Sex, Work and Professionalism Katie Deverell, 2013-01-11 Sex Work and Professionalism examines what happens when professional concern is defined in terms of sex Based on original fieldwork with outreach workers in HIV prevention it addresses issues of professionalism emotion work and boundaries integrating empirical insights with sociological theory In most professional relationships sex is not defined as part of the relationship in fact it is explicitly excluded in guidelines and codes of ethics HIV prevention outreach workers work in sexual environments with a sexually defined target group and are often employed on the basis of their sexuality They have to learn how to balance their work and professional lives overcoming conflicts such as professional role V community role sexual skills V sexual boundaries personal experiences V professional understanding professional identity V worldviews Many of the questions being raised in this book about the meaning of professionalism the pain and pleasure in emotion work and the management of boundaries between home sex and work are being asked more generally by workers in a range of organisations Sex Work and Professionalism argues for a new understanding of professionalism more appropriate to the

biblical texts in dealing with current social problems such as HIV AIDS related stigmatization Hence the lack of lay participation in the process of Bible reading makes the Bible less visible in various common life situations In this volume Elia Shabani Mligo draws on his fieldwork among people living with HIV AIDS PLWHA in Tanzania selects stigmatization as his perspective and chooses participant centered contextual Bible study as his method to argue that the reading of texts from the Gospel of John by PLWHA given their lived experiences of stigmatization empowers them to reject stigmatization as unjust Mligo s study shows that Christian PLWHA reject stigmatization because it does not comply with the attitude of Jesus toward stigmatized groups in his own time The theology emerging from the readings by stigmatized PLWHA through their evaluation of Jesus attitudes and acts toward stigmatized people in the texts challenges churches in their obligatory mission as disciples of Jesus Churches are challenged to reconsider healing hospitality and caring prophetic voices against stigmatization and the way they teach about HIV and AIDS in relation to sexuality Churches must revisit their practices toward stigmatized groups and listen to their voices Mligo argues that participant centered Bible study methods similar to the one used in this book whereby stigmatized people are the primary interlocutors in the process can be useful tools in listening to the voices of stigmatized groups American Book Publishing Record ,2004
