Aimé Césaire Jane Hiddleston, 2025-01-22 Aim C saire is arguably the greatest Caribbean literary writer in history Best known for his incendiary epic poem Notebook of a Return to My Native Land C saire reinvented black culture by conceiving n gritude as a dynamic and continuous process of self creation In this essential new account of his life and work Jane Hiddleston introduces readers to C saire s unique poetic voice and to his role as a figurehead for intellectuals pursuing freedom and equality for black people C saire was deeply immersed in the political life of his native Martinique for over fifty years as Mayor of Fort de France and Deputy at the French National Assembly he called for the liberation of oppressed people at home and abroad while celebrating black creativity and self invention to resist a history of racism C saire s extraordinary life reminds us that the much needed revolt against oppression and subjugation can and should come from within the establishment as well as without **Latin America & Caribbean** ,1993 *Africa* Jeff Ramsay, 1993 Contains current information on the cultural social political and economic differences and similarities between the countries of Central East South and West Africa **Prison Letters to a Daughter** Patrick Lekota, 1991 **The Collected Poetry** Aim C

Tree of Liberty Doris Lorraine Garraway,2008 On January 1 1804 Jean Jacques Dessalines declared the independence of Haiti thus bringing to an end the only successful slave revolution in history and transforming the colony of Saint Domingue into the second independent state in the Western Hemisphere The historical significance of the Haitian Revolution has been addressed by numerous scholars but the importance of the Revolution as a cultural and political phenomenon has only begun to be explored Although the path breaking work of Michel Rolph Trouillot and Sibylle Fischer has illustrated the profound silences surrounding the Haitian Revolution in Western historiography and in Caribbean cultural production in the aftermath of the Revolution contributors to this volume argue that while suppressed and disavowed in some quarters the Haitian Revolution nonetheless had an enduring cultural and political impact particularly on peoples and communities that have been marginalized in the historical record and absent from the discourses of Western historiography Tree of Liberty interrogates the literary historical and political discourses that the Revolution produced and inspired across time and space and across national and linguistic boundaries In so doing it seeks to initiate a far reaching discussion of the Revolution as a cultural and political phenomenon that shaped ideas about the Enlightenment freedom postcolonialism and race in the modern Atlantic world Contributors A James Arnold University of Virginia Chris Bongie Queen s University Paul Breslin Northwestern University Ada Ferrer New York University Doris L Garraway Northwestern University E Anthony Hurley SUNY Stony Brook Deborah Jenson University of Wisconsin Madison Jean Jonassaint Syracuse University Valerie Kaussen University of Missouri Ifeoma C K Nwankwo Vanderbilt University

The Americas Review ,1994
Small Press Guide U. S. A. Ian Walton,1997-07 [The Coloniality of Catastrophe in Caribbean Theater and Performance](#) Camilla Stevens, *Tempest in the Caribbean* Jonathan Goldberg,2004 Shakespeare s The Tempest has long been claimed by colonials and postcolonial thinkers alike as the dramatic work that most enables them to confront their entangled history recognized as early modernity s most extensive engagement with the vexing issues of colonialism race dispossession

language European displacement and occupation disregard for native culture Tempest in the Caribbean reads some of the classic anticolonial texts by Aime Césaire Roberto Fernandez Retamar George Lamming and Frantz Fanon for instance through the lens of feminist and queer analysis exemplified by the theoretical essays of Sylvia Wynter and the work of Michelle Cliff Extending the Tempest plot Goldberg considers recent works by Caribbean authors and social theorists among them Patricia Powell Jamaica Kincaid and Hilton Als These rewritings he suggests and the lived conditions to which they testify present alternatives to the masculinist and heterosexual bias of the legacy that has been derived from The Tempest By placing gender and sexuality at the center of the debate about the uses of Shakespeare for anticolonial purposes Goldberg's work points to new possibilities that might be articulated through the nexus of race and sexuality Place sexuality at the center of Caribbean responses to Shakespeare's play Shaping and Reshaping the Caribbean Martin Munro, 2000 The current drive in Caribbean literary studies stresses similarities and points of convergence between the various islands of the archipelago and their authors the fundamental aim of which is to move closer to an all encompassing theory of Caribbeanness Martin Munro challenges this movement and through a study of the work of Aime Césaire and René Depestre proposes an alternative vision of the present and future of Caribbean literature The main areas of inquiry are how these two Caribbean writers construct their sense of themselves how they relate to the Caribbean and to the wider world and how they have been influenced by the historical and cultural particularities of their respective islands Aime Césaire's sense of self and of the Caribbean is essentially shaped around the circuit triangulaire the model of Africa Europe Caribbean interdependencies ultimately inherited from the time of the slave trade Munro shows how Césaire views the Caribbean as a deeply traumatic insubstantial space how he looks to Africa for his lost sense of self and how Europe is seen at once as the malevolent colonial power and also the home of poetry and learning René Depestre's Caribbean shape is quite different Africa is relatively absent in Depestre's work Europe is not presented as a threat and Depestre unlike Césaire sees in the Caribbean an energy and a creativity brought about by the historical fusion of disparate cultures An important factor in shaping Depestre's model of Caribbeanness is his long exile from Haiti and Depestre's experience of exile is analysed in detail The combination of broad contextualization diverse theoretical approaches and close analysis of these important writers' work produces a strong argument against attempts to view and read writing from the Caribbean as one literature Difference and diversity it is argued predominate as Caribbean writing embraces the new century and the whole notion of Caribbeanness undergoes further processes of highly creative splintering and reshaping Rabindrânâth Tagore, Pablo Neruda, Aimé Césaire UNESCO, 2011-12-31 **Africana Critical Theory** Reiland Rabaka, 2009-01-16 Building on and going far beyond W E B Du Bois and the Problems of the Twenty First Century and Du Bois's Dialectics Reiland Rabaka's Africana Critical Theory innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory This book represents a climatic critical theoretical clincher that cogently demonstrates how Du

