**D.H.Lawrence: The Early Fiction** Michael Black, 1986-03-23 Based on the Cambridge Edition of Lawrence's letters and works this is a systematic study of his neglected early novels and short stories Michael Black considers that these should be taken seriously as a representative part of Lawrence's entire output and demonstrates how they show originality He places Lawrence in a new light as an artist especially considering the relationship between his art and thought D. H. Lawrence Michael H. Black, 1986-04-30 The recent publication of Lawrence's early letters and corrected texts of his fiction have prompted a new assessment of him This systematic study accordingly concentrates on the neglected early novels and short stories and reveals a new relationship between his art and thought D.H. **Decadence in the Age of Modernism** Kate Hext, Alex Murray, 2019-07-16 The first holistic reappraisal of the significance of the decadent movement from the 1900s through the 1930s Decadence in the Age of Modernism begins where the history of the decadent movement all too often ends in 1895 It argues that the decadent principles and aesthetics of Oscar Wilde Walter Pater Algernon Swinburne and others continued to exert a compelling legacy on the next generation of writers from high modernists and late decadents to writers of the Harlem Renaissance Writers associated with this decadent

counterculture were consciously celebrated but more often blushingly denied even as they exerted a compelling influence on the early twentieth century. Offering a multifaceted critical revision of how modernism evolved out of and coexisted with the decadent movement, the essays in this collection reveal how decadent principles infused twentieth century prose, poetry, drama, and newspapers. In particular, this book demonstrates the potent impact of decadence on the evolution of queer identity and self-fashioning in the early twentieth century. In close readings of an eclectic range of works by Virginia Woolf, James Joyce, and D. H. Lawrence to Ronald Firbank, Bruce Nugent, and Carl Van Vechten, these essays grapple with a range of related issues including individualism, the end of Empire, the politics of camp, experimentalism, and the critique of modernity.

**Cosmopolitan Love** Sijia Yao, 2023-11-09. Love and the different manifestations of it is a common theme in literature around the world. In *Cosmopolitan Love*, Sijia Yao examines the writings of D. H. Lawrence, a British writer whose literature focused primarily on interpersonal relationships in domestic settings, and Eileen Chang, a Chinese writer who migrated to the United States and explored Chinese heterosexual love in her writing. While comparing the writings of a Chinese writer and an English one, Yao avoids a direct comparison between East and West that could further enforce binaries. Instead, she uses the comparison to develop an idea of cosmopolitanism that shows how the writers are in conversation with their own culture and with each other. Both D. H. Lawrence and Eileen Chang wrote stories that are influenced by but sometimes stand in opposition to their own cultures. They offer alternative understandings of societies dealing with modernism and cultural globalization. Their stories deal with emotional pain caused by the restrictions of local politics and economics and address common themes of incestuous love, sexual love, adulterous love, and utopian love. By analyzing their writing, Yao demonstrates that the concept of love as a social and political force can cross cultural boundaries and traditions to become a basis for human meaning, the key to a cosmopolitan vision.

**Modernist Physics** Rachel Crossland, 2018. *Modernist Physics* studies literary texts and scientific ideas in their historical context to provide an original account of the ways in which Virginia Woolf and D. H. Lawrence engaged with the scientific theories, especially those of Albert Einstein.

**The Glyph and the Gramophone** Luke Ferretter, 2013-09-12. D. H. Lawrence wrote in 1914, "Primarily I am a passionately religious man and my novels must be written from the depths of my religious experience." Although he had broken with the Congregationalist faith of his childhood by his early twenties, Lawrence remained throughout his writing life a passionately religious man. There have been studies in the last twenty years of certain aspects of Lawrence's religious writing, but we lack a survey of the history of his developing religious thought and of his expressions of that thought in his literary works. This book provides that survey from 1915 to the end of Lawrence's life. Covering the war years, Lawrence's American works, his time in Australia and Mexico, and the works of the last years of his life, this book provides readers with a complete analysis during this period of Lawrence as a religious man.

