Symbolic Directions in Modern Astrology

Charles E O Carter, 2010-04 In this book Charles Carter 1887 1968 seeks a method of astrological forecasting that produces accurate results without the complicated calculations of Primary Directions To quote Carter an ideal directional system should fulfil four criteria 1 No important event should pass without a direction 2 No direction should pass without an event 3 Events and directions should correspond narrowly in time 4 Events and directions should correspond in character from page 10 To achieve these goals Carter examined a number of symbolic systems Symbolic because they were not based on any actual planetary movement but rather were arcs arbitrarily chosen and then uniformly applied to all factors in the natal chart In this book he presents the best of his research Among the systems of exceptional merit are the One degree the Naibod 59 8 the Duodenary 2030 the Sub duodenary 12 30 the Septenary 4 2 7 0 Novenary 3020 and the Fractional Measure which is based on natal aspects Along the way Carter's restless mind tackled the subject of death Here he discovered what he termed the Measure of Death He says while it does not always forecast death the Measure of Death is always present at death Carter found symbolic directions to have real value in astrological forecasting His work remains unique This book was first published in 1929

Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 3: Khayyami Astronomy Mohammad H. Tamdgidi, 2021-06-01 Omar Khayyam's Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination is a twelve book series of which this book is the third volume subtitled Khayyami Astronomy How Omar Khayyam's Newly Discovered True Birth Date Horoscope Reveals the Origins of His Pen Name and Independently Confirms His Authorship of the Robaiyat Each book is independently readable although it will be best understood as a part of the whole series In the overall series the transdisciplinary sociologist Mohammad H Tamdgidi shares the results of his decades long

research on Omar Khayyam the enigmatic 11th 12th centuries Persian Muslim sage philosopher astronomer mathematician physician writer and poet from Neyshabour Iran whose life and works still remain behind a veil of deep mystery Tamdgidi's purpose has been to find definitive answers to the many puzzles still surrounding Khayyam especially regarding the existence nature and purpose of the Robaiyat in his life and works To explore the questions posed he advances a new hermeneutic method of textual analysis informed by what he calls the quantum sociological imagination to gather and study all the attributed philosophical religious scientific and literary writings of Khayyam Omar Khayyam's true birth date horoscope as newly discovered in this series is comprised of a dazzling number of Air Triplicities sharing a vertex on a Sun Mercury Cazimi point on the same Ascendant degree 18 of Gemini Among other features his Venus Sextile with Moon also plays a lifelong secretly creative role to intentionally balance his chart These features would not have escaped the attention of Omar Khayyam a master astronomer and expert in matters astrological no matter how much he embraced doubted or rejected astrological interpretations In this third book of the series conducting an in depth hermeneutic analysis of Khayyam's horoscope Tamdgidi reports having discovered the origins of Khayyam's pen name in his horoscope The long held myth that Khayyam was a parental name even if true in no way takes away from the new finding it only adds to its intrigue Tamdgidi's hermeneutic analysis of Khayyam's horoscope in intersection with extant Khayyami Robaiyat also leads him to discover an entirely neglected signature quatrain that he proves could not be from anyone but Khayyam one that provides a reliably independent confirmation of his authorship of the Robaiyat He also shows how another neglected quatrain reporting its poet to have aged to a hundred is from Khayyam This means all the extant Khayyami quatrains are now in need of hermeneutic reevaluation Tamdgidi's further study of a sample of fifty Khayyami Robaiyat leads him to conclude that their poet definitively intended the poems to remain in veil that they were considered to be a collection of interrelated quatrains and not sporadic separate quatrains written marginally in pastime that they were meant to offer a life's intellectual journey as in a book of life that the poems critically nuanced engagement with astrology was not incidental but essential throughout the collection and that judging from the signature quatrain discovered 1000 quatrains were intended to comprise the collection Oddly it appears that after all The Khayyam who stitched his tents of wisdom was a trope that had its origins in Omar Khayyam's horoscope heavens
