Contemporary Asian Christian Theology:

Contemporary Asian Christian Theology Franklyn J. Balasundaram, 1995 Articles **Asian Christian Theology** Timoteo D. Gener, Stephen T. Pardue, 2019-07-31 Asian Christian Theology provides a survey of contextually reflective robustly evangelical theology for students to engage with the core doctrines of Christianity and their outworking in different cultures across Asia The contributors of the chapters come from all corners of Asia to systematically examine traditional doctrinal themes and contemporary concerns for the Asian church Ideal for use as a companion textbook in Asian seminaries and institutions this book will also provide excellent further reading for those outside of Asia seeking global theological perspectives and for those in contexts of significant Asian diaspora Many excellent books surveying theology exist but this book is a major step forward for students and scholars seeking to understand the dynamic environment of evangelical theology in Asia Frontiers in Asian Christian Theology R. S. Sugirtharajah, 2010-05 The most important emerging themes and voices engaged in Asian Christian theology today *Frontiers in Asian Christian Theology* provides the latest extension of interpretive trends reflected in earlier volumes now unavailable such as the classic *Living Theology in Asia* Arranged thematically *Frontiers in Asian Christian Theology* first captures the ongoing dialogue between the dominant theologies of Asia and the continent's subalterns women tribals and untouchables such as Indian dalits and Japanese burakumin These essayists including Kuribayashi Teruo Arvind P Nirmal Nirmal Minz and Chung Hyun Kyung share the experience of those people who are treated as invisible non entities who recover self identity and self validation in theological expression The next group of essayists among them Peter K H Lee Choi Man Ja Jyoti Sahi Archie Lee Chi Chung and Samuel Rayan provide a wealth of stunning interpretive data in the uniquely Asian method of extra textual hermeneutics This perspective weaves Asian literary and non literary resources into theology Third *Frontiers in Asian Christian Theology* offers examples of the narrative theology that is also a cultural outgrowth of Asia including writings by Aloysius Pieris Kwok Pui Lan M M Thomas Astrid Lobo Gajiwala and Stanley J Samartha Their highly personal stories directly integrate lived experience with theology which as Sugirtharajah points out is a prerequisite for any vibrant dynamic theology *Frontiers in Asian Christian Theology* concludes with essays that document some crucial contemporary issues for Asian theology These include Wang Hsien Chi on Taiwanese homeland theology Noh Jung Sun on Korean reunification Felix Wilfred on human rights Samuel Rayan on the environmental crisis and Tissa Balasuriya on the responsibilities of the theologian in contexts of ethnic conflict *Theology in Interaction* E. C. Byford, 1984 *Christian Theology in Asia* Sebastian C. H. Kim, 2008 The majority of the world's Christians now live outside Europe and North America and global Christianity is becoming increasingly diverse Interest in the history and theology of churches in non Western contexts is growing rapidly as old world churches face this new reality This book focuses on how Asian Christian theologies have been shaped by the interaction of Christian communities with the societies around them and how they relate to the specific historical contexts from which they have emerged The

