After Civil War Bill Kissane, 2015. Civil war inevitably causes shifts in state boundaries, demographics, systems of rule, and the bases of legitimate authority. Many of the markers of national identity. Yet a shared sense of nationhood is as important to political reconciliation as the reconstruction of state institutions and economic security. *After Civil War* compares reconstruction projects in Bosnia, Cyprus, Finland, Greece, Kosovo, Northern Ireland, the Republic of Ireland, Spain, and Turkey in order to explore how former combatants and their supporters learn to coexist as one nation in the aftermath of ethnopolitical or ideological violence. *After Civil War* synthesizes research on civil wars, reconstruction, and nationalism to show how national identity is reconstructed over time in different cultural and socioeconomic contexts in strong nation states as well as those with a high level of international intervention. Chapters written by anthropologists, historians, political scientists, and sociologists examine the relationships between reconstruction and reconciliation, the development of new party systems after war, and how globalization affects the processes of peacebuilding. *After Civil War* thus provides a comprehensive comparative perspective to a wide span of recent political history, showing postconflict articulations of national identity can emerge in the long run within conducive institutional contexts. Cyprus and the Roadmap for Peace Michális S. Michael, Yücel Vural, 2018-10-26. The UN-led Cyprus peace process is in desperate need of radical transformation. This book makes a notable contribution towards changing the current discourse by empowering the main parties to better value their relationship. By altering goals and perceptions, the authors explore alternative visions for the future of Cyprus, suggesting both realistically feasible and politically challenging ideas. Using an exciting, innovative, and multifocal approach, the authors discuss the practical application of resolutions and explore the radical disagreements of the conflict at both social and political levels. Reflecting on the idea of a post-settlement situation and the prospect of such a reality, chapters illustrate the problems, challenges, and political dynamics of Cyprus. The book explores the conceptual approaches to dialogue, a review of Greek, Turkish, and Cypriot policies, the challenging roles of the UN and EU, Greek, Cypriot, and Turkish Cypriot perspectives on the conflict, and finally dialogical reflections and debates on past and future problems. Allowing open and expressive dialogue, this book will interest those in academic and practitioner roles focused on international politics, conflict resolution, and peace studies. It allows for further understanding of the complex
