Da Kine Talk From Pidgin To Standard English In Hawaii:

Da Kine Talk Elizabeth Ball Carr, 2019-03-31 Hawaii is without parallel as a crossroads where languages of East and West have met and interacted. The varieties of English including neo pidgin heard in the Islands today attest to this linguistic and cultural encounter. Da kine talk is the Island term for the most popular of the colorful dialectal forms of speech that captures the flavor of Hawaii's multiracial community and reflects the successes and failures of immigrants from both East and West in learning to communicate in English.

Ethnicity and the American Short Story Julie Brown, 2013-05-13 How do different ethnic groups approach the short story form? Do different groups develop culture-related themes? Do oral traditions within a particular culture shape the way in which written stories are told? Why does the community loom so large in ethnic stories? How do such traditional forms as African American slave narratives or the Chinese talk story shape the modern short story? Which writers of color should be added to the canon? Why have some minority writers been ignored for such a long time? How does a person of color write for white publishers, editors, and readers? Each essay in this collection of original studies addresses these questions and other related concerns. It is common knowledge that most scholarly work on the short story has been on white writers. This collection is the first work to specifically focus on short story practice by ethnic minorities in America, ranging from African Americans to Native Americans, Chinese Americans to Hispanic Americans. The number of women writers discussed will be of particular interest to women studies and genre studies researchers, and the collections will be of vital interest to scholars working in American literature, narrative theory, and multicultural studies.

Variety in Contemporary English William Robert O'Donnell, Loreto Todd, 1991. First Published in 1992. Routledge is an imprint of Taylor & Francis, an informal company. *Variety in Contemporary English* W.R. O'Donnell, LORETO

Todd, 2013-02-28. First Published in 1992. This is an exploration of the complex kinds of variation which occur in and between written and spoken English. Dialect, Pidgeon, and Creole English are examined, and the types of linguistics employed in advertising, literature, and the classroom are discussed. The book is intended as an introduction to the study of English language. It is aimed primarily at college and university students, particularly those who are likely to find themselves teaching a language. It may also appeal to teachers, the general reader, and sixth-form pupils.

Pidgins and Creoles: Volume 1, Theory and Structure John A. Holm, 1988-05-05. This first volume of Holm's major survey of pidgins and creoles provides an up-to-date and readable introduction to a field of study that has become established only in the past few decades. Written for both students and general readers with a basic knowledge of linguistics, the book's original perspective will also attract specialists in the field seeking a broad overview of the linguistic relationships among these languages. Creolized or restructured versions of English, French, Spanish, Dutch, Portuguese, and other languages arose during European colonial expansion. These resulted in such creoles as Jamaican, Haitian, Papiamentu, and some one hundred others, as well as such semi-creoles as Afrikaans, non-standard Brazilian Portuguese, Papiamentu, and American Black English. Scholars have tended to work

on particular language varieties in relative isolation making comparative research into the genesis development and structure of creoles difficult In writing this book Holm draws on broad studies of many languages to make clear how far reaching creoles similarities are and to challenge current linguistic theories on creoles and pidgins The emphasis of this volume is largely empirical rather than descriptive Its core is a comparative study of creoles based on European languages in Africa and the Caribbean that demonstrates the striking similarities among the languages in terms of their lexical semantics phonology and syntax A forthcoming volume provides a socio historic overview of variety development and text examples with translations of the restructured languages The Oxford Handbook of Southeast Asian Englishes Andrew J.

Moody,2024 This volume describes both the history and the contemporary forms functions and status of English in Southeast Asia The chapters provide a comprehensive overview of current research on a wide range of topics addressing the impact of English as a language of globalization and exploring new approaches to the spread of English in the region **The New**

Friends Karen L. Ito, 2018-08-06 Many indigenous Hawaiians who have moved to the islands cities languish at the bottom of the socioeconomic scale and are thought to have lost their cultural roots Initially apolitical urban Hawaiians were often skeptical of activists who sought to revitalize traditional ways yet as Karen L Ito shows Hawaiian women in particular continue to maintain and express crucial aspects of their cultural heritage in their lifestyle and interactions with others Ito conducted intensive fieldwork with six Honolulu families all of which shared the distinguishing characteristics of Hawaii s matrifocal society In her close examination of the friendships and family relations among the women in these households she focuses on the significance of a traditional manner of speech known as talk story which they use when conversing together She describes how her subjects employ metaphoric language to address issues concerning responsibility retribution understandings of self and personhood and methods for conflict resolution For these lady friends Ito finds the emotional quality and quantity of their social relationships help define personal identity while their common concepts of morality bind them together By applying ethnopsychological strategies to the exploration of culture Ito demonstrates cultural continuity at a level where most observers would not expect to find it Lady Friends brings a new dimension to Hawaiian research
