Online Maps with APIs and WebServices Michael P Peterson, 2012-03-30 The Internet has become the major form of map delivery The current presentation of maps is based on the use of online services This session examines developments related to online methods of map delivery particularly Application Programmer Interfaces APIs and MapServices in general including Google Maps API and similar services Map mashups have had a major impact on how spatial information is presented The advantage of using a major online mapping site is that the maps represent a common and recognizable representation of the world Overlaying features on top of these maps provides a frame of reference for the map user A particular advantage for thematic mapping is the ability to spatially reference thematic data

Reading Programs for Young Adults Martha Seif Simpson, 2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs

Eighth International Symposium "Monitoring of Mediterranean Coastal Areas. Problems and Measurement Techniques" Livorno (Italy) June 2020 Laura Bonora, Donatella

Carboni, Matteo De Vincenzi, 2022-10-14 The 8th International Symposium Monitoring of Mediterranean Coastal Areas

Maps and the Internet M.P. Peterson, International Cartographic Association, 2005-12-17 This book examines a new trend affecting cartography and geographic information science Presenting the work of over 30 authors from 16 different countries the book provides an overview of current research in the new area of Internet Cartography Chapters deal with the growth of this form of map distribution uses in education privacy issues and technical aspects from the point of view of the map provider including Internet protocols such as XML and SVG Many see the Internet as a revolution for cartography Previously tied to the medium of paper and expensive large format color print technology maps had a limited distribution and use The Internet made it possible to not only distribute maps to a much larger audience but also to incorporate interaction and animation in the display Maps have also become timelier with some maps of traffic and weather being updated every few minutes In addition it is now possible to access maps from servers throughout the world Finally the Internet has made historic maps available for viewing to the public that were previously only available in map libraries with limited access Provides comprehensive coverage of maps and the internet Delivers a global perspective Combines theoretical and practical aspects

Copyright and Multimedia Julian Rodriguez Pardo, 2003-01-01 Technology has affected a wide range of issues in our personal and professional lives And in doing so it has opened the door for new legal questions especially with regard to intellectual property and more specifically copyright New legal questions have arisen with respect to the authorship of web pages databases computer programs and in general multimedia work Is this technology internationally protected Can internet piracy be considered piracy To whom does the copyright belong when more than one author exists When is it necessary to resort to technical protection devices By examining international laws such as the WIPO treaties and EU law this book offers a clear answer to these questions while focusing on how copyright does or does not protect new technology It also examines alternative ways of protecting technologies that present the real possibility of appealing to patent and trademark law as well as an overview of the multimedia concept and the origins of copyright This book s simple structure helps the reader to understand how to utilize current laws to protect one s work and offers an interesting and informative analysis of the subject

A Dictionary of the Avant-Gardes , 2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and

performance art as well as architecture science and culture **Multimedia Cartography** William Cartwright, Michael P

Peterson, Georg Gartner, 2013-03-14 Multimedia Cartography provides a contemporary overview of theoretical issues related to multimedia mapping and the design and production elements that are unique to this form of cartography. The proliferation of interactive multimedia products on CD ROM and the Internet via the World Wide Web has generated an immense interest in multimedia mapping products. The approach to producing interactive multimedia maps is quite unique and there has been an upsurge of interest in developing methodologies that best exploit both the technology and communication effectiveness of multimedia mapping. The book has been written for professional cartographers interested in moving into multimedia mapping for cartographers already involved in producing multimedia titles who wish to discover the approaches that other practitioners in multimedia cartography have taken and for students and academics in the mapping sciences and related geographical fields wishing to update their knowledge about current issues related to cartographic design and production. It provides a new avant garde approach to cartography one based on the exploitation of the many rich media components that multimedia offers. Travellers, Merchants and Settlers in the Eastern Mediterranean, 11th-14th Centuries David

Jacoby, 2023-05-31 This collection of studies the eighth by David Jacoby covers a period witnessing intensive geographic mobility across the Mediterranean illustrated by a growing number of Westerners engaging in pilgrimage, crusade, trading and shipping or else driven by sheer curiosity. This movement also generated western settlement in the eastern Mediterranean region. A complex encounter of Westerners with eastern Christians and the Muslim world occurred in crusader Acre, the focus of two papers, a major emporium. It was also the scene of fierce rivalry between the Italian maritime powers. The fall of the crusader states in 1291 put an end to western mobility in the Levant and required a restructuring of trade in the region. The next five studies show how economic incentives promoted western settlement in the Byzantine provinces conquered by western forces during the Fourth Crusade and soon after Venice fulfilled a major function in Latin Constantinople from 1204 to 1261. The city's progressive economic recovery in that period paved the way for its role as transit station, furthering western trade and colonization in the Black Sea region. Venice had also a major impact on demographic and economic developments in Euboea, located along the maritime route connecting Italy to Constantinople. On the other hand, military factors drove an army of western mercenaries to establish in central Greece a Catalan state which survived from 1311 to the 1380s. **The NICE Cyber Security Framework** Izzat Alsmadi, 2019-01-24 This textbook is for

courses in cyber security education that follow National Initiative for Cybersecurity Education (NICE) KSAs, work roles and framework that adopt the Competency Based Education (CBE) method. The book follows the CBT KSA general framework meaning each chapter contains three sections: knowledge and questions and skills labs for Skills and Abilities. The author makes an explicit balance between knowledge and skills material in information security, giving readers immediate applicable skills. The book is divided into seven parts: Securely Provision, Operate and Maintain, Oversee and Govern, Protect and Defend, Analysis, Operate and Collect, Investigate. All classroom materials in the book and ancillary adhere to the NICE framework.

Mirrors classes set up by the National Initiative for Cybersecurity Education NICE Adopts the Competency Based Education CBE method of teaching used by universities corporations and in government training Includes content and ancillaries that provide skill based instruction on compliance laws information security standards risk response and recovery and more
