Cyprus Question And The Turkish Position In International Law:

The Cyprus Question and the Turkish Position in International Law Zaim M. Necatigil, 1989 An examination from the Turkish viewpoint of the recent history of Cyprus and the legal issues raised in connection with developments that took place there after 1963 The author also discusses events of the 1980s with details of political negotiations up to the early months of 1988

Greek-Turkish Relations in an Era of Détente Barry Rubin, Ali Çarkoglu, 2020-05-04 Greek Turkish conflict ridden relations have long occupied a problematic position in the Western alliance first in NATO then more dramatically within the context of the newly developing European Union and its defence initiatives Following three major earthquakes on both sides of the Aegean the two countries have now experienced firstly a public empathy towards each other and secondly a significant diplomatic rapprochement This rapprochement though has failed to resolve the Cyprus conflict and is now at risk of reverting back to a series of conflicts This book addresses the crucial issues between Greece and Turkey from a critical perspective and provides an up to date assessment of the current state of the Greek Turkish rapprochement and its future development This book was previously published as a special issue of the journal Turkish Studies

Transition from Illegal Regimes under International Law Yaël Ronen, 2011-05-19 Yaël Ronen analyses the international legal ramifications of illegal territorial regimes namely the illegal annexation of territory or illegal declarations of independence by reference to the stage of transition from an illegal territorial regime to a lawful one Six case studies Namibia Zimbabwe the Baltic States the South African Bantustans East Timor and northern Cyprus are used to explore the tension between the invalidity of the illegal regime's acts and their effectiveness with respect to the international relations of such territories their domestic legal systems the status of settlers and land transfers Relying heavily on primary and previously unconsidered sources she focuses on the international legal constraints on the post transition regime's policy particularly in the context of international human rights law

The International Law of Occupation Eyal Benvenisti, 2012-02-23 This is the long awaited second edition of a landmark book on the law of occupation Covering developments since 1992 including the case of Iraq and recent developments in the Middle East this book will include new chapters on the historical evolution of the concept of occupation collective occupations and ending occupations

Legal Aspects of the Cyprus Problem Frank Hoffmeister, 2006-07-01 The five versions of the comprehensive settlement plan for Cyprus which UN Secretary General Annan tabled between 2002 and 2004 raised a variety of international law and European law questions This book contains the first systematic analysis of the Annan plan thereby providing an overview of the legal aspects of the Cyprus problem It also discusses how the plan was intended to be accommodated in the European legal order Did it comply with the fundamental principle of democracy rule of law and human rights Would a united Cyprus have been able to speak with one voice and to implement EU law properly The Author who has worked both for the European Commission and for the UN Special Advisor on Cyprus presents a precise account of facts and thorough legal assessments He also tackles current legal problems arising out of Cyprus membership in

the EU and the suspension of the *acquis communautaire* in the northern part of Cyprus He finally analyses how the question of recognition affects the relations between Cyprus and Turkey The book is an ideal choice for practitioners and researchers because it combines first hand information on the most recent developments on Cyprus with legal evaluations from an international official trained in international and European law

Diversity and Self-Determination in International

Law Karen Knop, 2002-04-18 The emergence of new states and independence movements after the Cold War has intensified the long standing disagreement among international lawyers over the right of self determination especially the right of secession Knop shifts the discussion from the articulation of the right to its interpretation She argues that the practice of interpretation involves and illuminates a problem of diversity raised by the exclusion of many of the groups that self determination most affects Distinguishing different types of exclusion and the relationships between them reveals the deep structures biases and stakes in the decisions and scholarship on self determination Knop's analysis also reveals that the leading cases have grappled with these embedded inequalities Challenges by colonies ethnic nations indigenous peoples women and others to the gender and cultural biases of international law emerge as integral to the interpretation of self determination historically as do attempts by judges and other institutional interpreters to meet these challenges

Cyprus:

A European Anomaly Michael Moran (Expert on Cyprus), 2010 I have published most of the items in this booklet before Denktash's speech before the United Nations UN Security Council in 1964 was included in my edition of Rauf Denktash at the United Nations Speeches on Cyprus The Eothen Press Huntingdon 1997 and except for a few small changes my opening essay here differs little from the first chapter of my book *Sovereignty Divided Essays on the International Dimensions of the Cyprus Problem* CYREP Nicosia 1998 third enlarged imprint 1999 These earlier works are now out of print and will probably remain so But given the current stage of the seemingly interminable negotiations for a settlement in Cyprus I thought it might be useful to make certain items available once more for the benefit of those diplomats government officials European Union EU parliamentarians academics journalists and other persons interested in Cyprus many of whom may have only recently become concerned with the extraordinary intractable problems of the divided island More especially this booklet should help those who are tempted to accept a largely Greek account of what is at stake in Cyprus to realise that such a one sided conception will never lead to the just equitable and permanent reconciliation between the two Cypriot communities that the international community has been seeking for so long

