Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and

analysis of his or her doctrines and ideas bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

Modern American Oratory Ralph Curtis Ringwalt, 1898 *Speech and Silence in American Law* Austin Sarat, 2010-03-31 Rather than abstract philosophical discussion or yet another analysis of legal doctrine *Speech and Silence in American Law* seeks to situate speech and silence locating them in particular circumstances and contexts and asking how context matters in facilitating speech or demanding silence To understand speech and silence we have to inquire into their social life and examine the occasions and practices that call them forth and that give them meaning Among the questions addressed in this book are who is authorized to speak And what are the conditions that should be attached to the speaking subject Are there occasions that call for speech and others that demand silence What is the relationship between the speech act and the speaker Taking these questions into account helps readers understand what compels speakers and what problems accompany speech without a known speaker allowing us to assess how silence speaks and how speech renders the silent more knowable

Extreme Speech and Democracy Ivan Hare, James Weinstein, 2010-11-18 A commitment to free speech is a fundamental precept of all liberal democracies However democracies can differ significantly when addressing the constitutionality of laws regulating certain kinds of speech In the United States for instance the commitment to free speech under the First Amendment has been held by the Supreme Court to protect the public expression of the most noxious racist ideology and hence to render unconstitutional even narrow

restrictions on hate speech In contrast governments have been accorded considerable leeway to restrict racist and other extreme expression in almost every other democracy including Canada the United Kingdom and other European countries This book considers the legal responses of various liberal democracies towards hate speech and other forms of extreme expression and examines the following questions What accounts for the marked differences in attitude towards the constitutionality of hate speech regulation Does hate speech regulation violate the core free speech principle constitutive of democracy Has the traditional US position on extreme expression justifiably not found favour elsewhere Do values such as the commitment to equality or dignity legitimately override the right to free speech in some circumstances With contributions from experts in a range of disciplines this book offers an in depth examination of the tensions that arise between democracy s promises

A Comparison of the Forms of Support Used in Contemporary American Protestant Pulpit Address with the Forms of Support Used in Other Contemporary American Public Address

Harold Allen Miller,1962 The Routledge Dictionary of Modern American Slang and Unconventional English Tom Dalzell,2009 Rev ed of Dictionary of slang and unconventional English by E Partridge 8th ed 1984 **The Force of Fantasy** Ernest G. Bormann,2001 In this book first published in 1985 Ernest G Bormann explores mass persuasion in America from 1620 to 1860 examining closely four rhetorical communities the revivals of 1739 1740 the hot gospel of the postrevolutionary period the evangelical revival and reform of the 1830s and the Free Soil and Republican parties Each community varies greatly but Bormann asserts that each succeeding community shares a rhetorical vision of restoring the American Dream that is essentially a modification of the previous visions Thus they form a family of rhetorical visions that constitutes a rhetorical tradition of importance in nineteenth century American popular culture **The Prophetic Tradition and Radical Rhetoric in America** James Darsey,1999-09-01 This expansive volume traces the rhetoric of reform across American history examining such pivotal periods as the American Revolution slavery McCarthyism and today s gay liberation movement At a time when social movements led by religious leaders from Louis Farrakhan to Pat Buchanan are playing a central role in American politics James Darsey connects this radical tradition with its prophetic roots Public discourse in the West is derived from the Greek principles of civility diplomacy compromise and negotiation On this model radical speech is often taken to be a symptom of social disorder Not so contends Darsey who argues that the rhetoric of reform in America represents the continuation of a tradition separate from the commonly accepted principles of the Greeks Though the links have gone unrecognized the American radical tradition stems not from Aristotle he maintains but from the prophets of the Hebrew Bible **Contemporary American Speeches** Richard L. Johannesen,2000 Contains a collection of transcripts of contemporary American speeches providing brief biographical information on the author of each speech as well as critical and historical context Includes CD ROM with forty two significant speeches Catalog of Copyright Entries.
