**Srivastava Sushila & Rani, Sudha K.**

## **Aging Scientific Perspectives And Social Issues Brooks Cole Series In Social Gerontology:**

**National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1965 **Current Catalog**  
National Library of Medicine (U.S.),1983 First multi year cumulation covers six years 1965 70 **The Psychology of Ageing** Ian Stuart-Hamilton,2012-05-15 This well established text has been completely revised in this expanded fifth edition Each chapter has been updated to reflect current thinking and a new chapter on death dying and bereavement has been added This new edition is essential reading for all those working with older people and a key text for students **Textbook of Human Development □ A Lifespan Development Approach** Srivastava Sushila & Rani, Sudha K., Textbook of Human Development A Lifespan Development Approach *Aging* Lewis R. Aiken,1995 The aging process is a complex sometimes mysterious evolution we will all experience In this interdisciplinary text author Lewis R Aiken acquaints you with the elements and effects influencing people in the later stages of life Beginning with an historical overview of gerontology Aiken discusses both pragmatic and philosophical concerns within the field Factors impacting the process and results of aging are carefully outlined and explicated these address such areas as biology psychology sociology economics and politics The interpersonal variability of the older population is stressed throughout the book recognizing gender ethnic racial and cultural differences Each chapter concludes with a thorough review of the material covered a series of questions and activities designed to enhance the learning experience and a list of suggested readings that expand on the topics being discussed Clearly written authoritative rich in information and integration of research material in a wide range of disciplines *Aging An Introduction to Gerontology* is valuable for undergraduate certificate and community college programs in gerontology as well as graduate courses in applied professional disciplines The book makes a contribution to the field it is a praiseworthy effort and it has substantive merit It reveals competence good grasp of the subject matter and a very good integration of research material in a wide range of disciplines The information is generally very much up to date and relevant It constitutes the right introduction for people interested to learn about the field of gerontology The text is lucid clearly written and easy to read It is definitely well attuned to its targeted audience It introduces technical terminology with all the proper caveats and facilitates its comprehension with a glossary Abraham Monk School of Social Work Columbia University This is a basic textbook of human gerontology that comprehensively covers aging and the aged with a special emphasis on the psychology of aging The purpose is to review what is known about aging and older adulthood the methods by which this information is obtained and to provide practical guidelines for dealing with the problems of an aged population The author meets these goals very well This book is written for undergraduate and graduate students Even geriatricians in training will find this a lucid exposition of human gerontology This book s well organized chapters are clearly illustrated There are boxes that highlight concepts and a list of further readings in addition to well cited references At the end of each chapter there are questions and exercises This textbook is a welcome addition to the field It is very well written and organized Both teachers and students will enjoy using

this textbook Rating 98 Doody s Health Sciences Book Review Journal Aging is rich in information and integration of research material in a wide range of disciplines and valuable for undergraduate certificate and community college programs in gerontology and as well graduate courses in applied professional disciplines Turning Pages      **Sociology of Ageing**  
Gangadhar Karalay,2024-07-15 This book examines the biological psychological and sociocultural aspects of challenges related to ageing in India It does so by widely referring to research works beyond the disciplinary boundary of sociology to help develop a lucid yet critical understanding of sociological ageing Apart from providing an invaluable introduction to the major issues involved in the study of ageing from a sociological perspective this book discusses demographic perspective social dimensions social support and state policies in detail It aptly describes challenges faced by elderly people and avenues of opportunities available to them to remain actively engaged in life This book would be useful to the students researchers and teachers of Sociology Social Work Public Health and Psychology It would also be an invaluable companion to professionals working in the field of Gerontology Health and Social care and NGOs working with older people

