Emerging Concepts in Urban Space Design Professor Geoffrey Broadbent,Geoffrey Broadbent,2003-09-06 This important work now available in paperback from Professor Geoffrey Broadbent provides a clear analysis of the nature of many of today s design problems identifying their causes in history and suggesting a basis for co ordinated solutions The author discusses picturesque and formal tendencies in

modern architecture relating them to parallels between philosophic thought and design theory through the ages Using a wealth of international examples from around the world including America UK Italy Germany and France and with over 250 photographs and illustrations **Emerging Concepts in Space Design** offers a fascinating insight into the history and likely future directions of urban design **Contemporary Architects** Ann Lee Morgan, Colin Naylor, 1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor's note [The Landscape of Industry](#) Judith Alfrey, Catherine Clark, 2005-06-20 An intergrated study based on the Ironbridge Gorge which establishes a method for the analysis of complex industrial landscapes **Architect of Letters** Florian Strob, 2022-11-07 News on Ludwig Hilberseimer Ludwig Hilberseimer 1885 1967 is regarded as one of the leading theorists of the Neues Bauen movement in pre War Germany and of modern functional urbanism This set of accomplishments still dominates the public image of the architect urban planner teacher and art critic to this day His development beyond that period has long been neglected The essays in this collection seek to fill this gap offering an exciting and wide ranging new perspective on the work of a central protagonist of modernism Until now most critical studies of Hilberseimer's work came from his place of exile in Chicago and his work in Germany Europe and the USA tended to be viewed separately this volume is the first to attempt to end this separation and encourage a complete overview of his work Previously unknown archival discoveries With contributions by Alexander Eisenschmidt Magdalena Droste Christine Mengin Philipp Oswalt Robin Schuldenfrei Charles Waldheim and others **Forming and Centering** Kenneth M. Moffett, 2017-03-22 In this book a fresh look at the central issues of architecture is assembled and recast into a fully integrated narrative based on two foundational and complementary aspects of architectural design those that give shape and those that give focus forming and centering **Wisconsin Library Bulletin**, 1965 [Mies van der Rohe](#) Franz Schulze, Edward Windhorst, 2020-03-04 An excellent new edition of the definitive biography of the architectural genius with more than a hundred photos Booklist starred review Upon publication this book was praised by the Chicago Tribune and the most comprehensive book ever written about the master designer and by any measure the best while the Christian Science Monitor noted that Schulze has both the gift of an architectural historian able to render Mies's building innovations and that of a biographer able to paint the humanity and shortcomings of the man Newsweek called it a revelation Now this biography of the iconic modernist architect and designer has been extensively updated providing an even more enlightening and intimate portrait of a man who helped to create the twentieth century world This excellent revised edition has 138 illustrations incisive descriptions of Mies innovative creations and a fascinating account of his Pyrrhic victory in a lawsuit against his disaffected client Edith Farnsworth Booklist starred review

This authoritative biography of Mies van der Rohe has been updated through building records the recollections of students and a court transcript It s a gripping read Christopher Woodward Building Design *The House* Stephen Gardiner,2002 This book offers an enlightened overview of the development of house and home from its beginnings in the caves of early man through the variety of structures that have since evolved *Contemporary Architecture and Urbanism in Iran* M. Reza Shirazi,2018-01-02 This book presents an in depth critical analysis of the internationally recognized place specific works of three Iranian architects Nader Ardalan Kamran Diba and Hossein Amanat during the 60s and 70s and their significant contribution to the emerging anti modernist discourse It argues that from the mid 19th century onwards architecture and urban design in Iran has been oscillated between two extremes of modernity and tradition Drawing on the theory of critical regionalism Kenneth Frampton the book critically analyses writings and works of the above mentioned architects and contends that they created a space in between which unified two extremes of tradition and modernity in a creative way Khalq i Jadid New Creation The book also contains three in depth interviews with architects to discuss their singular narrative of the creation of in between A concluding chapter addresses the promises of critical regionalist architecture and urban design in post Revolutionary Iran as well as the Middle East where the dichotomy of tradition and modernity is yet a valid account

Ludwig Hilberseimer Scott Colman,2023-07-27 The German American architect art critic and urban planner Ludwig Hilberseimer was central to avant garde art and architecture in the Weimar Republic an important Bauhaus teacher and long standing collaborator of leading modern architect Ludwig Mies van der Rohe Despite being internationally known for his work on Lafayette Park in Detroit Hilberseimer s legacy as a whole has been obscured in the history of modern architecture Whether this is due to the intense shadow cast by Mies or by his oeuvre being split between the differing languages and contexts of interwar Germany and postwar North America this book argues that the time is now right for a critical reassessment of Hilberseimer s work and writings Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects this study clarifies and situates Hilberseimer s ideas both as an architect and writer and examines their influence on modern and contemporary architecture and urbanism The first synthetic account of Hilberseimer in English it provides a contextual account of Hilberseimer s works which have until now been subject to fragmentary or highly specialized interpretations By demonstrating the influence of Hilberseimer s ideas on the architecture of Mies van der Rohe the book also lends Mies s work a newfound urban significance
