Frank Förster

Ägyptische Zeichnungen Aus Drei Jahrtausenden:

Ancient Near Eastern Iconography and the Bible Hans Ulrich Steymans, 2024-10-31 Examines the dilemma of whether ancient Near Eastern images while providing unique aspects of the world views of the cultures from which the Bible arose can be interpreted in a way that traceably relates them to the biblical text To avoid the danger of using images merely as illustrations for concepts found in the Bible one first needs to behold the image with its own right to be seen The essays within this volume describe the methods developed by Othmar Keel for bringing imagery into a dialogue with texts from the ancient Orient and their own interpretation including previously unpublished material from Keel The contributions begin with an overview of the scholarly work of Keel and the development of his aims and methods including a revision of an article dealing with semiology in the interpretation of art The book proceeds to address the research history of iconology in art history presenting the methodology of Erwin Panofsky and one of his influential predecessors Charles Clermont Ganneau in contrast with Keel's three methodological steps leading from iconographic analysis to iconology Contributors then present two case studies of how Keel's method can be applied to interpret Egyptian and Mesopotamian images allowing insights into the worldview of an ancient culture and the aim of iconology The book concludes with a report about how iconographic analysis and iconology is taught on University level

Bibliographie zum Altägyptischen Totenbuch Burkhard Backes, 2009 Der Band

ersetzt die erste Auflage von 1998. Der Umfang der Bibliographie konnte dabei um über ein Drittel auf 1799 Einträge gesteigert werden. Dieser substantielle Zuwachs ist hauptsächlich der intensiven Forschung zum Totenbuch während der vergangenen 10 Jahre zu verdanken und zeugt von der anerkannten Bedeutung dieses religiösen Text und Bildkorpus für die gesamte Ägyptologie. Zudem wurden einige schwer zugängliche ältere Werke nachgetragen, überwiegend aus osteuropäischen Ländern. Die in der ersten Auflage eingeführte Unterteilung in Übersetzungen, Überblickswerke, Publikationen, Museen und Ausstellungskataloge sowie Literatur zu den einzelnen Kapiteln des Totenbuchs wurde beibehalten. Zusätzlich sind die Beiträge über eine fortlaufende Nummerierung und einen Autorenindex erschlossen.

Annual Egyptological Bibliography, 1979 **Der Abu Ballas-Weg** Frank Förster, 2015-01-01 This book presents the finds and features of a Pharaonic caravan route only discovered in 1999 which leads from the Dakhla Oasis in Egypt deep into the Libyan Desert and therefore brings this area into the focus of Egyptological research for the first time. Based on archaeological investigations carried out within the scope of the Collaborative Research Centre 389 ACACIA at Cologne the finds and features are thoroughly analyzed. Part I of the thesis followed by studies on the practical use of the trail, part II and on the possible purpose and historical significance of the caravan route, part III. As the main result it turned out that the so called Abu Ballas Trail was an extremely difficult Pharaonic caravan route through the Libyan Desert that was used over many centuries and repeatedly took a greater significance under very specific geopolitical circumstances. It appears to have served at least temporarily from the late third millennium BC onwards as a trade route in order to import luxury items such as incense, ivory, skins of exotic animals, valuable oils and others from sub-Saharan regions first to Dakhla and then further on to the Egyptian Nile Valley probably in cooperation with Libyan nomadic groups. The route therefore represents the earliest evidence of trans-Saharan trade currently known. Its existence proves that the known world of the ancient Egyptians did not end beyond the oases of the Western Desert.

Violence and Gender in Ancient Egypt Uroš Matić, 2021-05-30 *Violence and Gender in Ancient Egypt* shifts the focus of gender studies in Egyptology to social phenomena rarely addressed through the lens of gender war and violence, exploring the complex intersections of violence and gender in ancient Egypt. Building on current discussions in philosophy, anthropology and sociology and on analysis of relevant historic texts, iconography and archaeological remains by looking at possible gender patterns behind evidence of trauma, the book bridges the gap between modern understandings of gendered violence and its functioning in ancient Egypt. Areas explored include the following differences in gendered aggression and violent acts between people and deities, sexual violence, the taking of men, women and children as prisoners of war and feminization of enemies. By examining ancient Egyptian texts and images with evidence for violence from different periods and contexts, private tombs, divine temples, royal stelae, papyri and ostraca ranging over 3,000 years of cultural history, *Violence and Gender in Ancient Egypt* highlights the complex intersection between gender and violence in ancient Egyptian culture. The book will appeal to scholars and students working in Egyptology, archaeology, history.
