The Racial Middle Eileen O'Brien, 2008-06-01 The divide over race is usually framed as one over Black and White Sociologist Eileen O'Brien is interested in that middle terrain what sits in the ever increasing gray area she dubbed the racial middle The Racial Middle tells the story of the other racial and ethnic groups in America mainly Latinos and Asian Americans two of the largest and fastest growing minorities in the United States Using dozens of in depth interviews with people of various ethnic and generational backgrounds Eileen O'Brien challenges the notion that to fit into American culture the only options available to Latinos and Asian Americans are either to become white or to become brown Instead she offers a wholly unique analysis of Latinos and Asian Americans own distinctive experiences those that aren't typically White nor Black Though living alongside Whites and Blacks certainly frames some of their own identities and interpretations of race O'Brien keenly observes that these groups struggles with discrimination their perceived isolation from members of other races and even how they define racial justice are all significant realities that inform their daily lives and importantly influence their opportunities for advancement in society A refreshing and lively approach to understanding race and ethnicity in the twenty first century The Racial Middle gives voice to Latinos and Asian Americans place in this country s increasingly complex racial mosaic

Acting Black Sarah Susannah Willie, 2003-12-16 Sarah Willie asks What s it like to be black on campus For most Black students attending predominantly white universities it is a struggle Do you try to blend in Do you take a stand Do you end up

acting as the token representative for your whole race And what about those students who attend predominantly black universities How do their experiences differ In *Acting Black* Sarah Willie interviews 55 African American alumnae of two universities comparable except that one is predominantly white Northwestern and one is predominantly black Howard What she discovers through their stories mirrored in her own college experience is that the college campus is in some cases the stage for an even more intense version of the racial issues played out beyond its walls The interviewees talk about acting white in some situations and acting black in others They treat race as many different things including a set of behaviours that they can choose to act out In *Acting Black* Willie situates the personal stories of her own experience and those of her interviewees within a timeline of black education in America and a review of university policy with suggestions for improvement for both black and white universities seeking to make their campuses truly multicultural In the tradition of *The Agony of Education* Routledge 1996 Willie captures the painful dilemmas and ugly realities African Americans must face on campus

Being Black, Being Male on Campus Derrick R. Brooms, 2016-12-28 Explores how race and gender matter on campus and how Black males navigate college for academic and personal success This work marks a radical shift away from the pervasive focus on the challenges that Black male students face and the deficit rhetoric that often limits perspectives about them Instead Derrick R Brooms offers reflective counter narratives of success *Being Black Being Male on Campus* uses in depth interviews to investigate the collegiate experiences of Black male students at historically White institutions Framed through Critical Race Theory and Blackmaleness the study provides new analysis on the utility and importance of Black Male Initiatives BMIs This work explores Black men s perceptions identity constructions and ambitions while it speaks meaningfully to how race and gender intersect as they influence students experiences Well written and informative this exciting project cuts across many of the strengths of previous publications and fills significant theoretical and methodological gaps by focusing on authentically voiced Black men who are finding and making their way in higher education and in life James Earl Davis coeditor of *Educating African American Males Contexts for Consideration Possibilities for Practice*

Poison in the Ivy W. Carson Byrd, 2017-11-24 The world of elite campuses is one of rarified social circles as well as prestigious educational opportunities W Carson Byrd studied twenty eight of the most selective colleges and universities in the United States to see whether elite students social interactions with each other might influence their racial beliefs in a positive way since many of these graduates will eventually hold leadership positions in society He found that students at these universities believed in the success of the best and the brightest leading them to situate differences in race and status around issues of merit and individual effort *Poison in the Ivy* challenges popular beliefs about the importance of cross racial interactions as an antidote to racism in the increasingly diverse United States He shows that it is the context and framing of such interactions on college campuses that plays an important role in shaping students beliefs about race and inequality in everyday life for the future political and professional leaders of the nation *Poison in the Ivy* is an eye opening look at race on

elite college campuses and offers lessons for anyone involved in modern American higher education *The Burden of Academic Success* Allison L. Hurst, 2010-03-01 *The Burden of Academic Success* Loyalists Renegades and Double Agents explores class identity reconstructions among working class students attending a public university Rather than focus on working class failure this book takes a critical look at the psychological and social costs of academic success Based on several hours of interviews with a diverse group of working class students this book describes how successful students respond to react to and manage their academic success The book does for class what other theorists have done for race examining the dynamic interplay of class identity and educational success social mobility The distinguishing features of the book are rich narrative detail compelling stories of student success and struggle intersectional analysis exploring the ways class race and gender inform each other in students understandings and narratives with an interwoven theory throughout and a new typology for understanding working class student responses to the burden of academic success *The Burden of Academic Success* is ideal for courses on sociology education and American studies as well as for use by college educators and administrators *White Supremacy and Racism in the Post-civil Rights Era* Eduardo Bonilla-Silva, 2001 Is a racial structure still firmly in place in the United States *White Supremacy and Racism* answers that question with an unequivocal yes describing a contemporary system that operates in a covert subtle institutional and superficially nonracial fashion Assessing the major perspectives that social analysts have relied on to explain race and racial relations Bonilla Silva labels the post civil rights ideology as color blind racism a system of social arrangements that maintain white privilege at all levels His analysis of racial politics in the United States makes a compelling argument for a new civil rights movement rooted in the race class needs of minority masses multiracial in character and focused on attaining substantive rather than formal equality

White Out Ashley W. Doane, Eduardo Bonilla-Silva, 2013-01-11 What does it mean to be white This remains the question at large in the continued effort to examine how white racial identity is constructed and how systems of white privilege operate in everyday life *White Out* brings together the original work of leading scholars across the disciplines of sociology philosophy history and anthropology to give readers an important and cutting edge study of whiteness **A Curriculum of Repression** Haroon Khareem, 2006 Textbook *The Agony of Education* Joe R. cultural climate The book features renowned scholars and experienced teachers from a range of disciplines and offers successful strategies for teaching important concepts through case studies and active learning exercises It provides innovative strategies novel lesson plans and classroom activities for college and university professors who seek effective methods and materials for teaching about race and racism to today's students A valuable handbook for educators this book should be required reading for all graduate students and college instructors *Student Engagement in Higher Education* Stephen John Quaye, Shaun R. Racism and Racial Equity in Higher Education Samuel D. Museus, María C. Ledesma, Tara L. Parker, 2015-12-07 What does it mean to work toward racial equity in higher education in the 21st century This monograph answers just that with a synthesis of theory research and evidence that illuminate the ways in which racism shapes higher education systems and the experiences of people who navigate them Higher education leaders must move beyond vague notions of diversity and do the difficult work of pursuing systemic transformation and creating more inclusive environments in which racially diverse populations can thrive Such work necessitates a deep understanding of the historic and contemporary role of racism in shaping postsecondary access and opportunity This work will be of interest to those who recognize how advancing racial equity benefits all members of the campus community and larger society This is the 1st issue of the 42nd volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication White Racism Joe R.
