Agent of Vega and Other Stories James H. Schmitz, 2001-11-01 Espionage and Intrigue in the Far Reaches of the Galaxy from the Creator of Telzey Amberdon and Trigger Argee The Galaxy was not a nice neighborhood and most would have laid bets that the Vegan Confederacy was too small and weak to survive let alone prosper But prosper it did to the bewilderment of observers who didn't know about the Vegans secret weapon Once the Galactic Empire had spanned the stars and when it crumbled and fell star systems were isolated some barely surviving many becoming tyrannical fiefdoms others turning to piracy and all of them often at war with each other The Confederacy didn't have huge space armadas and millions of troops to protect itself and recivilize its neighbors but it did have the Zone agents Few outside the top echelons of the Confederacy even knew that they existed and even fewer had an inkling of how the agents time and again could appear on the spot just when a push in the right place could stop a war topple a despot or thwart an invasion of unfriendly aliens Their numbers were pitifully few and they had to patrol vast stretches of space They were helped by their ships bristling with hidden armament and piloted by robot brains of high intelligence But their main weapon was that the minds of their opponents were open books to them Not all of the Agents of Vega were human but they were the most powerful telepaths the Galaxy had ever known At the publisher's request this title is sold without DRM Digital Rights Management Take my advice and buy TWO copies of this book You'll want to lend it to friends and trust me on this I have years of experience to back up the observation once people get their hands on a Schmitz book they don't let go Janet Kagan Hugo Winner and author of Uhura's Song Wonderfully fresh imagination The Horn Book Agent of Vega James H.
