Modern England Michelle M. Dowd,Julie A. Eckerle,2016-04-15 By taking account of the ways in which early modern women made use of formal and generic structures to constitute themselves in writing the essays collected here interrogate

the discursive contours of gendered identity in sixteenth and seventeenth century England The contributors explore how generic choice mixture and revision influence narrative constructions of the female self in early modern England Collectively they situate women's life writings within the broader textual culture of early modern England while maintaining a focus on the particular rhetorical devices and narrative structures that comprise individual texts Reconsidering women's life writing in light of recent critical trends most notably historical formalism this volume produces both new readings of early modern texts such as Margaret Cavendish's autobiography and the diary of Anne Clifford and a new understanding of the complex relationships between literary forms and early modern women's selves This volume engages with new critical methods to make innovative connections between canonical and non canonical writing in so doing it helps to shape the future of scholarship on early modern women

The Study of Modern Manuscripts Donald H. Reiman, 1993
 Perhaps no question is more fundamental to the discussion of a written work than that of the provenance and authority of the manuscript on which it is based In The Study of Modern Manuscripts eminent scholar Donald H Reiman draws on thirty years of experience in editing the manuscripts of Shelley Byron and others to offer new insights into the scholarly use and analysis of postmedieval manuscripts Reiman begins by distinguishing among the manuscript traditions of the Renaissance Enlightenment and Romantic periods He then sketches the historical developments that influenced both the changing nature of surviving manuscripts and the growth of interest in preserving the manuscript record Over the course of the book's next four chapters he discusses in detail the nature and function of three classes of manuscript the private or personal the confidential or corporate and the public

Women, Food Exchange, and Governance in Early Modern England Madeline Bassnett, 2016-11-21 This book is about the relationship of food and food practices to discourses and depictions of domestic and political governance in early modern women's writing It examines the texts of four elite women spanning approximately forty years the Psalms of Mary Sidney Herbert Countess of Pembroke the maternal nursing pamphlet of Elizabeth Clinton

Dowager Countess of Lincoln the diary of Margaret Lady Hoby and Mary Sidney Lady Wroth s prose romance Urania It argues that we cannot gain a full picture of what food meant to the early modern English without looking at the works of women who were the primary managers of household foodways In examining food practices such as hospitality gift exchange and charity this monograph demonstrates that women no less than men engaged with vital social cultural and political processes

Oral and Manuscript Culture in the Bible J. A. Loubser,2007-03-01 Drawing on a wide range of scholarship dealing with the properties and function of the materialities of the oral and scribal arts as well as oral scribal interfaces the author unfolds before our eyes and makes manifest to our ears a world of communications in which there are no original texts let alone original speech where manuscripts are written to be remembered and read out aloud where scribal products exhibit both a metonymic and a polyvalent quality

Interactions between Orality and Writing in Early Modern Italian Culture Luca Degl'Innocenti,Brian Richardson,Chiara Sbordoni,2016-03-02 Investigating the interrelationships between orality and writing in elite and popular textual culture in early modern Italy this volume shows how the spoken or sung word on the one hand and manuscript or print on the other hand could have interdependent or complementary roles to play in the creation and circulation of texts The first part of the book centres on performances ranging from realizations of written texts to improvisations or semi improvisations that might draw on written sources and

might later be committed to paper Case studies examine the poems sung in the piazza that narrated contemporary warfare commedia dell arte scenarios and the performative representation of the diverse spoken languages of Italy The second group of essays studies the influence of speech on the written word and reveals that as fourteenth century Tuscan became accepted as a literary standard contemporary non standard spoken languages were seen to possess an immediacy that made them an effective resource within certain kinds of written communication The third part considers the roles of orality in the worlds of the learned and of learning The book as a whole demonstrates that the borderline between orality and writing was highly permeable and that the culture of the period with its continued reliance on orality alongside writing was often hybrid in nature
