Agora Francis Warner,1994 *Agora* Francis Warner,1994 Written over the past twenty two years *Agora* contains Warner s plays originally published in the Oxford Theatre Texts series the theme of which is the West s odyssey in discovery of its own values and in the second half of the work what the twentieth century has lost

Agora Francis Warner,1994 *Comparing the Incomparable* Marcel Detienne,2008 A deliberately post deconstructionist manifesto against the dangers of incommensurability Marcel Detienne s book argues for and engages in the constructive comparison of societies of a great temporal and spatial diversity

Public Space and Democracy Marcel Hénaff,Tracy B. Strong,2001 Moving from classical Greece to the present *Public Space and Democracy* provides both historical accounts and a comparative analytical framework for understanding public space both as a place and as a product of various media from speech to the Internet These essays make a powerful case for thinking of modern technological developments not as the end of public space but as an opportunity for reframing the idea of the public and of the public space as the locus of power

A History of Greece George Grote,2023-03-07 Reprint of the original first published in 1872

Mythologizing Performance Richard P. Martin,2025-02-15 Building on numerous original close readings of works by Homer Hesiod and other ancient Greek poets Richard P Martin articulates a broad and precise poetics of archaic Greek verse The ancient Greek hexameter poetry of such works as the *Iliad* and the *Odyssey* differ from most modern verbal art because it was composed for live face to face performance often in a competitive setting before an audience well versed in mythological and ritual lore The essays collected here span Martin s acclaimed career and explore ways of reading this poetic heritage using principles and evidence from the comparative study of oral traditions literary and speech act theories and the ethnographic record Among topics analyzed in depth are the narrative structures of Homer s epics the Hesiodic *Works and Days* and the Homeric Hymn to Apollo the characterization of poetic and musical performers within the poems the social context for verses ascribed to the legendary singer Orpheus the significance of various rituals as stylized by poetic performances and the interrelations at the level of diction and theme among the major genres of epic and hymn as well as genres of speaking such as lament praise advice and proverbial wisdom

Film and the Classical Epic Tradition Joanna Paul,2013-02-28 Paul explores the relationship between films set in the ancient world and the classical epic tradition arguing that there is a connection between the genres Through this careful consideration of how epic manifests itself through different periods and cultures we learn how cinema makes a claim to be a modern vehicle for a very ancient tradition

The Iliad Homer,1877

Roger Ebert's Movie Yearbook 2013 Roger Ebert,2012-12-04 Reviews originally appeared in the Chicago sun times

Return of the Epic Film Andrew Elliot,2015-03-05 With the success of *Gladiator* both critics and scholars enthusiastically announced the return of a genre which had lain dormant for thirty years However this return raises important new questions which remain unanswered Why did the epic come back and why did it fall out of fashion Are these the same kinds of epics as the 1950s and

60s or are there aesthetic differences Can we treat Kingdom of Heaven 300 and Thor indiscriminately as one genre Are non Western histories like Hero and Mongol epics too Finally what precisely do we mean when we talk about the return of the epic film and why are they back The Return of the Epic Film offers a fresh way of thinking about a body of films which has dominated our screens for a decade With contributions from top scholars in the field the collection adopts a range of interdisciplinary perspectives to explore the epic film in the twenty first century **Movie Moments** Amelia

Khatri, AI, 2025-02-19 Movie Moments explores the intriguing intersection of film history and historical representation by dissecting iconic film scenes The book uniquely combines historical context with filmmaking techniques offering a fresh perspective on how movies shape our understanding of the past For example it examines how historical accuracy influences storytelling and investigates the innovative technology used to bring these moments to life Did you know film can be both an artistic medium and a historical interpreter The book begins by introducing theoretical frameworks for analyzing film and history It then progresses through detailed scene analyses from various films spanning diverse genres and historical periods Each chapter examines a specific scene providing a historical overview technical analysis and discussion of its cultural impact This approach allows readers to appreciate the complexities of historical filmmaking and the ethical considerations involved

Works Homer, 1857 The Iliad, with Engl. notes by T.H.L. Leary Homerus, 1857 **The Epic Mirror** Imogen Choi, 2022 How did Spanish American writers and veterans in the late sixteenth and early seventeenth century use epic poetry to search for ethical solutions to the violent conflicts of their age Winner of the 2017 18 AHGBI Spanish Embassy Publication Prize The Epic Mirror studies how Spanish American writers and veterans in the late sixteenth and early seventeenth century used epic poetry to search for ethical solutions to the violent conflicts of their age The wars about which they wrote took place at the frontiers of the Spanish empire where new political communities were emerging fiercely independent Amerindian republics rebellious Spanish settlers maroon kingdoms of fugitive African slaves This colonial reality generated a distinctive vision of just warfare and political community Working across the fields of Hispanic literature the history of political thought and studies of empire colonialism and globalisation Choi reinterprets three major works of colonial Latin American literature Alonso de Ercilla's La Araucana 1569 90 Pedro de O'ne's Arauco domado 1596 and Juan de Miramontes Zuñiga's Armas antárticas 1608 9 She argues that these works provide a rare insight into the development of political thought in Viceroyal Peru Through the imaginative mirrors of epic the reader is forced to ask the same questions of the unfinished conquests of the Americas as of those in Africa Asia or Europe when conflicting forces are divided by irreconcilable world views even if the war is won how is it possible to achieve peace **A Companion to Ancient Epic** John Miles Foley, 2008-11-03 A Companion to Ancient Epic presents for the first time a comprehensive up to date overview of ancient Near Eastern Greek and Roman epic It offers a multi disciplinary discussion of both longstanding ideas and newer perspectives A Companion to the Near Eastern Greek and Roman epic traditions Considers the interrelation between these

Wilson,Maria Colavito,Djoymi Baker,2014-03-21 Soon after film came into existence the term epic was used to describe productions that were lengthy spectacular live with action and often filmed in exotic locales with large casts and staggering budgets The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like Gone with the Wind 1939 and Lawrence of Arabia 1962 have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy Although the form has evolved during many decades of existence its central elements have been retained refined and modernized to suit the tastes of every new generation The Encyclopedia of Epic Films identifies describes and analyzes those films that meet the criteria of the epic sweeping drama panoramic landscapes lengthy adventure sequences and in many cases casts of thousands This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D W Griffith and biblical melodramas of Cecil B DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg Each entry contains Major personnel behind the camera including directors and screenwriters Cast and character listingsPlot summaryAnalysisAcademy Award wins and nominationsDVD and Blu ray availabilityResources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of

audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale **Epic and History** David Konstan, Kurt A. Raaflaub, 2009-10-27 With contributions from leading scholars this is a unique cross cultural comparison of historical epics across a wide range of cultures and time periods which presents crucial insights into how history is treated in narrative poetry The first book to gain new insights into the topic of epic and history through in depth cross cultural comparisons Covers epic traditions across the globe and across a wide range of time periods Brings together leading specialists in the field and is edited by two internationally regarded scholars An important reference for scholars and students interested in history and literature across a broad range of disciplines