The Republic of Cyprus Kypros

Chrysostomides, 2021-07-26 The island of Cyprus has been the scene of one of the most tragic conflicts in post war Europe A country with a long and rich tradition and much to contribute to all of the cultures of the Mediterranean Cyprus has been torn apart almost since the day of its independence Since 197 more than a third of the island has been occupied by Turkey Attempts to find a peaceful solution to the conflict has come and gone but the status quo branded as unacceptable by the United Nations has remained Why this is so has already been the subject of many studies Few however have analysed in any

detail the position of Cyprus in international law Yet an understanding of how the rule of law in international society applies to Cyprus is essential to a proper understanding of the Cyprus question In his new book Dr Chrysostomides offers just such an analysis examining with great care the constitutional history of the Republic of Cyprus the legal principles applicable to the Turkish invasion of 1974 and subsequent occupation and the substantial body of case law and State practice regarding Cyprus since that date He discusses the competing legal arguments concerning the application of the Republic of Cyprus to join the European Union the controversial decisions of the European Court and commission of Human Rights and the debates regarding the status of the occupied northern part of Cyprus His conclusion is that the Republic of Cyprus has had a continuous existence as a State and as the only State on the island of Cyprus since 1960 notwithstanding all of the violations of international law to which it has been subjected From the Foreword by Christopher Greenwood QC

International Law Malcolm N. Shaw, 2008-11-13 Malcolm Shaw's engaging and authoritative International Law has become the definitive textbook for instructors and students alike in this increasingly popular field of academic study The hallmark writing style provides a stimulating account motivating students to explore the subject more fully while maintaining detail and academic rigour The analysis integrated in the textbook challenges students to develop critical thinking skills The sixth edition is comprehensively updated throughout and is carefully constructed to reflect current teaching trends and course coverage The International Court of Justice is now examined in a separate dedicated chapter and there is a new chapter on international criminal law The detailed references and reliable consistent commentary which distinguished previous editions remain making this essential reading for all students of international law whether they be at undergraduate level postgraduate level or professional lawyers

Resolving the Cyprus Conflict M. Michael, 2009-11-09 By placing the conflict in its historical ideological ethno political and geostrategic context the book extends beyond conventional realist approaches and lays bare those less visible dimensions that are often ignored by analysts and policy makers alike

The Creation of States in International Law James R. Crawford, 2007-03-15 Statehood in the early 21st century remains as much a central problem as it was in 1979 when the first edition of The Creation of States in International Law was published As Rhodesia Namibia the South African Homelands and Taiwan then were subjects of acute concern today governments international organizations and other institutions are seized of such matters as the membership of Cyprus in the European Union application of the Geneva Conventions to Afghanistan a final settlement for Kosovo and still relations between China and Taiwan All of these and many other disputed situations are inseparable from the nature of statehood and its application in practice The remarkable increase in the number of States in the 20th century did not abate in the twenty five years following publication of James Crawford's landmark study which was awarded the American Society of International Law Prize for Creative Scholarship in 1981 The independence of many small territories comprising the residue of the European colonial empires alone accounts for a major increase in States since 1979 while the disintegration of Yugoslavia and the USSR in the early

1990s further augmented the ranks With these developments the practice of States and international organizations has developed by substantial measure in respect of self determination secession succession recognition de colonization and several other fields Addressing such questions as the unification of Germany the status of Israel and Palestine and the continuing pressure from non State groups to attain statehood even in cases like Chechnya or Tibet against the presumptive rights of existing States James Crawford discusses the relation between statehood and recognition the criteria for statehood especially in view of evolving standards of democracy and human rights and the application of such criteria in international organizations and between states Also discussed are the mechanisms by which states have been created including devolution and secession international disposition by major powers or international organizations and the institutions established for Mandated Trust and Non Self Governing Territories Combining a general argument as to the normative significance of statehood with analysis of numerous specific cases this fully revised and expanded second edition gives a comprehensive account of the developments which have led to the birth of so many new states [British Year Book of International Law 2008](#) James Crawford, Vaughan Lowe, 2009-11-12 The British Year Book of International Law is a key reference resource for academics and practising lawyers providing up to date information on important developments in modern international law

Mass Expulsion in Modern International Law and Practice Jean-Marie Henckaerts, 2021-09-27 **Designing Peace** Neophytos Loizides, 2016-01-08 Why do some societies choose to adopt federal settlements in the face of acute ethnic conflict while others do not Neophytos Loizides examines how acrimoniously divided Cyprus could reunify by adopting a federal and consociational arrangement inspiring similar attempts in its region Loizides asserts that institutional innovation is key in designing peace processes Analyzing power sharing in Northern Ireland the return of displaced persons in Bosnia and the preparatory mandate referendum in South Africa he shows how divided societies have implemented novel solutions despite conditions that initially seemed prohibitive Turning to Cyprus he chronicles the breakthrough that led to the exhumations of the missing after 2003 and observes that a society's choice of narratives and institutions can overcome structural constraints While Loizides points to the relative absence of successful federal and consociational arrangements among societies evolving from the post Ottoman space he argues that neither elites nor broader societies in the region must be held hostages to the past To effect lasting and positive change Loizides encourages stakeholders in divided societies to be prepared to identify redesign and implement innovative new institutions Examining successful peace mediations and identifying the shared experience and commonalities between Cyprus and other divided societies promises not only to inform the tackling of the Cyprus problem but also to provide transferable knowledge with broader implications for the fields of peace studies and conflict resolution [Religion and Law in Cyprus](#) Achilles C. Emilianides, 2024-04-17 Derived from the renowned multi volume International Encyclopaedia of Laws this convenient resource provides systematic information on how Cyprus deals with the role religion plays or can play in society the legal status of religious communities and institutions

