Containing Coexistence Jussi M. Hanhimäki, 1997 A study of Finland's role in Soviet American relations during the onset of the Cold War It examines Finland's attempts to remain neutral after World War II and not join the people's democracies in 1945 and covers the Finnish Solution whereby Finland was allowed to coexist with the Soviets *Neutrality and Neutralism in the Global Cold War* Sandra Bott, Jussi M. Hanhimäki, Janick Schaufelbuehl, Marco Wyss, 2015-12-22 This book sheds new light on the foreign policies roles and positions of neutral states and the Non Aligned Movement NAM in the global Cold War The volume places the neutral states and the NAM in the context of the Cold War and demonstrates the links between the East the West and the so called Third World In doing so this collection provides readers an alternative way of exploring the evolution and impact of the Cold War on North South connections that challenges traditional notions of the post 1945 history of international relations The various contributions are framed against the backdrop of the evolution of the Cold War international system and the decolonization process in the Southern hemisphere By juxtaposing the policies of European neutrals and countries of the NAM this book offers new perspectives on the evolution of the Cold War With the links between these two groups of countries receiving very little attention in Cold War scholarship the volume thus offers a window into a hitherto neglected perspective on the Cold War Via a series of case studies the chapters here present new viewpoints on the evolution of the global Cold War through the exploration of the ensuing internal and mainly external policy choices of these nations This book will be of much interest to students of Cold War Studies international history foreign policy security studies and IR in general *The Icarus Syndrome* Peter Beinart, 2010 In *The Icarus Syndrome* Peter Beinart tells a tale as old as the Greeks a story about the seductions of success Beinart describes Washington on the eve of three wars World War I Vietnam and Iraq three moments when American leaders decided they could remake the world in their image Each time leading intellectuals declared that history was over and the spread of democracy was inevitable Each time a president held the nation in the palm of his hand And each time a war conceived in arrogance brought untold tragedy In dazzling colour Beinart portrays three extraordinary generations the progressives who took America into World War I led by Woodrow Wilson the lonely preacher's son who became the closest thing to a political messiah the world had ever seen The Camelot intellectuals who took America into Vietnam led by Lyndon Johnson who lay awake night after night shaking with fear that his countrymen considered him weak And George W Bush and the post cold war neoconservatives the romantic bullies who believed they could bludgeon the Middle East and liberate it at the same time Like Icarus each of these generations crafted wings a theory about America's relationship to the world They flapped carefully at first but gradually lost their inhibitions until giddy with success they flew into the sun But every era also brought new leaders and thinkers who found wisdom in pain They reconciled American optimism our belief that anything is possible with the realities of a world that will never fully bend to our will In their struggles lie the seeds of American renewal today Based on years of research *The Icarus Syndrome* is a

provocative and strikingly original account of hubris in the American century and how we learn from the tragedies that result

International History of the Twentieth Century and Beyond Antony Best, Jussi M. Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2024-09-03 Now in its fourth edition this highly successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the last 120 years The fourth edition is thoroughly updated to take account of the most recent research and global developments including new material on the impact of the Trump administration on international politics the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza The book is supported by a fully revised companion website including links to further resources and self testing material which can be found at www.routledgelearning.com/internationalhistory20c

Constructivism, Narrative and Foreign Policy Analysis Christopher S. Browning, 2008 Building on constructivist approaches to international relations this book develops a narrative theory of identity action and foreign policy which is then applied to account for the evolution of Finnish foreign policy The book adopts an innovative approach by showing how foreign policy orientations need to be seen as grounded in overlapping and competing sets of identity narratives that reappear in different forms through history By emphasising the dynamism implicit within identity narratives the book not only challenges traditional rationalist materialist approaches to foreign policy analysis but also the current tendency to depict the story of Finnish foreign policy identity and history as one of a gradual move towards a Western location Rather the book emphasises elements of multiplicity and contingency whilst re-establishing foreign policy as a highly political process concerned with power and the right to define reality and national subjectivity

An Introduction to European Intergovernmental Organizations Marc Cogen, 2016-04-15 An Introduction to European Intergovernmental Organizations provides an up to date and accessible reference to European intergovernmental organizations other than the European Union The EU is so dominant that people often overlook the multitude of older and newer smaller and larger intergovernmental organizations rooted in the history of contemporary Europe which continue to help shape its future The specialized character of these organizations adds value to cooperation in Europe as a whole creates permanent channels of communication regardless of EU membership and allows the possibility for

non European involvement through organizations such as the European Bank for Reconstruction and Development and NATO. It also allows sub regional groups of states such as the Nordic countries or the Benelux countries to exist and express their own identity via their own organizations. This book looks at the history of Non EU organizations their decision making characteristics membership policies legal powers actions and interactions with each other and the European Union. A uniform scheme of analysis is used to make European intergovernmental organizations comparable and by studying them we gain a deeper understanding and insight into European affairs.

