Cycles In Universe And Man:

Men and the Cycles of the Universe Albertus (Frater.),1970 In the foregoing pages an attempt was made to provide the reader with information about the cycles of the universe as they make themselves felt upon this earth and all that is to be found thereon and therein Here is a different approach to that commonly used by astrologers and those who by qabalistic methods alone try to fathom and interpret cosmic influences Due to the fact that in other systems incomplete answers confront the serious inquirer further research into these cycles will produce more accurate results than are presently available through other media alone The Paracelsus Research Society plans to enlarge this portfolio with additional cycles These maps will explain in more detail the life of an individual who is making a serious attempt to find himself as an integrated part of cyclic events during his present sojourn upon this earth Conclusion page 43 of accompanying booklet
