## Contemplations In Verse Two:

Poetry of Contemplation Arthur L. Clements, 1990-06-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists

**Contemplation** John Penwarne, 1807      *Staging Contemplation* Eleanor Johnson, 2018-08-17 What does it mean to contemplate In the Middle Ages more than merely thinking with intensity it was a religious practice entailing utter receptiveness to the divine presence Contemplation is widely considered by scholars today to have been the highest form of devotional prayer a rarified means of experiencing God practiced only by the most devout of monks nuns and mystics Yet in this groundbreaking new book Eleanor Johnson argues instead for the pervasiveness and accessibility of contemplative works to medieval audiences By drawing together ostensibly diverse literary genres devotional prose allegorical poetry cycle dramas and morality plays *Staging Contemplation* paints late Middle English contemplative writing as a broad genre that operated collectively and experientially as much as through radical individual disengagement from the world Johnson further argues that the contemplative genre played a crucial role in the exploration of the English vernacular as a literary and theological language in the fifteenth century tracing how these works engaged modes of disfluency from strained syntax and aberrant grammar to puns slang code switching and laughter to explore the limits norms and potential of English as a devotional language Full of virtuoso close readings this book demonstrates a sustained interest in how poetic language can foster a participatory experience of likeness to God among lay and devotional audiences alike

*Creation and Contemplation* Julien Decharneux, 2023-06-06 In *Creation and Contemplation* Julien Decharneux explores the connections between the cosmology of the Qur'an and various cosmological traditions of Late Antiquity with a focus on Syriac Christianity The first part of the book studies how in exhorting its audience to contemplate the world the Qur'an carries on a tradition of natural contemplation that had developed throughout Late Antiquity in the Christian world In this regard the analysis suggests particularly striking connections with the mystical and ascetic literature of the Church of the East which was in effervescence at the time of the emergence of Islam The second part argues that the Qur'anic cosmological discourse is built so as to serve the overarching theological message of the text namely God's absolute unity Despite the allusive and sometimes obscure way in which the Qur'an talks about the world's coming into being and its maintenance in existence the

text betrays its authors acquaintance with cosmological debates of Late Antiquity In studying the Qur'an through the prism of Late Antiquity this book contributes to our understanding of the emergence of Islam and its relationship with other religious traditions of the time Winner of the 2022 Marie Antoinette Van Huele Prize and the 2023 Richard Kreglinger Prize both Faculty of Philosophy and Social Sciences Free University of Brussels

LES CONTEMPLATIONS of Victor Hugo Suzanne Nash, 2015-03-08 Victor Hugo's work presents the reader with a paradox nowhere more apparent than in the collection of more than 150 lyric poems entitled *Les Contemplations* Although he insisted upon structural unity his complex artistic creations often seem disordered and digressive Suzanne Nash examines this contradiction and she proposes here a new approach to *Les Contemplations* that reveals how it may be read as a unified allegory of Hugo's understanding of the creative process The author's reading heightens the subtleties of individual poems by placing them within the context of the collection She clarifies the poet's use of rhetorical devices and illuminating *Les Contemplations* as a metapoetic creation shows how it can serve as a guide to Hugo's other works The first two chapters present evidence of Hugo's narrative intention place his work within an allegorical tradition and describe the structure of the allegory One poem *Pasteurs et troupeaux* is analyzed as a paradigm for the whole and a single theme that of L'opoldine as sacrificial muse and figure for poetic language is traced through the six books The author demonstrates Hugo's narrative purpose in his use of rhetorical forms and examines according to predominance of themes images and technical devices the six chapters as steps in the religious poetic allegory Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Sober Contemplation* unknown Athos hesychast, **Coleridge and Contemplation** Peter Cheyne, 2017 *Coleridge and Contemplation* is a multi disciplinary volume on Samuel Taylor Coleridge founding poet of British Romanticism critic and author of philosophical political and theological works In his philosophical writings Coleridge increasingly developed his thinking about imagination a symbolizing precursor to contemplation to a theory of contemplation itself which for him occurs in its purest form as a manifestation of Reason Coleridge is a particularly challenging figure because he was a thinker in process and something of an omnimath a Renaissance man of the Romantic era The dynamic

quality of his thinking the dark fluxion pursued but ultimately unfixable by thought and his extensive range of interests make essential an approach that is philosophical yet also multi disciplinary This is the first collection to be written mainly by philosophers and intellectual historians on Coleridge s mature philosophy With a foreword by Baroness Mary Warnock and original essays by prominent philosophers such as Roger Scruton David E Cooper Michael McGhee and Andy Hamilton this volume provides a stimulating collection of insights and explorations into what Britain s foremost philosopher poet had to say about the contemplation that he considered to be the highest of the human mental powers The chapters by philosophers are supported by new developments in philosophically minded criticism from Coleridge scholars in English departments including Jim Mays Kathleen Wheeler and James Engell They approach Coleridge as an energetic yet contemplative thinker concerned with the intuition of ideas and the processes of cultivation in self and society Other chapters from intellectual historians and theologians clarify the historical background and religious musings of Coleridge s thought regarding contemplation
