Contemplating Life's Journey. . . A Philosophical Workbook Kristine, 2003-02 The goal of *Contemplating Life's Journey* a philosophical workbook would be to cause all of us to think be curious seek answers and be inspired within our own lives It is about our search for truth within ourselves It is facing up to our realities and seeking our best The words are meant to appeal to anyone interested in finding and defining their own foundation character belief system and inner being All of us can relate to the topics which are the issues we face every day both within ourselves and out in the world asking and learning how why and to what end These commentaries are about challenging and expanding ourselves to go beyond our bias presumptions prejudice and overall perspective moving us outside our comfort zone a place difficult but necessary if our spirits are ever to mature

Philosophy As Life Path Romano Madera, Luigi Vero Tarca, 2008 Conventional wisdom regarding philosophy even among philosophers themselves is that it is a school of thought whose purpose is to examine other schools of thought scientific or ethical in order to assay their reliability Since its beginnings however philosophy has meant the search for the wisdom that is born of life experience and which is transmitted through spiritual exercise one aspect of which was the creation of strictly theoretical approaches This book illustrates the motives for the long standing neglect of this important dimension as well as the reasons why its reconceptualization today in a format appropriate to modern realities is both possible and exhilarating This volume proposes a renewed approach to philosophy an approach whose integration of theory and biography draws from philosophy's rich origins but which also unifies the truths behind these new philosophical approaches for example in private therapy or group formation which in recent decades have spread so rapidly in Europe and throughout the world

Philosophy: A youthful Contemplation Abhi the INFJ writer, 2023-12-12 Contemplating Friendship in Aristotle's Ethics Ann Ward, 2016-09-30 Examines how Aristotle posits political philosophy and the experience of friendship as a means to bind strictly intellectual virtue with morality In this book Ann Ward explores Aristotle's Nicomachean Ethics focusing on the progressive structure of the argument Aristotle begins by giving an account of moral virtue from the perspective of the moral agent only to find that the account itself highlights fundamental tensions within the virtues that push the moral agent into the realm of intellectual virtue However the existence of an intellectual realm separate from the moral realm can lead to lack of self restraint Aristotle Ward argues locates political philosophy and the experience of friendship as possible solutions to the problem of lack of self restraint since political philosophy thinks about the human things in a universal way and friendship grounds the pursuit of the good which is happiness understood as contemplation Ward concludes that Aristotle's philosophy of friendship points to the embodied intellect of timocratic friends and mothers in their activity of mothering as engaging in the highest form of contemplation and thus living the happiest life

Literature Donald Phillip Verene,2018-09-12 The Philosophy of Literature Four Studies puts forth the question of the extent to which philosophers must go to school with the poets It begins with a new interpretation of the famous Platonic quarrel with the poetic wisdom of Homer It brings this question forward through the humanism of thinkers of the Italian Renaissance and the German Idealism of Hegel It then treats the relation of philosophy and literature in four ways by considering

philosophy as literature philosophy of literature philosophy in literature and philosophy and literature In regard to the first of these it discusses Jorge Luis Borges's *The Immortal* to the second James Joyce's *Finnegans Wake* to the third Carl Sandburg's epic prose poem *The People Yes* and to the fourth Sebastian Brant's *Ship of Fools* This work demonstrates that in an area of thought often dominated by fashionable doctrines of literary interpretation the great works of literature and philosophy remain as permanent residents of our thought and imagination

Living Chinese Philosophy Roger T. Ames,2024-10-01 In *Living Chinese Philosophy* Roger T Ames uses comparative cultural hermeneutics as a method for contrasting classical Greek ontology the science of being in itself with classical Chinese zoetology the art of living which is made explicit in the Yijing or Book of Changes Parmenides Plato and Aristotle give us a substance ontology grounded in being qua being or being per se to on he on that guarantees a permanent and unchanging subject as the substratum for the human experience This substratum or essence includes its purpose for being telos and defines the what it means to be a thing of this kind eidos of any particular thing thus setting a closed exclusive boundary and the strict identity necessary for a particular thing to be this and not that In the Book of Changes we find a vocabulary that makes explicit cosmological assumptions that are a stark alternative to this substance ontology It also provides the interpretive context for the canonical texts by locating them within a holistic organic and ecological worldview To provide a meaningful contrast with this fundamental assumption of on or being we might borrow the Greek notion of zoe or life and create the neologism zoe tology as the art of living shengshenglun This cosmology begins from living sheng itself as the motive force behind change and gives us a world of boundless becomings not things that are but events that are happening a contrast between an ontological conception of human beings and a process conception of what the author calls human becomings
