D H Lawrence A Centenary Consideration:

D. H. Lawrence Peter Balbert, 2019-06-30 This impressive volume is made up of eleven essays by a distinguished group of contributors including both Lawrence specialists and well known critics who work primarily in other areas. Nine of the essays were commissioned especially for this volume and the other two were revised by their authors for book publication. Each engages in a fresh and provocative way an important aspect of Lawrence's writings. The book's organization follows the chronology of Lawrence's career and the essays cover the full range of his creative achievement from analyses of major novels and short fiction to reassessments of his poetry and visionary thought. No single ideology or methodology dominates the volume; the contributions include traditional humanistic studies and formalist readings as well as feminist approaches and analyses that reflect current poststructuralist theory. Some of the essays implicitly challenge the validity of others and some may well cause controversy. Taken together they illuminate the richness of Lawrence's writings and the multifaceted nature of his accomplishments. *D H Lawrence A Centenary Consideration* will be rewarding reading both for Lawrencian specialists and for others interested in modern literature. D. H. Lawrence, 1985 *D.H. Lawrence* Fiona Becket, Annotation This guide moves beyond the controversy surrounding *Lady Chatterley's Lover* to examine the prolific output of poetry, novels and non-fiction that made Lawrence a central figure in the Modernist movement. The Challenge of D.H. Lawrence Michael Squires, Keith Cushman, 1990 Thirteen essays that aim to illuminate the achievement of one of England's greatest modern writers. Employing a variety of perspectives: historical, cultural, theoretical, feminist, the critics here assembled address concerns about Lawrence's work that have emerged in recent years: his attitudes toward the working class, art, women, Britain, his conceptions of male-female relationships, sexuality, education and knowledge and his place in cultural history and the traditions of the English novel. All of the essays, from reassessments of Lawrence's position in the English literary tradition to analyses of his influence on recent American poetry, find renewed faith in the challenge of Lawrence's work, making this volume of interest to Lawrence scholars and students. D. H. Lawrence and the Child Carol Sklenicka, 1991 In the first major work that considers the importance of childhood representations in shaping the modern writer, Sklenicka unearths the richness of possibility D H Lawrence found in his depiction of children and the complexities of family life. D.H. Lawrence, Music and Modernism Susan Reid, 2019-02-06 This first book-length study of D H Lawrence's lifelong engagement with music surveys his extensive musical interests and how these permeate his writing while also situating Lawrence within a growing body of work on music and modernism. A twin focus considers the music that shaped Lawrence's novels and poetry as well as contemporary developments in music that parallel his quest for new forms of expression. Comparisons are made with the music of Debussy, Schoenberg, Stravinsky, Wagner and British composers including Bax, Holst and Vaughan Williams and with the musical writings of Forster, Hardy, Hueffer, Ford, Nietzsche and Pound. Above all, by exploring Lawrence and music in historical context, this study aims to open up new areas for study and a place for Lawrence

within the field of music and modernism **D.H. Lawrence and Survival** Ronald Granofsky, 2003 Although Darwin's ideas about evolution were dominant in D H Lawrence's day little scholarly work has been done on the influence of these concepts on his work This work argues that Lawrence employed ideas based on evolution in his fiction particularly during the transition between his marriage and leadership periods 1919-22 when he embarked on a major rethinking of the direction of his creative work and that these ideas contributed to the deterioration in his fiction after *Women in Love* The book shows that Lawrence's deliberate use of Darwinian elements in his narrative strategy occurred at a time when he was increasingly concerned about survival both personally due to illness and as an artist The result in his fiction is a subtext in which his anxieties are projected onto female characters and the evolution of his writing is frustrated by unresolved emotional conflicts Through new readings of the major fiction of Lawrence's transitional period Ronald Granofsky demonstrates that Lawrence's deterioration as a writer and the misogyny of his later work was primarily the result of a deliberate effort on his part to move the ideological yardsticks of his fiction *A Bibliography of D. H. Lawrence* Warren Roberts, Paul Poplawski, 2001-04-19 This pre-eminent bibliography for D H Lawrence was extensively revised updated and expanded by Paul Poplawski for publication in 2001 *D. H. Lawrence, Ecofeminism and Nature* Terry Gifford, 2022-09-30 Shortlisted for the ASLE UKI Prize for Best Academic Monograph This is the first ecocritical book on the works of D H Lawrence and also the first to consider the links between nature and gender in the poetry and the novels In his search for a balanced relationship between male and female characters what role does nature play in the challenges Lawrence offers his readers How far are the anxieties of his characters in negotiating relationships that might threaten their sense of self derived from the same source as their anxieties about engaging with the Other in nature Indeed might Lawrence's metaphors drawn from nature actually be the causes of human actions in *The Rainbow* for example The originality of Lawrence's poetic and narrative strategies for challenging social attitudes towards both nature and gender can be revealed by new approaches offered by ecocritical theory and ecofeminist readings of his books This book explores ecocritical notions to frame its ecofeminist readings from the difference between the Other and otherness in *The White Peacock* and *Lady Chatterley's Lover* otherness in the poetry of *Birds* *Beasts and Flowers* psychogeography in *Sea and Sardinia* emergent ecofeminism in *Sons and Lovers* land and gender in *The Boy in the Bush* gender dialogics in *Kangaroo* human animality in *Women in Love* trees as tests in *Aaron's Rod* to radical animism in *The Plumed Serpent* Finally three late tales provide a reassessment of ecofeminist insights into Lawrence's work for readers in the present context of the Anthropocene **D. H. Lawrence and the Bible** T. R. Wright, 2000-07-27 Wright's study sheds light not only on his work but on the Bible on the creative process itself
