McCarthy, Gene Sharp, Brad Bennett, 2013-07-04 This comprehensive guide to research sources and theories about nonviolent action as a technique of struggle in social and political conflicts discusses the methods and techniques used by groups in various encounters Although violence and its causes have received a great deal of attention nonviolent action has not received its due as an international phenomenon with a long history An introduction that explains the theories and research used in the study provides a practical guide to this essential bibliography of English language sources The first part of the book covers case study materials divided by region and subdivided by country Within each country materials are arranged chronologically and topically The second major part examines the methods and theory of nonviolent action principled nonviolence and several closely related areas in social science such as conflict analysis and social movements The book is indexed by author and

geography of East vs West this book analyzes post socialist transformation as part of the long downturn of the post WWII global capitalist cycle Based on an empirical comparison of two countries with significantly different political regimes throughout the period Hungary and Romania this study shows how different constellations of successive late socialist and post socialist regimes have managed internal and external class relations throughout the same global crisis process from very similar positions of semi peripheral post socialist systemic integration Within this context the book follows the role of social movements since the 1970s paying attention both to the level of differences between local integration regimes and to the level of structural similarities of global integration The analysis maintains a special focus on movements class composition and inter class relationships and the specific position of middle class politics in movements The Dissident Politics in Václav Havel's Vanek Plays Carol Strong,2023-09-05 The Dissident Politics in Václav Havel's Vanek Plays Who Is Ferdinand Vanek Anyway focuses on Ferdinand Vanek a semi autobiographical character created by Václav Havel and featured in a series of nine plays written by Havel himself and three other dissident writers Pavel Kohout Pavel Landovský and Jiří Dienstbier By exploring the Vanek experience Carol Strong details a multi episodic absurdist journey that provides an insider's view of the challenges facing those daring enough to question the status quo a view that remains relevant today Strong's contention is that the lines found in these plays served as a secret language of dissent in Cold War Czechoslovakia which called the citizenry to contemplate the need for societal reform As the plays were written at a time when the work of Havel and other dissidents were banned the plays were never performed publicly but through clandestine living room performances and the sharing of samizdat scripts the plays found an audience Select phrases were indeed whispered throughout underground networks and helped forge a sense of oppositional solidarity among potential activists Strong's argument is that the Vanek experience metaphorically highlights how official power mechanisms are among the least insidious forms of societal power as the state must follow predictable patterns of legal jurisprudence By contrast non governmental forms of power as exercised by one's fellow citizens through informal social channels can challenge oppositional actors more because of the personal tone they adopt Using this approach Strong presents a timelessly relevant critique of modern society with its consumerist conformist tendencies Strategic Calling James Allen Smith,1993
