Stewart,2020-02-25 This book is a rhizomatic curriculum autobiography that charts the author s efforts to develop and promote Australian outdoor environmental education practices that are inclusive of and responsive to the places in which they are performed Joining philosophical concepts created by Gilles Deleuze and Felix Guattari with William Pinar s autobiographical method for curriculum inquiry the author re considers the interrelated concepts contexts and complex conversations with colleagues students and others that have shaped his approach to curriculum pedagogy and research for fifteen years or more Emphasising the complexity of developing curricula and pedagogies that engage in a respectful and generative way with the natural and cultural history of the Australian continent the author explicates and enacts his attempts to think differently about the cultural curricular and pedagogical understandings that inform the practices of Australian outdoor environmental educators Outdoor environmental education in Australia has historically been influenced by imported universalist ideas particularly from the USA and the UK However during the last two decades a growing number of researchers in this field have challenged the applicability of such taken for granted approaches and advocated the development of curricula and pedagogies informed by the unique bio geographical and cultural histories of the locations in which educational experiences take place As this book demonstrates Alistair Stewart is prominent among the vanguard of Australian outdoor environmental educators who have led such advocacy by combining practical experience with theoretical rigour *Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts, Volume II* James

and time together yet always apart *Matchsticks Contemplating Eternity* Gregory W. Brown, 2022-01-20 These essays invite the reader to join the author's quest for meaning and wonder in the natural world After the journey out of evangelical fundamentalism recorded in *Unified Field Theology* the journey continues Through years with more darkness than anticipated the light shines through And darkness turns out to be the best place for discerning faint and distant lights The natural forces studied in the search for the unified theory reveal that the creative sustaining power of the universe is real and observable through science Humility and wonder are found responding to the size of the cosmos The strangeness of the quanta invites us to mystery and things beyond rational comprehension accompanied by the assurance that our most basic level is as eternal as the universe Significance appears in caring for each other a trait which is now found in both the animal and plant world as well Returning to traditional sources of faith the Bible remains an amazing library of voices revealing one people's evolution of understanding of the ultimate Like practices of other cultures it invites us to be still and know Life is indeed good We are here together choosing how we respond to a very real God **Queering Contemplation** Cassidy

Hall, 2024-05-21 What would it mean to queer contemplation To disentangle contemplative spirituality from heteronormativity patriarchy and Eurocentricity and instead engage with openness curiosity and a little weirdness The world of contemplative Christianity has yielded to the same voices for far too long many of whom are from centuries before our time with lives unlike our own and often from experiences disconnected from marginalization oppression and what it feels like to be an outsider Cassidy Hall an LGBTQIA Christian contemplative scholar and podcast host takes us on a journey to queer the contemplative tradition For Hall queering is not solely about identifying as queer or applying queer theory it is about what is gained by seeing things differently Queer she says is the way I tilt my head to look at the world As queerness reawakened her own contemplative life Hall discovered that queering and questioning the tradition allowed her to listen more closely to voices that are queer marginalized and oppressed voices that have long existed but have often been overlooked or silenced For Hall that also meant moving differently into contemplation into silence into liminality and ritual In showing us the way she helps us envision what contemplative faith can look like what spiritual spaces we can reclaim for welcome and how queering contemplation and lifting up queer contemplative voices frees us to seek the infinite possibility of our own identity and engage our spiritual lives with open hearts and open hands Whether you're queer or want to queer your own perspectives or whether you want to uncover the queerness and queer voices in the contemplative tradition Hall throws open the doors of contemplative spirituality for all bringing us to contemplation in very new sometimes old but always queer ways **The Atheist's Mass and Other Stories** Honoré de Balzac, 1896 *Contemplating music* Ruth Katz, 1989
