**How Greed, Covetousness and Personal Gain Dominates Modern-Day Evangelicalism** Rev. Dr. Robert S. Henry,2022-06-26 In our consumption oriented society everyone's energy is seen to be directed at attainment and profit The implication of this matter is enhanced by the explicit obsession and preoccupation with money matters among church groups It is made even more serious because of the recent rise in the popularity of the doctrine of prosperity among certain evangelical groups The modern day preacher promotes wealth as a signal of spirituality and favor from God Instead they should be considerate about saving souls rather than accumulating wealth and hoarding what they have left over Luke 22 35 KJV Another matter is the audacious attitudes of some church leaders who think they have the authority regarding the interpretation of scriptures that addresses biblical prosperity It is because of obvious errors in present day teaching on giving and prosperity that there is so much uncertainty among those who want to support the work of God in a way that pleases Him Many questions are left unanswered resulting in confusion unhealthy desires to become rich and many misconceptions in the way the world views Christians in general Because of the many abnormalities and uncertainties this book examines the premise upon which the prosperity doctrine is built and the methods used to raise finances Moreover doctrines that are inconsistent with Scripture are identified and repudiated      *The Man Who Rediscovered God* Martin Luther,2021-01-08 Martin Luther The Man Who Rediscovered God Complete Works by Martin Luther Theological Works Sermons Hymns The Ninety five Theses The Bondage of the Will A Treatise on Christian Liberty Prayers Hymns Letters and many more Martin Luther's theology is based on the Bible and not on dogmas Referring to Paul's Epistle to the Romans he claims that salvation is given through God's grace and not through deeds It was adopted by Lutheran Churches and also by the other Reformed Churches in principle Martin Luther was German theologian professor pastor and church reformer

Luther began the Protestant Reformation with the publication of his Ninety Five Theses on October 31 1517 In this publication he attacked the Church's sale of indulgences He advocated a theology that rested on God's gracious activity in Jesus Christ rather than in human works Nearly all Protestants trace their history back to Luther in one way or another Luther's relationship to philosophy is complex and should not be judged only by his famous statement that reason is the devil's whore

defining a generic Grand Unification Theory Objecting to the use of the word Theory Palmquist refers to Cosmolaw because he bases his work upon proven formulas controlling the behavior of electricity His proposed answer to the long sought after GUT should interest physicists His inter disciplinary application of those principles to the field of everyday life should interest economists The attention he centers upon the commonalities between the laws of nature and the nature of God should get the attention of theologians Even skeptical scientists must fill out 1040 forms If they take issue with Palmquist s views of Physics and cosmology they can nevertheless grasp his reasoning that no government under today s monetary policies can be rational if it also insists upon collecting income taxes from its citizens The formulas discussed by Palmquist are shown to be common to all of nature and can be applied to all of life His study embraces the fields of Economics and spiritual life Blending observations from natural law with his observations about Economics and ordinary life Palmquist makes the case that economists should try to provide a better society for us while we as individuals using Cosmolaw find contentment in whatever state life finds us
