Contemporary Aesthetics In Scandinavia:

Contemporary Aesthetics in Scandinavia Lars Aagaard-Mogensen, Göran Hermerén, 1980-01-01 Understanding the Arts Jeanette Emt, Göran Hermerén, 1992 **Anxiety in Modern Scandinavian Literature** Markus Floris Christensen, 2024-06-17 This book explores how states and traits of anxiety are reflected in the style and structure of certain works by three key figures of modern Scandinavian literature August Strindberg Inger Christensen Karl Ove Knausgård On the basis of particular literary analyses it develops a literary phenomenology of anxiety as well as a hermeneutical theory of anxiety that considers the ways in which anxiety has been represented in various genres of modern Scandinavian literature from the last three centuries Whereas the former uncovers the ways in which anxiety is reflected in literary form and style the latter interprets the relationship between author text and reader as well as the effects of genre As Strindberg's works capture the tensions between existential indeterminism and naturalistic determinism and make way for negative aesthetic pleasure poetry such as Christensen's challenges scientific and psychiatric conceptions of anxiety and instigates a change in how humans conduct themselves in relation to the experience of anxiety Finally Knausgård's autofictive work gives voice to the socially anxious self of late modernity and incites moments of self-intensification and reorganizes the fragile self of contemporary society In this way it becomes clear that literature is an outstanding archive of representations and transformations in the cultural history of anxiety Literature is an aesthetic medium of expression and reflection that represents anxiety in a number of ways that may enrich our understanding of anxiety today This work thus contributes to cultural and literary scholarship that contests the subjugation of anxiety to a scientific world view and aims to expose the imaginative and creative dimensions of anxiety that are often ignored in contemporary public discourse and policy

Contemporary French and Scandinavian Crime Fiction Anne Grydehøj, 2021-07-05 This book offers a study of Danish Norwegian Swedish and French crime fictions covering a fifty year period From 1965 to the present both Scandinavian and French societies have undergone significant transformations Twelve literary case studies examine how crime fictions in the respective contexts have responded to shifting social realities which have in turn played a part in transforming the generic codes and conventions of the crime novel At the centre of the book's analysis is crime fiction's negotiation of the French model of Republican universalism and the Scandinavian welfare state both of which were routinely characterised as being in a state of crisis at the end of the twentieth century Adopting a comparative and interdisciplinary approach the book investigates the interplay between contemporary Scandinavian and French crime narratives considering their engagement with the relationship of the state and the citizen and notably with identity issues class gender sexuality and ethnicity in particular Landscape and Nature in Scandinavian Art MaryClaire Pappas, Tonje Haugland Sørensen, 2025-04-16 This edited volume foregrounds new and vital scholarship shaping Scandinavian art historical research on the representations of the natural world Contributors deconstruct the interlinking of people and land through critical readings of the Scandinavian

representation of nature bringing to the fore how the traditional focus on the landscape as a manifestation of temperament has tended to obfuscate critical approaches to the representation of the landscape Making interdisciplinary connections this volume redresses the imbalance in scholarship on the region that often emphasizes teleological national narratives and instead situates encounters with nature and the landscape in relationship to more interdisciplinary perspectives Each chapter serves as a specific case study on topics ranging from circumpolar exploration and colonial practices deconstructing National Romanticism myths and contemporary artistic responses to the history of the politics of land The book will be of interest to scholars working in art history visual culture nature studies and environmental history

Gods and Cults in Scandinavian Rock Carvings Anders Askåsen, 2023-06-08 The Bronze Age in Scandinavia is a period of significant societal changes where religious cult activity thrived The rock carvings scattered throughout the landscape hold incredible cultural value and perhaps the key to unlocking the mystery of the religion of the time However the absence of written sources and the complexities of interpretation have left much of the meaning shrouded in enigma The author inspired by the local rock carvings in Askim and around western Sweden aims to unravel their secrets particularly their religious significance to the Bronze Age peoples Although the interpretations of rock carvings vary the author aims to identify religious elements and provide a complementary picture of their connections and parallels to later religious practices The book explores the development of worldview from the Bronze Age to the Viking Age mythology and examines whether there are traces of cultural and religious exchanges with other parts of the world By comparing the petroglyphs with symbolism worldwide the author shows the intimate relationship between spirituality religion society and humans The book serves as a testament to the afterworld attempting to shed light on the enigmatic Scandinavian petroglyphs and archaeologists interpretations of them Despite extensive studies of the petroglyphs the mysterious and arcane nature of these ancient carvings often leaves more questions than answers

Wittgenstein, Aesthetics and Philosophy Peter B. Lewis, 2017-05-15 Although universally recognised as one of the greatest of modern philosophers Wittgenstein s work in aesthetics has been unjustly neglected This is the first book exclusively devoted to Wittgenstein s aesthetics exploring the themes developed by Wittgenstein in his own writing on aesthetics as well as the implications of Wittgenstein s wider philosophical views for understanding central issues in aesthetics Drawing together original contributions from leading international scholars this book will be an important addition to studies of Wittgenstein s thought but its discussion of issues in literature music and performing art and criticism will also be of interest to many students of literary and cultural studies Exploring three key themes the capacity of the arts to illuminate our lives the nature of the particular responses involved in understanding and appreciating works of art the role of theory and principle in artistic and critical practice the contributors address issues raised by contemporary philosophers of art and seek to make connections between Wittgenstein s work and that of other significant philosophies of art in the Western tradition Displaying the best practice of modern philosophical writing clarity cogency respect for but not blind

obedience to common sense argument illustrated with detailed examples rejection of speculation and pretension this book demonstrates how philosophy can make a valuable contribution to understanding the arts [Aesthetic Expertise](#) Ole Martin Skilleås,2024-10-02 In this first ever book length study of aesthetic expertise Ole Martin Skilleås outlines the nature and purpose of aesthetic expertise with particular emphasis on the direction of attention and examines how aesthetic expertise manifests across diverse roles within aesthetic practices He discusses the foundations of aesthetic trust via the concept of calibration thereby developing an outline of social aesthetics using the concept of embedded expertise Skilleås distinguishes between practitioners those who create and perform aesthetically engaging works and advisors who educate enlighten and make recommendations Considering the latter roles *Aesthetic Expertise An Exploration and Defense* argues that aesthetics ought to move away from a paradigm centered on critics and reviewers and the idea of a standard of taste and over to an approach anchored in instruction and the triangulation between instructor artwork and learner This educational interaction is pivotal since not only does it foster a shared language but it tightly links critical reasoning with aesthetic appreciation guided by perceptual guidance and training In doing so it clarifies how meaningful consensus and dissent in aesthetic discourse are possible underpinning our discussions and critiques of artistic works and their interpretations **The**
