Aids And The Church The Second Decade:

AIDS and the Church Earl E. Shelp, 1992 Understanding HIV and STI Prevention for College Students Leo Wilton, Robert T. Palmer, Dina C. Maramba, 2014-09-19 According to the Centers for Disease Control and Prevention young people aged 18 to 25 are at a significant risk for acquiring and transmitting HIV Human Immunodeficiency Virus and other STIs sexually transmitted infections Primary developmental processes that place college students particularly at risk include the experience of intimacy sexual desires and the centrality of the peer group During these routine developmental processes college students experiment with unprotected sex multiple sex partners and alcohol and illicit drugs all of which are contributing risk factors for HIV STI infections Early diagnosis treatment and prevention of HIV and other STIs is germane to promoting the sexual health of college students and reducing high HIV STI infection rates among young people This edited volume will provide innovative and cutting edge approaches to prevention for college students and will have a major impact on advancing the interdisciplinary fields of higher education and public health It will explore core ideas such as hooking up culture sexual violence LGBT and students of color as well as HIV and STI prevention in community colleges rural colleges and minority serving institutions **AIDS in Jewish Thought and Law** Gad Freudenthal, 1998 The AIDS epidemic has elicited sometimes conflicting Jewish theological ethical and halackhic responses regarding morality compulsory testing and treatment and ritual circumcision Compiled here are 12 major texts 1986 1995 and the resolutions on AIDS of two US Jewish organizations Some bibliographic references are in untranslated Hebrew Annotation copyrighted by Book News Inc Portland OR From Crisis to Kairos A. pastoral counselors to use life stories proverbs biblical narratives plays arts songs riddles poems symbols and images as healing and coping mechanisms for OVC Therefore this book is helpful not only to churches and their ministry to orphans and vulnerable children but also to those who care for orphans in their homes Moreover it will be helpful to children who live in adverse conditions worldwide to find ways to cope with their situations through the stories of children used inside this book

International Perspectives on Women and HIV Samuel A MacMaster,Brian E Bride,CINDY DAVIS,2013-09-13 Throughout the world the threat of HIV AIDS to women s health has become the focus of increased concern The Joint United Nations Programme on HIV AIDS 2004 reports that almost 20 million women and girls are living with HIV globally accounting for nearly half of all people living with HIV worldwide Infection rates among women are rising in every region worldwide including high income countries in which heterosexual intercourse may now be the most common mode of transmission Although there are many contributing factors to the current trends in HIV most women who become HIV infected do not practice high risk behaviour Women worldwide may individually view themselves as less susceptible than men and may pay less attention about how HIV is transmitted and how to prevent infection There are also gender inequalities stemming from sexual double standards that constrain women s access to care treatment and support This work focuses on international perspectives on women and HIV casting a deliberately wide net addressing the issue of the interaction between

HIV and gender in a specific geographic area Our intention is to provide a forum for innovative manuscripts whose contribution to the literature is found in their unique approach to this interaction and application of empirical investigation to unique problems and or populations This material was published in the Journal of Human Behavior in the Social Environment

The Spiritual Legacy of Henri Nouwen Deirdre LaNoue,2000-10-01 In 1969 the year following the death of Thomas Merton Henri Nouwen published his first book Who reading Intimacy Essays in Pastoral Psychology at the time could have guessed that its 37 year old Dutch priest author would become one of the most popular spiritual writers of the 20th century Unlike Merton whose strictly spiritual writings appealed almost exclusively to Roman Catholics Nouwen had an enormous following among Protestants as well as Catholics What was it about this man and his work that so resonated with the American psyche over the past thirty years In The Spiritual Legacy of Henri Nouwen Deidre LaNoue analyzes Nouwen s voluminous writings in the context of his life and times providing a key to his more than forty individual books as well as a cogent summary of his contribution to the spiritual lives of millions of people The book includes a complete bibliography of Nouwen s writings as well as a Scripture index of his books Community Interventions and AIDS Edison J. Trickett,Willo Pequegnat,2005-09-01 As news headlines report staggering numbers of people infected with HIV or AIDS across the globe and as stereotypes of typical AIDS patients become less and less specific to particular sexual orientations and ethnic backgrounds the AIDS pandemic shows little sign of relenting AIDS crosses geopolitical and social barriers and social and behavioral scientists are confronted with the new challenge of developing scientific inquiry and corresponding interventions around participatory community based and community focused methods These interventions are increasingly targeting the contextual influences on individual behavior such as peer groups social networks and support systems and community norms Community level interventions also draw on local resources and are respectful of sociocultural circumstances and traditions This book articulates how the social and behavioral sciences can respond to HIV AIDS It is written for all who have a stake in AIDS research stimulating discussion and debate about the natures of community research and intervention broadly across such disciplines as public health community health education urban planning psychology sociology anthropology and philosophy of science The book proposes alternative perspectives on means of ascertaining knowledge about the HIV AIDS pandemic and the inclusion of community collaboration in interventions **Mental Health Practitioner's Guide to HIV/AIDS** Sana Loue,2012-12-09 Although efforts have been made and continue to be made to reduce the rate of HIV transmission in the U S and globally the rates continue to increase in the majority of countries In the U S members of minority communities remain especially at risk of HIV transmission An individual s discovery that he or she has contracted HIV or that a loved one has contracted the illness often raises significant issues that necessitate interaction with mental health professionals Mental Health Practitioner s Guide to HIV AIDS serves as a quick desk reference for professionals who may be less familiar with the terminology used in HIV AIDS care and services **Spiritual Direction & The Gay Person**

James Empereur,1998-01-01 Intended for counsellors and spiritual directors this text aims to assist gay men and lesbian women in relationships prayer liturgy and in the problems produced by their commitment to or rejection of institutional religion **How to Have Theory in an Epidemic** Paula A. Treichler,1999 A collection of essays on the AIDS epidemic by a leading feminist cultural theorist of science The Year Book of the Congregational Christian Churches of the United States of America General Council of the Congregational and Christian Churches of the United States,1899 **Jesus and the Stigmatized** Elia Shabani Mligo,2011-08-01 Biblical scholars often read the Bible with their own interpretive interests in mind without associating the Bible with the concerns of laypeople This largely undermines the contributions laypeople can offer from reading the Bible in their own contexts and from their own life experiences Moreover such exclusively scholarly reading conceals the role of biblical texts in dealing with current social problems such as HIV AIDS related stigmatization Hence the lack of lay participation in the process of Bible reading makes the Bible less visible in various common life situations In this volume Elia Shabani Mligo draws on his fieldwork among people living with HIV AIDS PLWHA in Tanzania selects stigmatization as his perspective and chooses participant centered contextual Bible study as his method to argue that the reading of texts from the Gospel of John by PLWHA given their lived experiences of stigmatization empowers them to reject stigmatization as unjust Mligo s study shows that Christian PLWHA reject stigmatization because it does not comply with the attitude of Jesus toward stigmatized groups in his own time The theology emerging from the readings by stigmatized PLWHA through their evaluation of Jesus attitudes and acts toward stigmatized people in the texts challenges churches in their obligatory mission as disciples of Jesus Churches are challenged to reconsider healing hospitality and caring prophetic voices against stigmatization and the way they teach about HIV and AIDS in relation to sexuality Churches must revisit their practices toward stigmatized groups and listen to their voices Mligo argues that participant centered Bible study methods similar to the one used in this book whereby stigmatized people are the primary interlocutors in the process can be useful tools in listening to the voices of stigmatized groups **Catalogue** Franklin and Marshall College,1895
