Ainsi Des Exiles:

L'empire des exilés Thomas Glesener, 2018-01-11 En 1713 après deux siècles de domination hispanique en Italie et aux Pays Bas le traité d'Utrecht sanctionne le démembrement de la monarchie et son repli dans la péninsule Ibérique. Alors que l'Espagne semble désormais tourner le dos à l'Europe des milliers de Flamands et d'Italiens empruntent malgré tout le chemin de l'exil pour rester sous domination du Roi Catholique. Contre toute attente ces exils sont constitués en une puissante élite politique et militaire qui a pesé durablement dans le gouvernement de la monarchie. Partant du cas des Flamands cet ouvrage interroge les circonstances de la sortie de l'empire et ses conséquences sur la société espagnole. Loin des clichés du repli péninsulaire en décryptant hauteur d'homme les horizons politiques de ce collectif d'exils il propose une lecture de la façon dont les Bourbon ont reconfiguré l'héritage impérial de l'Espagne.

Cartographies of Exile Karen Elizabeth

Bishop, 2016-04-20 This book proposes a fundamental relationship between exile and mapping. It seeks to understand the cartographic imperative inherent in the exilic condition the exilic impulses fundamental to mapping and the varied forms of description proper to both. The vital intimacy of the relationship between exile and mapping compels a new spatial literacy that requires the cultivation of localized dynamic reading practices attuned to the complexities of understanding space as text and texts as spatial artifacts. The collection asks what kinds of maps do exiles make? How are they conceived drawn read? Are they private maps or can they be shaped collectively? What is their relationship to memory and history? How do maps provide for new ways of imagining the fractured experience of exile and offer up both new strategies for reading displacement and new displaced reading strategies? Where does exilic mapping fit into a history of cartography particularly within the twentieth century spatial turn? The original work that makes up this interdisciplinary collection presents a varied look at cartographic strategies employed in writing art and film from the pre-Contact Americas to the Renaissance to late postmodernism the effects of exile in its many manifestations on cartographic textual systems ways of seeing and forms of reading the challenges of traversing and mapping unstable landscapes and restrictive social and political networks and the felicities and difficulties of both giving into the map and attempting to escape the map that provides for exile in the first place. Cartographies of Exile will be of interest to students and scholars working in literary and cultural studies gender sexuality and race studies anthropology art history and architecture film performance visual studies and the fine arts.
