Ryan, 2024-09-30 Between your work and home obligations having a daily quiet time with God often feels like another unattainable goal With refreshing humor and heartwarming honesty Emily Ryan debunks the myths of what qualifies as quiet time and provides new ways for you to connect with God that take into account your everyday commitments Start enjoying the Father s presence as you experiment with Guilt Free Ideas for More at the end of each chapter **Habits of Devotion** James M. who predicted the 1639 transit only to die at age 22 a day before he was to discuss the event with the only other human known to have seen it of the unfortunate Le Gentil whose decade of labor was rewarded with obscuring clouds shipwreck and the plundering of his estate by relatives who prematurely declared him dead of David Rittenhouse Father of American Astronomy who was overcome by the 1769 transit's onset and failed to record its beginning and of Maximilian Hell whose good name long suffered from the perusal of his transit notes by a color blind critic Moving beyond individual fates Maor chronicles how governments participation in the first international scientific effort the observation of the 1761 transit from seventy stations yielding a surprisingly accurate calculation of the astronomical unit using Edmund Halley's posthumous directions intersected with the Seven Years War British South Seas expansion and growing American scientific prominence Throughout Maor guides readers to the upcoming Venus transits in 2004 and 2012 opportunities to witness a phenomenon seen by no living person and not to be repeated until 2117
