Agriculture In France On The Eve Of The Railway Age:

Agriculture in France on the Eve of the Railway Age Hugh D. Clout, 1980-01-01 Clout has carefully digested the earliest volumes of government published statistics and with the aid of computer generated cartography transformed the numbers there reported into an arrondissement by arrondissement comparative picture of French agriculture midway through the July Monarchy compact and useful **Routledge Revivals: Agriculture in France on the Eve of the Railway Age (1980)**

Hugh Clout, 2017-11-22 First published in 1980 this compact and useful book uses the earliest volumes of government published statistics and with the aid of computer generated cartography transforms the numbers there reported into an arrondissement by arrondissement comparative picture of French agriculture in the mid 1830s Clout reviews problems of rapid population growth scarcely adequate domestic food supplies and primitive systems of transportation while attention is drawn to spatial variations in agricultural activity and productivity Commercial high yielding farming was best developed in a northern multi nuclear region comprising of Ile de France Normandy and Nord with smaller foci of commercial orientation along an eastern axis from Alsace to Marseilles and in western areas from the Loire to the middle of the Garonne valley Clout concludes that the revolutionary promise of national economic unity was far from being realised in the 1830s and was not to be achieved until national systems of transport and education were firmly established later in the nineteenth century

Historical Archaeology Martin Hall, Stephen W. Silliman, 2009-02-09 This volume offers lively current debates and case studies in historical archaeology selected from around the world including North America Latin America Africa the Pacific and Europe Authored by 19 experts in the field Explores how historical archaeologists think about their work piecing together information from both material culture and documents in an attempt to understand the lives of the people and societies they study Engages with current theory in an accessible manner Truly global in its approach but avoids subsuming local experiences of people into global patterns Summarizes not only the current state of historical archaeology but also sets the course for the field in decades to come France, 1815-1914 Roger Magraw, 1986 In this lively and stimulating study Roger Magraw examines how the 19 century French bourgeoisie struggled and eventually succeeded in consolidating the gains it made in 1789 Incorporating the most recent research on religion and anticlericalism the development of the economy the role of women in society and the educational system he lucidly defends the view that the French revolution was indeed a bourgeois revolution **Themes in the Historical Geography of France** Hugh D. Clout, 2013-10-02 Themes in the Historical Geography of France compiles several selected themes in the historical geography of France This book discusses the practice of historical geography in France peopling and the origins of settlement early urban development and retreat of rural settlement The regional contrasts in agrarian structure reclamation of coastal marshland petite culture on 1750 1850 and reclamation of wasteland during the 18th and 19th centuries are also elaborated This compilation likewise covers the historical geography of Western France urban growth on 1500 1900 and agricultural change and industrial development in

the 18th and 19th centuries This publication is beneficial to historians and geographers aiming to acquire knowledge of the historical geography of France

An Historical Geography of France Xavier de Planhol, Paul Claval, 1994-03-17 In this 1994 book Xavier de Planhol and Paul Claval two of France's leading scholars in the field trace the historical geography of their country from its roots in the Roman province of Gaul to the 1990s They demonstrate how for centuries France was little more than an ideological concept despite its natural physical boundaries and long territorial history They examine the relatively late development of a more complex territorial geography involving political religious cultural agricultural and industrial unities and diversities The conclusion reached is that only in the twentieth century had France achieved a profound territorial unity and only now are the fragmentations of the past being overwritten

Fraternity Among the French Peasantry Alan R. H. Baker, 2004-03-18 The individualism of the French peasantry during the nineteenth century has frequently been asserted as one of its most striking characteristics In this 1999 book Alan Baker challenges this orthodox view and demonstrates the extent to which peasants continued with traditional and developed new forms of collective action He examines representations of the peasantry and discusses the discourse of fraternity in nineteenth century France in general before considering specifically the historical development geographical diffusion and changing functions of fraternal voluntary associations in Loir et Cher between 1815 and 1914 Alan Baker focuses principally upon associations aimed at reducing risk and uncertainty and upon associations intended to provide agricultural protection A wide range of new voluntary associations were established in Loir et Cher and indeed throughout rural France during the nineteenth century Their historical geography throws new light upon the sociability upon the changing mentalities of French peasants and upon the role of fraternal associations in their struggle for survival

Peasantry and Society in France Since 1789 Annie Moulin, 1991-10-24 This book examines the social economic and cultural evolution of the peasantry in France and its place in French society since 1789