and the legal interaction among religion culture education and media After a general introduction describing the social and historical background the book goes on to explain the legal framework in which religion is approached Coverage proceeds from the principle of religious freedom through the rights and contractual obligations of religious communities international transnational and regional law effects and the legal parameters affecting the influence of religion in politics and public life Also covered are legal positions on religion in such specific fields as church financing labour and employment and matrimonial and family law A clear and comprehensive overview of relevant legislation and legal doctrine make the book an invaluable reference source and very useful guide Succinct and practical this book will prove to be of great value to practitioners in the myriad instances where a law related religious interest arises in Cyprus Academics and researchers will appreciate its value as a thorough but concise treatment of the legal aspects of diversity and multiculturalism in which religion plays such an important part

Kosovo: A Precedent? James Summers, 2011-08-25 Kosovo's declaration of independence on 17 February 2008 has had a profound and polarising impact on international relations While over a third of the world's countries have recognised Kosovo others have been concerned that it sets a precedent for secessionist minorities Indeed Kosovo appears to have been used as a precedent in the Russia Georgia conflict over South Ossetia The book brings together contributions from leading academics on the legal aspects of Kosovo and in particular the International Court of Justice's Advisory Opinion of 2010 The result is an extensive examination from a variety of experts on Kosovo and its impact on international law

Recognition in International Law Stefan Talmon, 2021-10-18 The bibliography lists the literature and State practice on the question of recognition in international law for the last two hundred years It contains books and articles ie contributions to journals and other collected works such as *Festschriften* and *Encyclopaedias* as well as published and unpublished theses pamphlets compilations of diplomatic documents and case notes As many of the monographs on recognition in international law will not be available in all libraries book reviews have been included in the bibliography in order to enable the user to decide whether it may be advisable to order a certain work by inter library loan Its 4 500 entries are arranged systematically according to subject categories in fourteen main sections Each main section is further subdivided with ever increasing specificity into sub sections on codification codification attempts general studies studies of certain recognition questions and studies of specific recognition cases The bibliography employs a broad meaning of recognition It is not restricted to the question of status of an authority or entity in international law but encompasses also the question of relations with it As many of the recognition cases must be considered and can only be understood against their historic political and sometimes even economic background the bibliography includes not only purely legal treaties but also publications of a primarily historical political or economic content which incidentally deal with aspects of recognition in international law This is reflected by the titles of the 730 journals from more than 50 countries in 20 different languages which have been used to compile the bibliography The bibliography contains both an author and a comprehensive subject

index to enable users to locate works of a particular writer or a specific problem **Hague Yearbook of International Law / Annuaire de La Haye de Droit International, Vol. 26 (2013)** Nikolaos Lavranos, Ruth A. Kok, 2017-06-01 The title of the Hague Yearbook of International Law reflects the close ties which have always existed between the AAA and the City of The Hague with its international law institutions and indicates the Yearbook's aim of devoting attention to developments taking place in the international law institutions based in The Hague. However, the Yearbook has a broader scope as well to offer a platform for review of new developments in the field of international law. As of the 2010 Volume, the Yearbook has been compiled by a new and expanded Editorial Board offering fresh ideas and a new approach. A newly established Advisory Board has also been added, including ICJ Judge Bruno Simma, Serge Brammertz, Prosecutor of the International Criminal Tribunal for the Former Yugoslavia, ICTY Judge J. van Haersolte, van Hof, advocate, advocaat at HaersolteHof and arbitrator, The Netherlands, and Professor Peter Hilpold, Innsbruck University, Austria. Sections have been created on public international law, private international law, international investment law, and international criminal law, containing in-depth articles on current issues. The breadth of the Yearbook's content thus offers an interesting and valuable illustration of the dynamic developments in the various sub-areas of international law.

Recognition of Governments in International Law Stefan Talmon, 1998 Based on an analysis of the diplomatic practice of States and decisions by national and international courts, this book explores the two central questions of the recognition of governments: These are namely, what are the meanings of the term recognition and its variants in international law, and what is the effect of recognition on the legal status of foreign authorities and, in particular, of authorities in exile recognized as governments. The book is comprehensive in its analysis of the issues and covers material which is of significant historical interest as well as highly topical material, such as recent developments in Angola, Kuwait, and Haiti. Thus, Talmon's book will hold great appeal for international law scholars and practitioners alike. It may also be of interest to diplomats and civil servants working in organizations such as the United Nations.
