Literature Nick Levey,2016-11-18 This book begins a new and foundational discussion of maximalism by investigating how the treatment of detail in contemporary literature impels readers to navigate tolerate and enrich the cultural landscape of postindustrial America It studies the maximalist novels of David Foster Wallace Nicholson Baker Thomas Pynchon and others considering how overly detailed writing serves the institutional emotional and intellectual needs of contemporary readers and writers The book argues that maximalist novels not only exceed perceived limits of style subject matter and scope but

strive to remake the usefulness of books in contemporary culture refreshing the act of reading Levey shows that while these novels are preoccupied with detail and description they are relatively unconcerned with the traditional goals of representation Instead they use detail to communicate particular values and fantasies of intelligence enthusiasm and ability attached to the management of complex and excessive information Whether reinvigorating the banal and trivial in mainstream culture or soothing anxieties of human insufficiency in the age of automation and the internet these texts model significant abilities rather than just objects of significance and encourage readers to develop habits of reading that complement the demands of an increasingly detailed culture Drawing upon a diverse range of theoretical schools and cultural texts including Thing Theory Marxism New Formalism playlists blogs and archival manuscripts the book proposes a new understanding of maximalist writing and a new way of approaching the usefulness of literary objects in contemporary culture

The Sexual Revolution in Modern American Literature I. Glicksberg,2012-12-06 1 The Dialectic of the Sex Motif in Literature Sex is a function of culture in literature today it plays only a small though aggressively righteous part Nature long held in bondage periodically breaks out in revolt but its victory is never complete In every society primitive as well as modern the sexual instinct is for good or evil always subject to some measure of regulation and restraint In literature where the battle between love and sex spirit and flesh is fought out in terms of symbolic action the writers support their cause for or against sexual freedom with varying degrees of evangelical ardor and outspokenness On this issue there is no unanimity for the simple reason that

American culture is not unified in its beliefs concerning the nature of man The central conflict between instinctual needs and the claims of the ideal between physical desire and the inner check between Dionysus and Christ goes on all the time Sublimation is the cultural process whereby sexual energy is deflected from its biological source and diverted into spiritually higher and socially more useful channels But sublimation is for most men hard to achieve As civilization grows more complex the individual is exposed to a series of increasingly severe moral strains Pitted against Nature while subject to its laws he must hence forth be governed in his behavior by inner as well as outer controls *A History of American Literature* Richard Gray,2011-09-23 Updated throughout and with much new material A History of American Literature Second Edition is the most up to date and comprehensive survey available of the myriad forms of American Literature from pre Columbian times to the present The most comprehensive and up to date history of American literature available today Covers fiction poetry drama and non fiction as well as other forms of literature including folktale spirituals the detective story the thriller and science fiction Explores the plural character of American literature including the contributions made by African American Native American Hispanic and Asian American writers Considers how our understanding of American literature has changed over the past thirty years Situates American literature in the contexts of American history politics and society Offers an invaluable introduction to American literature for students at all levels academic and general readers *Contemporary American Literature* Paul Green,Elizabeth Lay Green,1925