Bois's rarely discussed dialectical thought interdisciplinarity intellectual history making radical political activism and world historical multiple liberation movement leadership helped to inaugurate a distinct Africana tradition of critical theory With chapters on W E B Du Bois C L R James Negritude Aimé Césaire and Leopold Senghor Frantz Fanon and Amílcar Cabral Africana Critical Theory endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics These six seminal figures collective thought and texts clearly cuts across several disciplines and therefore closes the chasm between Africana Studies and critical theory constantly demanding that intellectuals not simply think deep thoughts develop new theories and theoretically support radical politics but be and constantly become political activists social organizers and cultural workers that is folk the Italian critical theorist Antonio Gramsci referred to as organic intellectuals In this sense then the series of studies gathered in Africana Critical Theory contribute not only to African Studies African American Studies Caribbean Studies Cultural Studies Gender Studies and Postcolonial Studies but also to contemporary critical theoretical discourse across an amazingly wide range of traditional disciplines and radical political activism outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy **Sappho** Alphonse Daudet, Adolphe Belot, 1895 *Le pulsionnel et le politique* Claude Wacjman, Virginie Vaysse, 2009-05-01 Ce num ro est travers par la question du pulsionnel et du politique du lien donc entre psychanalyse et politique De l partent les difficult s que rencontre aujourd hui la psychanalyse dans sa confrontation la dimension politique La vie politique en raison de sa jouissance de pouvoir peut se mettre au service des pulsions les plus intraitables Une question s impose celle de la promotion d une politique de massification que ce soit au nom du r alisme du march ou d un ang lisme de la d mocratie consum riste

Cold War Negritude Christopher T. Bonner, 2023-11-15 Cold War Negritude is the first book length study of francophone Caribbean literature to foreground the political context of the global Cold War It focuses on three canonical francophone Caribbean writers Ren Depestre Aimé Césaire and Jacques Stephen Alexis whose literary careers and political alignments spanned all three worlds of the 1950s Cold War order As black Caribbean authors who wrote in French who participated directly in the global communist movement and whose engagements with Marxist thought and practice were mediated by their colonial relationship to France these writers expressed unique insight into this bipolar system as it was taking shape The book shows how over the course of the 1950s French Caribbean Marxist authors re evaluated the literary aesthetics of Negritude and sought to develop alternatives that would be adequate to the radically changed world system of the Cold War Through close readings of literary theoretical and political texts by Depestre Césaire and Alexis I show that this formal shift reflected a strikingly changed understanding of what it meant to write engaged literature in the new bipolar world order Debates about literary aesthetics became the proxy battlefield on which Antillean writers promoted and fought for their different visions of an emancipated Caribbean modernity Consequent to their complicated Cold War alignments

these Antillean authors developed original and unorthodox Marxist literary aesthetics that syncretized an array of socialist literary tendencies from around the globe *Decolonising the Intellectual* Jane Hiddleston, 2014 This book explores the impossible dilemma facing Francophone intellectuals writing in the lead up to decolonisation How could they redefine their culture and the humanity they felt had been denied by the colonial project in terms that did not replicate the French thinking by which they were formed