distinctiveness of Asian Christianity is shown to be the outcome of dealing with various historical challenges Questions addressed include How does Asian Christianity relate to local socio cultural religious and political environments What is distinctive about the historical development of Asian theologies How have Asian theologies contributed to contemporary theological discussions within world Christianity Is God Christian? D. Perman Niles,2017-10-01 Is God Christian Christian Identity in Public Theology An Asian Contribution explores the theological efforts of the current generation as a collective enterprise to survey methods that in the arena of public theology confront and reject the assertion that God is Christian or there is a Christian god among other gods The theological methods discussed in this book are not concerned narrowly with problems in Christian theology but rather with challenges posed for Christian theology in the wider arena of social and political life in Asia **Christian Theology in Asia** Sebastian C. H. Kim,2014-05-14 *Mangoes Or Bananas?* Yung Hwa,1997 *ISG 50: Asian Theology on the Way* Peniel Rajkumar,2013-04-05 This book provides an introduction to theological thought on the Asian continent It is ecumenical in scope with emphasis on the contemporary concerns within Asian theology and some attention to the development of these theologies Regional and subject specialists will capture the ongoing conversation on Asian theology incorporating new emphases thrusts and trends thus making the book a fresh and engaging introduction to Christian theology in Asia *Postcolonial Resistance and Asian Theology* Simon Shui-Man Kwan,2013-11-07 Presenting a fundamental re thinking of Asian theology this book focuses on theological indigenization in Asia in light of the postcolonial theory of resistance advanced by Homi K Bhabha among others Two types of anti colonialist resistance within Asian theologies are identified and interrogated The first is nationalistic in kind operating from a theological language that is binaristic and oppositional The second is illustrated by that which was mounted by the three Chinese Christian thinkers whose indigenous theologies are analysed in this book as case studies This second kind postcolonial in its character is characterized by collaboration rather than antagonistic binarism In spite of much dissimilarity between these two kinds of resistance the book argues that they are similarly anti colonialist and both can be equally valid in resisting colonial forces Given that the binarism and antagonism imbedded in the Asian theological movement are historically contingent and that the sole reliance on this resistance has made the movement self ensnaring the book suggests that the Asian theological movement widen its choice of colonial resistant strategies Drawing attention to the otherwise subtle politics of the Asian theological indigenization discourse this book addresses the relationship between postcolonialism and Asia contextual theology and is of interest to students and scholars of Asian Religion and Philosophy Asian Christian Theology Douglas J. Asia Furthermore it examines the work of each theologian in detail looking at the method and content of their dialogue and outlining its impact upon their respective theologies The book provides a critique of their dialogue and engages with the theological issues that have emerged In areas such as religious identity theological method and liberation theology it is shown that their conversation with Buddhism contributes to the development of a genuinely Asian theology and moreover raises important challenges to the worldwide theological community churches and to those engaged in interreligious dialogue

The Oxford Handbook of Christianity in Asia Felix Wilfred, 2014 Named by the International Bulletin of Missionary Studies as an Outstanding Book of 2014 for Mission Studies Despite the ongoing global expansion of Christianity there remains a lack of comprehensive scholarship on its development in Asia This volume fills the gap by exploring the world of Asian Christianity and its manifold expressions including worship theology spirituality inter religious relations interventions in society and mission The contributors from over twenty countries deconstruct many of the widespread misconceptions and interpretations of Christianity in Asia They analyze how the growth of Christian beliefs throughout the continent is linked with the socio political and cultural processes of colonization decolonization modernization democratization identity construction of social groups and various social movements With a particular focus on inter religious encounters and emerging theological and spiritual paradigms the volume provides alternative frames for understanding the phenomenon of conversion and studies how the scriptures of other religious traditions are used in the practice of Christianity within Asia

The Asianization of Christianity Jonathan D. James, 2024-11-05 Christianity has long been associated with the West often creating a disjunction affecting the understanding of the essence of the gospel The Asianization of Christianity is a clarion call by Asian Christian leaders for the gospel to be indigenized by encouraging practitioners to seriously engage with both the Bible and the cultures of Asia The book demonstrates that both the theology and the presentation of the gospel need to be framed according to the mindset of the respective Asian cultures so that the message of the Bible can be understood and accepted Case studies on evangelism church and training models from several Asian nations are explored Core issues such as culture communication and contextualization underpin the practical cases to give depth and clarity for the effective communication of the gospel

The ^ANew Faces of Christianity Philip Jenkins, 2006-09-01 Named one of the top religion books of 2002 by USA Today Philip Jenkins s phenomenally successful The Next Christendom permanently changed the way people think about the future of Christianity In that volume Jenkins called the world s

attention to the little noticed fact that Christianity's center of gravity was moving inexorably southward to the point that Africa may soon be home to the world's largest Christian populations. Now in this brilliant sequel Jenkins takes a much closer look at Christianity in the global South revealing what it is like and what it means for the future. [A History of Christianity in Asia, Vol. II](#) Samuel Hugh Moffett, 2014-07-30. This second volume of Samuel Moffett's acclaimed History of Christianity in Asia illustrates the advance of the modern missionary movement in the continent of its birth. Like the first volume it makes available immense research in a readable and engaging narrative. Moffett brings into dramatic relief events that illustrate both the broad patterns and the vital details of the spread of Christianity on a continent.
