Agricultural Biotechnology, 1991 **Agricultural Biotechnology** World Bank The, 1991 **Agricultural Biotechnology: the Next Green Revolution ?** World Bank Group, 1991 Agricultural Biotechnology World Bank, 1990
Agricultural Biotechnology: the Next "green Revolution"? Banco Mundial, 1991 **Biotechnology And The New Agricultural Revolution** Joseph J Molnar, 2019-05-20 The advent of new methods in shaping the performance characteristics of plants animals and microbes dramatically expands the possibilities for advances in agriculture a new Green Revolution in the offing This book examines the impact of such developments on agricultural institutions agribusiness and farmers What happens when a fundamenta **The Future of Genetically Modified Crops** Felicia Wu, William Butz, 2004-08-13 The world is now on the cusp of a new agricultural revolution the so called Gene Revolution in which genetically modified GM crops are tailored to address chronic agricultural problems in certain regions of the world This monograph report investigates the circumstances and processes that can induce and sustain this new agricultural revolution The authors compare the Green Revolution of the 20th century with the GM crop movement to assess the agricultural technological sociological and political differences between the two movements Technological and Social Dimensions of the Green Revolution Pratyusha Basu, Bruce Scholten, 2014-10-14 Rising concerns about agricultural productivity and food security in rapidly changing economic and environmental contexts have led to renewed interest in agricultural development But the extent to which new policies and programs will enable socially just and environmentally sustainable futures for rural communities remains a matter of intense debate This book contributes to such debates by critically examining the intersection of agricultural histories heterogeneous social contexts and new technological developments in rural communities across the Global South It shows how experiences of the previous Green Revolution can inform new agricultural programs and enable equitable and participatory development in rural places Through close engagement with rural communities this book ensures that rural voices become part of the debate on agricultural development and suggests pathways for building on the gains of the Green Revolution without necessarily repeating its problematic social technological and environmental aspects This book was published as a special issue of the International Journal of Agricultural Sustainability **The Elgar Companion to Intellectual Property and the Sustainable Development Goals** Matthew Rimmer, Caroline B. Ncube, Bita Amani, 2024-02-12 Complex geopolitical debate surrounds the role of intellectual property IP in advancing and achieving the UN s Sustainable Development Goals SDGs Summarising and advancing this discourse this prescient Companion is a thorough examination of how IP law interacts influences and impacts each of the seventeen SDGs *Contesting Africas New Green Revolution* Jacqueline Ignatova, 2021-05-20 In this insightful critique of arguments for and against GMOs as a remedy for poverty inequality and hunger in Africa Ignatova illuminates the way the new Green Revolution serves as a vehicle for philanthrocapital generating markets and wealth for global agribusiness in the name of pro poor development Sara Berry

Professor Emeritus John Hopkins University USA Ignatova's important book illuminates profound problems with public private partnerships that skirt democratic accountability and empower wealthy interests at the expense of local communities. But it's not a despairing account; she centres Ghanaian activists and policy makers who are pioneering a new type of philanthropy, one emphasizing interdependency and social justice over anti-democratic efforts to privatize seed commons. A revelatory and insightful study. Linsey McGoey, Professor of Sociology, University of Essex, UK. Like a combine through a field of genetically modified maize, Jacqueline Ignatova cuts through the rhetoric surrounding the Green Revolution for Africa to reveal the underlying power politics and inequities that shape agricultural development in contemporary Ghana. Full of rich empirics and analytical insights, this book is essential reading for those seeking a comprehensive understanding of how public private partnerships and philanthropy-driven initiatives are reshaping smallholder agriculture across the African continent. Marcus Taylor, Associate Professor and Head of Department, Global Development Studies, Queen's University, Canada.

Handbook on the Globalisation of Agriculture Guy M. Robinson, Doris A. Carson, 2015-06-29. This Handbook provides insights to the ways in which globalisation is affecting the whole agri-food system from farms to the consumer. It covers themes including the physical basis of agriculture, the influence of trade policies, the nature of globalis. Sustainable Agriculture and New Biotechnologies Nouredine Benkeblia, 2016-04-19. Taking a broad and innovative informational approach, *Sustainable Agriculture and New Biotechnologies* is the first book to apply omic technologies to address issues related to understanding and improving agricultural sustainability in the food production process. The transformation from industrial to sustainable agriculture is discussed within the **Proceedings, American Philosophical Society (vol. 149, no. 4, 2005)**, **Agricultural Technologies for Market-led Development Opportunities in the 1990s** Shawki M. Barghouti, E. Cromwell, Anthony J. Pritchard, 1993-01-01. Argentina has reformed its public finance system and reversed years of economic decline and deficit spending. This study recommends policy options to speed the already impressive progress. These options would expand the ambitious reform program already under way. This study shows how to sustain balanced public finances over the medium term. It describes ways to sustain price stability and economic growth while providing a cushion against unexpected downturns. Also examined are ways to improve social services while reducing the size of government. Researchers discuss key reforms that could boost the fiscal surplus by as much as 1.4 percent of gross domestic product. They look at ways to build tax revenues, reduce provincial finances and make social security more equitable. They review methods to cut defense spending and revive a moribund education system. Additional policy options offered are reforms for housing and welfare programs and pension fund investments. The study suggests ways to improve the legal framework for a stronger central bank. Also reviewed are ways to eliminate unnecessary administrative agencies and to privatize public enterprises. The government's new health insurance program is examined. This program offers universal coverage. It lets contributors choose providers and includes subsidies for those who can't pay. It also requires a minimum

package of health care at a set price

Contesting Africa's New Green Revolution Jacqueline A. Ignatova, 2021-05-20
 Genetically modified crops have become a key element of development strategies across the Global South despite remaining deeply controversial. Proponents hail them as an example of pro-poor innovation while critics regard them as a threat to food sovereignty and the environment. The promotion of biotechnology is an integral part of the new Green Revolution for Africa, interventions and is also intimately linked to the rise of philanthrocapitalism which advances business solutions to address the problem of poverty. Through interviews with farmers, policymakers and agricultural scientists, Jacqueline Ignatova shows how efforts to transform the seed sector in northern Ghana, one of the key laboratories of this new Green Revolution, may serve to exacerbate the inequality it was notionally intended to address. But she also argues that its effects in Ghana have been far more complex than either side of the debate has acknowledged, with local farmers proving adept at blending traditional and modern agricultural methods that subvert the interests of global agribusiness.

World Hunger Joseph Collins, 2014-02-04
 The revised edition of this text includes substantial new material on hunger in the aftermath of the Cold War, global food production versus population growth, changing demographics and falling birth rates around the world, the shifting focus of foreign assistance in the new world order, structural adjustment and other budget-slashing policies, trade liberalization and free trade agreements, famine and humanitarian interventions, and the third-worldization of developed nations.
