously eta burakumin buraku jumin buraku people outcastes or the lowest of the low this book examines how their experience of caste status based discrimination in 19th century Japan affected their experience of race based discrimination in the West of the US and Canada in the 19th and early 20th centuries

Fit to Be Citizens? Natalia Molina, 2006-03-13 Shows how science and public health shaped the meaning of race in the early twentieth century Examining the experiences of Mexican Japanese and Chinese immigrants in Los Angeles this book illustrates the ways health officials used complexly constructed concerns about public health to demean diminish discipline and define racial groups

Man's Work Joseph O. Jewell, 2023-11-07 In the financial chaos of the last few decades increasing wealth inequality has shaken people's expectations about middle class stability At the same time demographers have predicted the browning of the nation's middle class once considered a de facto white category over the next twenty years as the country becomes increasingly racially diverse In this book Joseph O Jewell takes us back to the turn of the twentieth century to show how evidence of middle class mobility among Black Mexican American and Chinese men generated both new anxieties and varieties of backlash among white populations Blending cultural history and historical sociology Jewell chronicles the continually evolving narratives that linked whiteness with middle class mobility and middle class manhood In doing so Jewell addresses a key issue in the historical sociology of race how racialized groups demarcate defend and alter social positions in overlapping hierarchies of race class and gender New racist narratives about non white men occupying middle class occupations emerged in cities across the nation at the turn of the century These stories helped to shore up white supremacy in the face of far reaching changes to the nation's racialized economic order **Queering the Countryside** Mary L.

Gray, Colin R. Johnson, Brian J. Gilley, 2016-03-15 This collection of original essays confronts the assumption that queer desires depend upon urban life for meaning By considering rural queer life the contributors challenge readers to explore queer experiences in ways that give greater context and texture to modern practices of identity formation The book's focus on understudied rural spaces throws into relief the overemphasis of urban locations and structures in the current political and theoretical work on queer sexualities and genders It highlights the need to rethink notions of the closet and coming out and the characterizations of non urban sexualities and genders as isolated and in need of outreach Provided by publisher

Chinatown, Honolulu Nancy E. Riley, 2024-06-11 The Chinese experience in Hawai'i has long been told as a story of inclusion and success During the Cold War the United States touted the Chinese community in Hawai'i as an example of racial harmony and American opportunity claiming that all ethnic groups had the possibility to attain middle class lives Today Honolulu's Chinatown is not only a destination for tourism and consumption but also a celebration of Chinese accomplishments memorializing past discrimination and present prominence within a framework of multiculturalism This narrative however conceals many other histories and processes that played crucial roles in shaping Chinatown This book offers a critical account of the history of Chinese in Hawai'i from the mid nineteenth century to the present in this context of U S empire settler colonialism and racialization Nancy E Riley foregrounds elements that are often left out of narratives of

Chinese history in Hawai i particularly the place of Native Hawaiians geopolitics and U S empire building and the ongoing construction of race and whiteness Tracing how Chinatown became a site of historical remembrance she argues that it is also used to reinforce the ideology of neoliberal multiculturalism which upholds racial hierarchy by lauding certain ethnic groups while excluding others An insightful and in depth analysis of the story of Honolulu s Chinatown this book offers new perspectives on the making of the racial landscape of Hawai i and the United States more broadly

Fahlstedt, 2020-08-14 Chinatown Film Culture provides the first comprehensive account of the emergence of film and moviegoing in the transpacific hub of San Francisco in the early twentieth century Working with materials previously left in the margins of grand narratives of history Kim K Fahlstedt uncovers the complexity of a local entertainment culture that offered spaces where marginalized Chinese Americans experienced and participated in local iterations of modernity At the same time this space also fostered a powerful Orientalist aesthetic that would eventually be exported to Hollywood by San Francisco showmen such as Sid Grauman Instead of primarily focusing on the screen spectator relationship Fahlstedt suggests that immigrant audiences role in the proliferation of cinema as public entertainment in the United States saturated the whole moviegoing experience from outside on the street to inside the movie theater By highlighting San Francisco and Chinatown as featured participants rather than bit players Chinatown Film Culture provides an historical account from the margins alternative to the more dominant narratives of U S film history