Leavis Ian MacKillop, Richard Storer, Frank Raymond Leavis, 1995-11-01 A collection of new studies on one of the best known and most important British literary critics of the twentieth century The book is divided into four sections documentary analysis of Leavis's practice as a teacher drawing on seminar notes lecture handouts reading lists and other material new bibliographical data including a detailed account of Leavis's project to turn *Daniel Deronda* into a new novel called *Gwendolen Harleth* critical essays on Leavis's thought and memoirs of different phases in Leavis's career from the 1930s to the 1960s The volume also includes an up to date Reader's Guide to Leavis's own writings and to the many studies of his work      *The Sensuous Pedagogies of Virginia Woolf and D.H. Lawrence* Benjamin D. Hagen, 2020-08-04 Winner of the D H Lawrence Society of North America's Biennial Award for a Newly Published Scholar in Lawrence Studies Though the

differences in style and politics between Virginia Woolf 1882 1941 and D H Lawrence 1885 1930 are many they both had formative experiences as teachers Between 1905 and 1907 Woolf taught history and composition courses at Morley College while Lawrence spent nearly a decade in the field of elementary education between 1902 and 1912 The Sensuous Pedagogies of Virginia Woolf and D H Lawrence reframes Woolf and Lawrence s later experiments in fiction life writing and literary criticism as the works of former teachers of writers that is still preoccupied with pedagogy More specifically the book argues that across their respective writing careers they conceptualize problems of teaching and learning as problems of sensation emotion or intensity But the sensuous pedagogies Woolf and Lawrence depict and enact are not limited to classroom spaces or strategies rather they pertain to non institutional relationships developmental narratives spaces and needs Friendships and other intimate relationships in Lawrence s fiction for instance often take on a pedagogical shape or texture one person playing the student the other the teacher while Woolf s literary criticism models a novel approach to taste training that prioritizes the individual freedom of common readers who must learn to attend to books that give them pleasure In addition Sensuous Pedagogies reads Lawrence s literary criticism as reparative Woolf s fiction as sustained feminist pedagogy and their respective theories of life and love as fundamentally entangled with pedagogical concerns

*Radicalizing Lawrence* Robert Burden, 2021-12-28 In this study of D H Lawrence and critical theory Robert Burden pays particular attention to the critical formations that underpin the reception history of the main novels including the much maligned leadership novels because strong readings have always contested the meaning and significance of Lawrence and because there has been a persistent reluctance to approach his writing through post structuralist theory This study demonstrates in some detail that once Lawrence s texts are the objects of the newer critical paradigms their principles of coherence are understood differently and that older notions of textual unity are displaced by aesthetic structures of degrees of generic and linguistic destabilization This enables a radicalizing of Lawrence s fiction by drawing out its deconstructive effects on his myth making and essentialist notions of the self The sexual identities represented in the fiction are read as experiments or thought adventures as Lawrence himself characterized his work The different approaches to Lawrence s writing in this study lead to a radical reassessment of his relationship to Modernism especially in the light of the more elastic concept of Modernism in recent discussion and one which traditional Lawrence scholars have ignored What emerges is a more self deconstructive Lawrence with some surprising results

**Regenerating the Novel** James J. Miracky, 2013-09-13 In this exploration of the most innovative and iconoclastic modernist fiction James J Miracky studies the ways in which cultural forces and discourses of gender inflect the practice and theory of four British novelists Virginia Woolf E M Forster May Sinclair and D H Lawrence Building on analyses of gender theory and formal innovation in Virginia Woolf s novels this book examines Forster s queered use of fantasy Sinclair s representation of manly genius in both male and female streams of consciousness and Lawrence s quest for the novel of phallic consciousness Reading each author s fiction alongside his or her theoretical writing Miracky

provides four diverse examples of how literary modernism wrestled with the gender crisis of the early twentieth century
