Cycles Of Life Through A Spiritual And Planetary Perspective:

Cycles of Life Duke De Faria, 2001 The Anthroposophical Soul Calendar and the Incarnation Cycle of Man Roland Schrapp, 2021-01-14 This book takes a completely new look at the Anthroposophical Soul Calendar. It is about the deeper meaning of the fifty-two weekly verses which have remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them of which it is well known that no mortal person can lift it. Only the immortal psycho-spiritual human being who knows himself at home in the extrasensory higher worlds is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual cosmic realms until he reaches the experience of God from where he gradually descends again into a new life on Earth enriched in spirit and fertilized in his soul. If the reader embarks on this journey the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books the author virtually lets Steiner himself elucidate the breathtaking depths of his mysterious weekly verses. *The Mirroring of Life before Birth in the Seven-Year Periods of Human Life on Earth* Roland Schrapp, 2023-02-28 Between death and a new birth on earth the human being lives through a long cosmic existence in the higher worlds. This is mirrored in the earthly life Rudolf Steiner described its division into seven-year periods and the connection with the pre-birth existence in the planetary spheres. Apart from this there is another division including higher spheres of the fixed stars. Rudolf Steiner only gave us a hint. In line with this and based on his own experiences on the path of spirit-discipleship the author of this book gives examples how these different stages of life between death and rebirth can express themselves in the course of earthly life. He also explains in which of the seven-year periods the conditions for learning something about one's own previous incarnation are particularly favourable. In addition he describes the connection of the later seven-year periods of earthly life with the Life Spirit Budhi as well as the preparation of mankind for receiving it by a development which Rudolf Steiner called the gradual getting younger of mankind and which started at the times of the primeval Semites in ancient Atlantis. For everyone who follows or aspires to the path of spiritual discipleship or is interested in biography work a highly recommended book. **Religion and Spirituality in the Life Cycle** James Gollnick, 2005 In recent years profound changes have affected the way people view the role of religion and spirituality in the life cycle. For many people spirituality always considered an essential part of religion has become an interest no longer tied to organized religion. This book addresses the evolving relationship of spirituality to religion in our time and the consequences of this change for understanding personality development. It also applies the concept of implicit religion to show how the least easily observed aspects of religion are at work in the growth of personality. **Life Cycles** Michael Douglas Neely, 2016-06-27 *Life Cycles Astrology and Its Connection to Nature* lays out Michael Douglas Neely's theories about the mysterious astrological principle of Exaltation and Debilitation. After tenaciously working to figure out why certain planets were considered exalted

or debilitated at particular degrees of the zodiac Michael discovered that these are better identified as upswing and downswing points within a life cycle that also has climax and anticlimax points Each planet has its own unique life cycle that manifests its quality in nature The planets cooperating together create the fractal like nature we experience in a daily annual and human lifetime cycle Michael Douglas Neely has been an astrology enthusiast since 2002 He has studied and tested various forms of astrology on a theoretical and practical level Particularly he has a keen interest in the astrology theories and techniques of Jyotish East Indian Astrology He resides in Seattle Washington Planets in Therapy Greg Bogart,2012-06-12 This book explores archetypal symbolism predictive technique and counseling process in therapeutic astrology Combining insights from Jungian depth psychology developmental theory alchemy and dream symbolism with the precision of planetary transits progressions and midpoints Planets in Therapy is an inspiring approach to the healing art of astrology Planets in Therapy clearly and succinctly explains the interpretation of the language and techniques of astrology the depth psychological transpersonal and spiritual meaning of planetary symbolism and its power to heal and transform Greg Bogart masterfully guides the reader through the principles of psychological astrology emphasizing the process of selftransformation spiritual evolution and discovering the meaning in every event and every moment A wide range of examples demonstrate how to apply this knowledge to skillfully help others as a counseling astrologer **A Flight of Delight** Jyotikar K

PATTNI,2006-05-01 A Flight of Delight is a work of experiential philosophical text that contemplates the nature of such subtle topics as Karmic evolution Divine Cosmic Truth and the relationship between Divinity and Humankind Utilising an expressive narrative approach that places emphasis on description and aesthetics finely the author has endeavoured to render a thought provoking analysis in a prose poetic style The fine text touches the core concepts of theology that look at life as a freely flowing channel of energies in profound human experiences One of the central ideas of the work is the difference between institutional religion and experiential philosophy with the conceptual emphasis leaning toward the latter Fear destroys true faith Institutional religion is constrictive that remains fixated on rules systems and political bureaucracies A profound human spiritualism on the other hand suggests a cyclical direction of energy that flows without fear suppression oppression exploitation manipulation and falsity Realising and understanding compassion and love is much more important and significant than following set of doctrines in conflict This is attainable in spiritual evolution a self discovery in profound experiences without the confines of specific creed cast or race The discourse includes detailed explorations of different types of Vedic yoga s mantras and consciousness The emphasis placed on the pursuit of divine wisdom and divinity incorporates all of these elements to form a comprehensive insight of profound experience for the inner well ness and peace The reader of A Flight of Delight may also benefit from the organised structure afforded to the text The detailed explanation of the experiential theories familiarises the reader with carefully distilled notions of spiritualism and divinity Here is an extraordinary work of self healing texts from a very special person who has journeyed through adversities himself The lyrics of this

book are particularly special because the author writes from the depth of his heart to express in the profoundest sense the relevance of the ancient Vedic Wisdom to the hectic modern world The mind enriching lyrics bring to us a re awakening of beautiful divinity filled with solace hope and compassionate love Life oh life Let it be a flight of delight *Pleiadian Perspectives on Human Evolution* Amorah Quan Yin,1996-05-01 The Pleiadian Emissaries of Light provide this fascinating chronicle of human spiritual evolution from a galactic perspective This wider history of our solar system restores the long forgotten connection of humankind with Venus Mars Maldek and Earth The truth about our ancient past is uncovered helping us to remember the experiences that have caused us to function dualistically and guiding us toward karmic wholeness as unified and divine beings The Mayan Calendar and the Transformation of Consciousness Carl Johan Calleman,2004-03-25 Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future Shows the connection between cosmic evolution and actual human history Provides a new science of time that explains why time not only seems to be speeding up in the modern world but is actually getting faster Explains how the end of the Mayan calendar is not the end of the world but a path toward enlightenment The prophetic Mayan calendar is not keyed to the movement of planetary bodies Instead it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows providing a new science of time The calendar is associated with nine creation cycles which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid Through empirical research Calleman shows how this pyramidal structure of the development of consciousness can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster Time in fact is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness the Galactic Underworld in preparation for the final Universal level of conscious enlightenment Calleman reveals how the Mayan calendar is a spiritual device that enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment Leadership at the Spiritual Edge Mohammed Raei,Stacey K.