**Bibliographic Index** ,1985      *Sibling Relationships* M. E. Lamb,B. Sutton-Smith,Brian Sutton-Smith,Michael E. Lamb,2014-01-14 First published in 1982 Since the emergence of developmental psychology early this century theorists and researchers have emphasized the family s role in shaping the child s emergent social style personality and cognitive competence In so doing however psychologists have implicitly adopted a fairly idiosyncratic definition of the family one that focuses almost exclusively on parents and mostly on mothers The realization that most families contain two parents and at least two children has occurred slowly and has brought with it recognition that children develop in the context of a diverse network of social relationships within which each person may affect every other both directly through their interactions and indirectly i e through A s effect on B who in turn influences C The family is such a social network itself embedded in a broader network of relations with neighbors relatives and social institutions Within the family relationships among siblings have received little attention until fairly recently In this volume the goal is to review the existing empirical and theoretical literature concerning the nature and importance of sibling relationships      [Keyword Index to Training Resources in Aging](#)  
,1980      **The Aging Family** Terry Hargrave,Suzanne Midori Hanna,2013-06-17 As the population of the United States ages and the lifespan increases so does the number of living generations The mental health care delivery system therefore faces new challenges The United States is heading into the 21st century with multigenerational families now commonplace with up to four or five generations co existing at the same time And each generation is forced to deal with its own developmental transitions as well as complex cross generational issues When a therapist steps into this situation his or her role has to take on board the complexity of the whole family system This text highlights the issues that hold families together and often tear them apart It offers core perspectives that seek to make the work of intervention easier and more effective for the clinician Whether the therapist is called upon to intervene on behalf of elder members to deal with issues such as depression or to

step in when younger members are trying to determine how best to provide eldercare the perspectives presented in The Aging Family aim to enrich the strategies used

**Singapore Ageing: Issues And Challenges Ahead** S Vasoo, Bilveer Singh, Srinivasan Chokkanathan, 2023-02-02 Ageing is a part of life that all Singaporeans must face and in fact all families will have next of kins who will undergo that life stage Singapore Ageing assembles a team of researchers administrators practitioners advocates and academics from varied social service and care sectors to share their thoughts concerns and future challenges faced by an ageing Singapore in different arenas With the Singapore demography showing a greying trend it is increasingly vital for the government and the social health and economic sectors to meet the needs of an ageing nation The appropriate services and support have to be in place to respond to the issues faced by seniors This edited volume serves as a useful resource for those who are working or researching in the field of ageing

**Experimental Psychology, Cognition, and Human Aging** Donald H. Kausler, 2012-12-06 This book is a major revision and extension of my earlier book Experimental Psychology and Human Aging which appeared in 1982 The intervening years have seen a remarkable expansion of psychological research on human aging especially on topics dealing with cognition They have also seen research on cognitive aging gain increasing importance within the mainstream of basic cognitive research As my lecture notes for my course in the psychology of aging grew so did my apprehension regarding the task ahead of me in revising the first edition The research explosion in cognitive aging forced several major changes in content from the first to the second edition Two chapters on learning and memory in the first edition were necessarily expanded to six chapters in the present edition Similarly the single prior chapter on perception and attention became two chapters as did the single prior chapter on thinking Another change from the first edition is in the addition of some review of the effects of abnormal aging on various cognitive processes particularly in regard to memory functioning To keep the revision within reasonable length some sacrifices had to be made The multiple chapters on methodology and theory in the first edition were condensed into the present single chapter However the major topics from the first edition were retained and in fact added to by the inclusion of important topics and issues that emerged over the past eight years

*Aging in the New Millennium* Terry Tirrito, 2003 Due to advances in medical technology better health care and improvements in lifestyle habits the 21st century brings unprecedented changes in life expectancy and increased numbers of older adults globally As the elder population grows so does the knowledge of and interest in gerontology Gerontology constantly sees new developments in research the emergence of areas of study such as financial gerontology and elder ethics and the introduction of programmes and services for the aging This work explains the biology of aging along with the social and psychological implications of the process It looks at diseases and disorders affecting the aged as well as their treatment It reports on the demographics of older Americans the impact of changes in life expectancy worldwide theories regarding longevity and lifestyle attitudes of a younger population toward an aging one and public support programmes and services for older adults

**The Church's Ministry with**

**Families** Diana S. Richmond Garland, 1990 What happened to the family America's family today isn't so simple anymore There are more stepfamilies more working mothers more single parents more day care children more aging folk living in sandwich families and fewer nuclear families The enormous changes in society call for new ways for the church to exercise its family ministries Back cover

