Agricultural Support Policies in Latin America and the Caribbean. 2018 Review Juan José Egas Yerovi, Carmine Paolo De Salvo, 2018-05-31 If we must eat to survive we must make agriculture sustainable To make agriculture sustainable we must consider the necessary strategic actions to understand the challenges in the sector solve problems and innovate That is why in July 2017 several Ministers and other senior representatives of the Ministries of Agriculture of Suriname Guyana Haiti Dominican Republic Jamaica Belize Barbados and The Bahamas participated in the Caribbean Agricultural Policy Forum organized by the Inter American Development Bank IDB The Forum analyzed the agricultural policy strategies of the different countries and their impact on the performance of the sector It was an opportunity to discuss the challenges the Caribbean s agricultural sector faces including the vulnerability of small producers to price volatility in the global market and of course the impacts of climate change The dialogue was based on agricultural public policy data collected for each Caribbean country within the framework of the IDB s Agrimonitor initiative The following publication gathers the main findings and summarizes how agricultural policies affect producers and consumers as well as how the limited funding for agricultural services such as research and infrastructure could limit the ability of Caribbean farmers to compete effectively in global markets The analyses presented are therefore meant to contribute to the Caribbean s regional dialogue for the design of more effective agricultural policies which we hope will strengthen the sector and improve the lives of people in the region

Sloan, 2010-11-23 The study of Latin America has long been an ideological battleground Scholars disagree on every major issue the impact of the U S influence in the region the political orientation of the middle class the role of the military the rate of socioeconomic change and the viability of reform Public Policy in Latin America is a masterful synthesis of scholarship on the region Sloan studies political phenomena not by making superficial comparisons between leaders parties or styles but by examining what governments do the creation of public policy through political process The decisions to stress accumulation versus distribution of economic goods the role of the bureaucracy and the quality of political participation tell more about a nation than what party or persons are in power Land, Power, and Poverty Taylor & Francis Group, 2019-05-07 This book Land Power and Poverty explores the development of the rigid and unequal structures of rural Central American society and the role in the conflicts of five governments of the region Guatemala Costa Rica Honduras El Salvador and Nicaragua *Land & Development in Latin America* Stephen Baranyi, Carmen Diana Deere, Manuel Morales, International Development Research Centre (Canada), North-South Institute (Ottawa, Ont.), 2004 Co published by the International Development Research Centre IDRC *Central America Since*