The Marshall Plan Benn Steil, 2018. Traces the history of the Marshall Plan and the efforts to reconstruct western Europe as a bulwark against communist authoritarianism during a two year period that saw the collapse of postwar U S Soviet relations and the beginning of the Cold War. **Kennedy, Johnson, and the Nonaligned World** Robert B. Rakove, 2013. This book examines John F Kennedy's policy of engaging states that had chosen to remain nonaligned in the Cold War. **The United States and Western Europe Since 1945** Geir

Lundestad, 2005-08-11. Based on new and existing research by a world class scholar this is the first book in twenty years to examine the dynamics of the entire American West European relationship since 1945. The relationship between the United States and Western Europe has always been crucial and recent events dictate that it is becoming ever more so. In this important new work Geir Lundestad analyses the balance between the cooperation and conflict which has characterized this relationship in the post war period. He examines talk of transatlantic drift and the strain now apparent between the USA and the nation states of Western Europe. In the concluding section Lundestad offers a topical view of the future of transatlantic interaction. Throughout the work Lundestad's much cited empire by invitation thesis is both put into practice and extended in time and scope. This book is essential reading for anyone interested in one of the most important and enduring international relationships of the last sixty years. **Reassessing Cold War Europe** Sari Autio-Sarasma, Katalin Miklóssy, 2010-10-18.

Presents a reassessment of Europe in the Cold War period 1945-91. This book shows that relations between East and West were based not only on confrontation and mutual distrust but also on collaboration. It reveals that there is in fact considerable interaction and exchange between states enterprises associations organisations and individuals.

Scandinavian Review, 1997. Congressional Record United States. Congress, 1973. *Tightrope: Finland and Hungary in the Cold War* Dennis Werling, 2023-10-13. Finland and Hungary both fought on the losing side in WWII. Yet the former was able to resist the overwhelming power of its Soviet neighbour while Hungary whose status was uncertain until 1947 was not. Could the revolt of 1956 have been a turning point? How did the Helsinki Accords contribute to the end of the Cold War? No End to Alliance Geir Lundestad, 2016-07-27. Distinguished historians and political scientists on both sides of the Atlantic as well as former German foreign minister Hans Dietrich Genscher are the contributors to *No End to Alliance*. The book focuses on some crucial issues in transatlantic relations in the past present and future with emphasis on America's relations with West Germany Britain France and Scandinavia. While the contributors hold somewhat different views the

emphasis is on the remarkable strength and duration of the Atlantic alliance *The Baltic Sea Region: A Comprehensive Guide* Bernd Henningsen, Tobias Etzold, Krister Hanne, 2017-09-15 The Baltic Sea Region at the crossroads between East and West North and South has long been marked by cultural ethnical and ideological borders Overcoming a history of conflict and separation since the end of the Cold War the countries surrounding the Baltic Sea established widely valued formats of regional cooperation based on shared challenges and opportunities In comparison with larger regions however the Baltic Sea Area is still a blank spot on the global map This volume s intention is to fill this spot with colour and facts It provides students young researchers and other interested parties with basic knowledge of the region The volume offers a comprehensive introduction into its history politics economy and culture taking into account the various countries commonalities and differences By introducing concepts of regionalism and region building as well as analysing the structures of regional cooperation the authors and editors demonstrate the Baltic Sea Area s model function as a European macro region Back cover *Encyclopedia of the Cold War* Ruud van Dijk, William Glenn Gray, Svetlana Savranskaya, Jeremi Suri, Qiang Zhai, 2013-05-13 Between 1945 and 1991 tension between the USA its allies and a group of nations led by the USSR dominated world politics This period was called the Cold War a conflict that stopped short to a full blown war Benefiting from the recent research of newly open archives the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose developed and was resolved This work examines the military economic diplomatic and political evolution of the conflict as well as its impact on the different regions and cultures of the world Using a unique geopolitical approach that will present Russian perspectives and others the work covers all aspects of the Cold War from communism to nuclear escalation and from UFOs to red diaper babies highlighting its vast ranging and lasting impact on international relations as well as on daily life Although the work will focus on the 1945 1991 period it will explore the roots of the conflict starting with the formation of the Soviet state and its legacy to the present day *Charting an Independent Course* T. Michael Ruddy, 1998 **Arms Transfers, Neutrality and Britain's Role in the Cold War** Marco Wyss, 2012-10-12 Marco Wyss examines the extensive Anglo Swiss armaments relationship between 1945 and 1958 in light of their bilateral relations and thereby assesses the role of arms transfers neutrality and Britain as well as the two countries relationship during the Cold War *Publications Combined: Fake News, Conspiracy Theories, and Lies: Information Laundering In the 21st Century*, 2018-09-06 The purpose of this research broadly speaking is to expose the threat that fake news poses to our national security This thesis answers the question Can the information laundering model or a modified version of it be used to explain how the internet is exploited to spread fake news and the resulting threat to the United States I assert that a well crafted narrative whether true or false can be spread rapidly online due to the accessibility and interconnectedness of the internet ecosystem I then articulate how these narratives can be further accelerated and disseminated when propagandists take advantage of existing processes that improve the customization ease of access and availability of information online I do this by modifying the information

laundering model and then using the new model to examine the interconnectedness of search engines blogs social networking platforms and media academic outlets and how these connections can be exploited to launder false or purposefully misleading information into public discourse Finally I demonstrate how this process allows adversarial nations criminals and malicious actors to increase public discord undermine democracy and threaten Americans physical and cognitive security Contains the following studies 1 Fake News Conspiracy Theories and Lies An Information Laundering Model for Homeland Security 2 THE COMMAND OF THE TREND SOCIAL MEDIA AS A WEAPON IN THE INFORMATION AGE 3 PUTIN S PROPAGANDA WAR IS HE WINNING 4 Cyber Terrorism and Cyber Crime There Is a Difference 5 CYBERDETERRANCE IN 2035 REDEFINING THE FRAMEWORK FOR SUCCESS 6 Countering Russian Active Measures