**Aging, Society and the Life Course** Leslie A. Morgan, 2007 As our aging population grows ever larger it is increasingly important to understand how adults age and what we can do to provide up to date care to ensure their well being as an integral part of society Leslie Morgan and Suzanne Kunkel understand that this phenomenon is about much more than just the physical or biological aspects of growing older and have put together a comprehensive text on the impact of society and sociology on the aging process Use this text to explore the diversity of the aging population and dispel the major stereotypes surrounding the elderly Learn about aging through all the layers of social context from family life to politics and economics And through this approach come to see how aging is more than just an individual process it is a process that effects the direction of our society as a whole For the Student Web sites of interest and key terms defined at the end of each chapter Real life stories and essays on love sex music medicine and crime For the Professor Assignment ready reading in a One Chapter a Week format Questions for discussion and review at each chapter end Applying Theory sections place the lesson of each chapter in a clear real world setting Instructor's Guide Now Available An Instructor's Manual for this textbook is available for those professors who have adopted Aging Society and the Life Course Third Edition and can verify a bookstore order of 7 or more copies Please email our Marketing Department at [marketing.springerpub.com](mailto:marketing.springerpub.com) if you have adopted this text as you will need a password to download the guide Please provide the name and telephone number of the bookstore that ordered the textbooks A print version of the Instructor's Manual is also available

**Handbook of Clinical Health Psychology** C. Green, R. Meagher, T. Millon, 2012-12-06 We seek to throw down the gauntlet with this handbook challenging the hegemony of the behavioral medicine approach to the psychological study and treatment of the physically ill This volume is not another in that growing surfeit of texts that pledge allegiance to the doctrinaire purity of behavioristic thinking or conceptualize their subject in accord with the sterility of medical models Diseases are not our focus nor is the narrow band of behavioral assessment and therapy methodologies Rather we have sought to redefine this amorphous yet burgeoning field so as to place it squarely within the province of a broadly based psychology specifically the emerging substantive discipline of health psychology and the well established professionalism and diverse technologies of clinical psychology The handbook's title Clinical Health Psychology reflects this reorientation explicitly and Chapter 1 addresses its themes and provides its justifications more fully In the process of developing a relevant and comprehensive health assessment tool the editors were struck by the failure of clinical psychologists to avail themselves of the rich vein of materials that comprise the psychosocial world of the physically ill Perhaps more dismaying was the observation that this field was being mined less than optimally by physicians and nonclinical psychologists

**Ebersole and Hess' Gerontological Nursing**

**and Healthy Aging in Canada E-Book** Veronique Boscart,Lynn McCleary,Linda Sheiban Taucar,Theris A. Touhy,Kathleen F Jett,2022-02-02 Gain the knowledge and skills you need to care for older adults in Canada Ebersole and Hess Gerontological Nursing Healthy Aging in Canada 3rd Edition uses a wellness based holistic approach to older adult care from a distinctly Canadian perspective Designed to promote healthy aging regardless of the patient s situation or disorder this book provides best practice guidelines to help you identify potential problems address complications and alleviate discomfort An Evolve website includes new Next Generation NCLEX style case studies and PN competencies case studies to enhance your skills in clinical judgement Written by a team of gerontological nursing experts led by Veronique Boscart this concise guide covers health care in the context of the cultural and socio economic issues unique to Canada Core competencies identified by the CGNA are integrated throughout the book reinforcing the standards of the Canadian Gerontological Nursing Association Assessment guidelines and tools are featured in tables boxes and forms including the latest scales and guidelines for proper health assessment Focus on health and wellness highlights all aspects of the aging process Attention to age cultural and gender differences helps you care for different population groups Evidence informed Practice boxes summarize research findings and identify those practices with unknown ineffective or harmful effects and examine topics such as culturally safe health initiatives for Indigenous Peoples lifelong learning and its effects on the wellbeing of older adults challenges in home care and long term care homes and improving outcomes and improving outcomes for seniors living with a stroke or dementia Activities and discussion questions at the end of every chapter help you understand the material and apply concepts in clinical situations      Multidisciplinary Perspectives on Aging Lynn M. Tepper, MA, MS, EDM,EdD,Thomas M. Cassidy, MAg,2004-09-28 In this multidisciplinary text noted leaders from a variety of fields provide students and professionals with a big picture approach to the best possible care for today s growing aging population Addressing the extensive concerns that have arisen out of an increased life expectancy and the elder boom of aging baby boomers the contributors point to changing care and housing needs health mental health and wellness concerns and financial ethical and legal issues in elder care Contributors include Eileen Chichin Catherine DeLorey Marshall Kapp Gary Kennedy William Smith Patricia Miller and Thomas Campbell Jackson      **Journal of Current Social Issues** ,1977      Aging Diana S. Woodruff-Pak,Vern L. Bengtson,Ethel Percy Andrus Gerontology Center,1975
