López, 2001 The premature death of Ricardo Sánchez in

1995 marked the passing of an almost legendary figure in Chicano literature and in the Chicano political movement. A troubadour of Chicano Movement poetry, he established an anti-aesthetic that became the norm. Sánchez's autobiographical poetry forges a link between genres of the past and present and establishes him as the first great tragic figure of contemporary Chicano literature. In a body of work that spanned spatial, temporal, and cultural boundaries, Sánchez dealt with issues of power and of linguistic and cultural barriers between Anglo Native American and Mexican American peoples in the United States. While he lived, critics showed reluctance to engage Sánchez's work fully, perhaps in part because of his reputation as a confrontational even outrageous individual. Focusing on *Canto y grito: mi liberación* and *Hechizo*, spells Miguel R. López examines Sánchez's work and places him in the context of the past, present, and future of Chicano literature. López explains clearly the relation of time and space in Sánchez's prolific work and shows him as a writer committed to his craft as well as to his political stance. In the end, the portrait that emerges is of a poet whose work was linguistically and thematically complex and one who was more passionate, controversial, and forthright in his expression than any other contemporary Chicano writer.

meXicana Fashions Aída Hurtado, Norma E. Cantú, 2020-01-10. Collecting the perspectives of scholars who reflect on their own relationships to particular garments, analyze the politics of dress, and examine the role of consumerism and entrepreneurialism in the production of creating and selling a style, *meXicana Fashions* examines and searches for meaning in these visible performative aspects of identity. Focusing primarily on Chicanas but also considering trends connected to other Latin American communities, the authors highlight specific constituencies that are defined by region, Tejana style, L.A. style, age group, homie, chola, and social class, marked by haute couture labels such as Carolina Herrera and Oscar de la Renta. The essays acknowledge the complex layers of these styles, which are not mutually exclusive but instead reflect a range of intersections in occupation, origin, personality, sexuality, and fads. Other elements include urban indigenous fashion, shows, the shifting quinceañera market, walking altars on the Days of the Dead, plus-size clothing, huipiles in the workplace, and dressing in drag. Together, these chapters illuminate the full array of messages woven into a vibrant social fabric.

Contemporary Chicana and Chicano Art Gary D. Keller, 2002. *Contemporary Chicana and Chicano Art* brings into sharp focus the rich diversity of an art movement that is now achieving full recognition in the art community at large. These two volumes encapsulate the lives and careers of nearly two hundred artists, from such established masters as Luise Jiménez and Yolanda López to emerging new talents Xochitl Cristina Gil and Vincent Valdez, and presents representative samples of their work faithfully reproduced in color. The full range of visual arts is established here, with more than six hundred individual works: paintings, sculptures, installation, serigraphs, lithographs, photographs, digital works, some traditional, others boldly controversial. Separate commentary helps to evaluate the work of each artist and to place it in the context of the movement. Additional thematic sections are included, illustrating Chicana/Chicano artists' explorations of subjects from the barrio to the border, from lowriders to *El Día de los Muertos*. From publisher's description.
