Czech Opera John Tyrrell, 1988 Opera is the grandest and most potent cultural expression of the nationalist movement which led to the establishment of the Czechoslovak Republic in 1918 During this period Czech opera developed into a genre of major artistic importance cultivated by composers of the stature of Smetana Dvor k and Jan cek Czech Opera examines opera in its national contexts and is a study not only of operas written in Czech but also of the specific circumstances which shaped them These include the historical and political background to the period the theatres in which Czech plays and operas were first performed and the composers and performers who worked in them The role of the librettists is given particular prominence and is complemented by a detailed chapter on the subject matter of the librettos shedding light on the subject matter of the historical and mythic background of the genre

Art and Ideology in European Opera Rachel Cowgill, David Cooper, Clive Brown, 2010 Opera that most extravagant of the performing arts is infused with the contexts of power brokering and cultural display in which it was conceived and experienced For individual operas such contexts have shifted over time and new meanings emerged often quite remote from those intended by the original collaborators but tracing this ideological dimension in a work s creation and reception enables us to understand its cultural and political role more clearly sometimes conflicting with its status as art and sometimes enhancing it This collection is a Festschrift in honour of Julian Rushton one of the most distinguished opera scholars of his generation and highly regarded for his innovative studies of Gluck Mozart and Berlioz among many others Colleagues associates and former students pay tribute to his work with essays highlighting the interplay between opera art and ideology across three centuries Three broad themes are opened up from a variety of approaches nationalism cosmopolitanism and national opera opera class and the politics of enlightenment and opera and otherness British opera is represented by studies of Grabu Purcell Dibdin Holst Stanford and Britten but the collection sustains a truly European perspective rounded out with essays on French opera funding Bizet Mozart Mendelssohn Verdi Puccini Janacek Nielsen Rimsky Korsakov and Schreker Several works receive some of their first extended discussion in English
