The Culture of Medieval English Monasticism James G. Clark, 2007 Examinations of the culture artistic material musical of English monasteries in the six centuries between the Conquest and the Dissolution The cultural remains of England s abbeys and priories have always attracted scholarly attention but too often they have been studied in isolation appreciated only for their artistic codicological or intellectual features and not for the insights they offer into the patterns of life and thought the underlying norms values and mentalities of the communities of men and women which made them Indeed the distinguished monastic historian David Knowles doubted there would ever be sufficient evidence to recover the mentality of the ordinary cloister monk These twelve essays challenge this view They exploit newly catalogued and newly discovered evidence manuscript books wall paintings and even the traces of original monastic music to recover the cultural dynamics of a cross section of male and female communities It is often claimed that over time the cultural traditions of the monasteries were suffocated by secular trends but here it is suggested that many houses remained a major cultural force even on the verge of the Reformation James G Clark is Professor of History at the University of Exeter Contributors DAVID BELL ROGER BOWERS JAMES CLARK BARRIE COLLETT MARY ERLER G R EVANS MIRIAM GILL JOAN GREATREX JULIAN HASELDINE J D NORTH ALAN PIPER AND R M THOMSON