Geographical Abstracts, 1984

Revolution and Rebellion in the Early Modern World Jack A. Goldstone, 1991-04-02 What can the great crises of the past teach us about contemporary revolutions Arguing from an exciting and original perspective Goldstone suggests that great revolutions were the product of ecological crises that occurred when inflexible political economic and social institutions were overwhelmed by the cumulative pressure of population growth on limited available resources Moreover he contends that the causes of the great revolutions of Europe the English and French revolutions were similar to those of the great rebellions of Asia which shattered dynasties in Ottoman Turkey China and Japan The author observes that revolutions and rebellions have more often produced a crushing state orthodoxy than liberal institutions leading to the conclusion that perhaps it is vain to expect revolution to bring democracy and economic progress Instead contends Goldstone the path to these goals must begin with respect for individual liberty rather than authoritarian movements of national liberation Arguing that the threat of revolution is still with us Goldstone urges us to heed the lessons of the past He sees in the United States a repetition of the behavior patterns that have led to

internal decay and international decline in the past a situation calling for new leadership and careful attention to the balance between our consumption and our resources Meticulously researched forcefully argued and strikingly original *Revolutions and Rebellions in the Early Modern World* is a tour de force by a brilliant young scholar It is a book that will surely engender much discussion and debate

Free Trade and its Enemies in France, 1814-1851 David Todd, 2015-04-30 The first full examination of the protectionist turn of French liberalism in the early stages of nineteenth century globalisation

Bibliography of European Economic and Social History Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily

Deforesting the Earth Michael Williams, 2010-05-15 Anyone who doubts the power of history to inform the present should read this closely argued and sweeping survey This is rich timely and sobering historical fare written in a measured non sensationalist style by a master of his craft One only hopes almost certainly vainly that today's policymakers take its lessons to heart Brian Fagan Los Angeles Times Published in 2002 *Deforesting the Earth* was a landmark study of the history and geography of deforestation Now available as an abridgment this edition retains the breadth of the original while rendering its arguments accessible to a general readership Deforestation the thinning changing and wholesale clearing of forests for fuel shelter and agriculture is among the most important ways humans have transformed the environment Surveying ten thousand years to trace human induced deforestation's effect on economies societies and landscapes around the world *Deforesting the Earth* is the preeminent history of this process and its consequences Beginning with the return of the forests after the ice age to Europe North America and the tropics Michael Williams traces the impact of human set fires for gathering and hunting land clearing for agriculture and other activities from the Paleolithic age through the classical world and the medieval period He then focuses on forest clearing both within Europe and by European imperialists and industrialists abroad from the 1500s to the early 1900s in such places as the New World India and Latin America and considers indigenous clearing in India China and Japan Finally he covers the current alarming escalation of deforestation with our ever increasing human population placing a potentially unsupportable burden on the world's forests

Masterminding Nature Margaret E. Derry, 2015-01-01 Canadian historian Margaret Derry examines the evolution of modern animal breeding from the invention of improved breeding methods in 18th century England to the application of molecular genetics in the 1980s and 1990s

Revolutionary Europe, 1780-1850 Jonathan Sperber, 2014-06-11 Providing a continent wide history this major survey covers the key political events of this turbulent period Jonathan Sperber also looks at lives of ordinary people and considers broad social and economic developments In particular he examines the relationships

between the different revolutionary movements showing how the French Revolution of 1789 set patterns which recurred over the following sixty years

France 1814 - 1914 Robert Tombs, 2014-09-25 Here is an incomparably rich portrait of France in the years when the disparate elements that made up the fragmented kingdom of the ancien regime were forged into the modern nation The survey begins with an exploration of national obsessions and attitudes It considers the tendency to revolution and war the preoccupation with the idea of a New Order and the deep strain of national paranoia that was to be intensified by the dramatic debacle of the Franco Prussian War Robert Tombs then investigates the structures of power and in Part Three he turns his attention to social identities from the individual and family to the nation at large When every aspect of the period has been put under the microscope Robert Tombs draws them all into the broad political narrative that brings the book to its rousing conclusion Bursting with life as well as learning this is quite simply a tour de force *Politics in the Rural Society* P. M. Jones, Peter Jones, Peter Michael Jones, 2004-06-07 A study of French rural society during an age of revolutionary experimentation with democratic institutions

The Land of France 1815-1914 Hugh D. Clout, 2017-07-06 This book first published in 1983 attempts to examine the rural change in France between 1815 and 1914 with a sustained and explicit spatial approach This volume represents a position in which space and time are meshed in an analysis of the forces underlying land use and other changes that have contributed much to the making of the French landscape In this book the shift from the rural economy towards the urban markets in this period is examined thoroughly using the vast statistical record of cadastral surveys and agricultural enquiries as well as contemporary reports and agricultural journals The detailed mapping of historical data is a major feature of the treatment As a scholarly account of a major topic in historical geography *The Land of France 1815 1914* should appear to all students and researchers with interests in historical and rural geography and economic history and especially those specialising in European studies

Forests in Revolutionary France Kieko Matteson, 2015-04-16 This book investigates the bitterly contested development of environmental conservation in France from the seventeenth to the nineteenth century suggesting that conflicts over forests between the state landowning elites and the peasantry not only reflected escalating demand for this most vital of natural resources but also shaped the country s revolutionary struggles

Beyond the Terror Gwynne Lewis, Colin Lucas, 2003-12-18 This collection of essays is written by Richard Cobb s friends and is dedicated to him
