

# 2023 STRATEGIC PLAN

**Mission:** Powering the world's greatest Air Force...

We develop, deliver, support, and sustain war-winning capabilities.

## Strengthen Our Team

Advance the professional and personal development, retention, resilience, and innovation of our workforce so every AFMC Airman and Guardian can achieve their full potential.

## Revolutionize Our Processes

Implement Enterprise Solutions, Digital Materiel Management, and other methods to revolutionize critical processes in support of mission execution and the warfighter.

## Amplify Warfighting Culture

Connect every AFMC Airman and Guardian to the mission and focus the materiel enterprise on delivering capabilities and services in support of operational execution and deterrence.

## Deliver Integrated Capabilities

Integrate research, development, test, sustainment, support, and infrastructure to maximize readiness and lethality for each capability and across all capabilities.

**Vision:** One AFMC—integrated, collaborative, innovative, trusted, and empowered...Indispensable to our Nation, disruptive to our adversaries.

# Air Force Plans For Peace

**United States. Department of the  
Army**

## **Air Force Plans For Peace:**

*The Air Force Plans for Peace, 1943-1945* Perry McCoy Smith, 1970      Planning for Peace United States. Congress. Senate. Foreign Relations, 1965      **Planning for Peace** United States. Congress. Senate. Committee on Foreign Relations, 1965      The UN, Peace and Force Michael Pugh, 2013-11-05 Restoring and maintaining peace within war torn societies is a relatively new task for the United Nations This book examines the options for the UN in the use of force to secure peace and the extent to which peacekeeping can be effectively extended to coerce warring factions A combination of internationally distinguished academics and new scholars at the forefront of research are represented making an important contribution to the debate about the role of international military operations in the maintenance of international peace and security      *Force Planning in an Era of Uncertainty* John F. Troxell, 1997      *The Fog of Peace and War Planning* Talbot C. Imlay, Monica Duffy Toft, 2007-01-24 How do we plan under conditions of uncertainty The perspective of military planners is a key organizing framework do they see themselves as preparing to administer a peace or preparing to fight a future war Most interwar volumes examine only the 1920s and the 1930s This new volume goes back and forward in time to draw on a greater expanse of history in order to tease out lessons for contemporary planners These chapters are grouped into four periods 1815 1856 1871 1914 1918 1938 and post Second World War They progress from low tech to high tech concerns for example the first period examines armies while the second period examines navies the third assesses navies combined with air forces and finally for the Kaiser chapter explores nuclear issues and decision making      On the Wings of War and Peace Randall Wakelam, William March, Peter Rayls, 2023-11-01 Bringing together leading researchers on Canadian air power *On the Wings of War and Peace* captures the history of the Royal Canadian Air Force RCAF during the first decades of the Cold War a period which marked the zenith of air force accomplishments in peacetime Canada The volume covers topics that go beyond straightforward flying operations examining policies that drove operational needs and capabilities and the personnel technical and logistical functions that made those operations possible With contributions written by former RCAF members who have both expert and personal knowledge of their topics *On the Wings of War and Peace* brings new perspectives to the RCAF's role in shaping the modern Canadian nation      **The Bomb and America's Missile Age** Christopher Gainor, 2018-10-15 How nuclear weapons helped drive the United States into the missile age The intercontinental ballistic missile ICBM designed to quickly deliver thermonuclear weapons to distant targets was the central weapons system of the Cold War ICBMs also carried the first astronauts and cosmonauts into orbit More than a generation later we are still living with the political technological and scientific effects of the space race while nuclear armed ICBMs remain on alert and in the headlines around the world In *The Bomb and America's Missile Age* Christopher Gainor explores the US Air Force's USAF decision in March 1954 to build the Atlas America's first ICBM Beginning with the story of the guided missiles that were created before and during World War II Gainor describes how the early Soviet and American rocket programs evolved over

the course of the following decade He argues that the USAF was wrongly criticized for unduly delaying the start of its ICBM program endangering national security and causing America embarrassment when a Soviet ICBM successfully put Sputnik into orbit ahead of any American satellite Shedding fresh light on the roots of America s space program and the development of US strategic forces The Bomb and America s Missile Age uses evidence uncovered in the past few decades to set the creation of the Atlas ICBM in its true context not only in the America of the postwar years but also in comparison with the real story of the Soviet missiles that propelled the space race and the Cold War Aimed at readers interested in the history of the Cold War and of space exploration the book makes a major contribution to the history of rocket development and the nuclear age

**Peace and the War Industry** Kenneth Ewart Boulding, More and more people are demanding an end to violence as a means of arbitrating international demands and resolving problems between nations This collection of essays brings social scientific evidence to bear on the question of the inevitability of war and evaluates the potential for managing the international system in the interest of peace instead of war The contributors discuss methods of lowering distrust among DEGREES nations they consider whether war persists because it has become an economic necessity built into a military industrial complex They deal with implications of expansion of the military into civilian areas such as education and into increasingly sophisticated technology such as the ABM Safeguard system They discuss the involvement of social scientists in the formulation of peace and war policy Collectively these essays present the most serious questions social scientists have been asking about problems of war and peace and offer hope that the present international system dangerous and appallingly costly as it is may offer enough stability to give us time to transform it into something that better serves human needs

Missiles, Rockets, and Space in War and Peace United States. Department of the Army, 1959 United States Government Organization Manual ,1967 *Armed Forces Films for Public and Television Exhibition* ,1955 Peace Corps Volunteer ,1964 *Waging War, Planning Peace* Aaron Rapport, 2015-03-19 In *Waging War Planning Peace* Aaron Rapport investigates how U S presidents and their senior advisers have managed vital noncombat activities while the nation is in the midst of fighting or preparing to fight major wars **Germany, pacifism and peace enforcement** Anja Dalgaard-Nielsen, 2013-07-19 Germany pacifism and peace enforcement is about the transformation of Germany s security and defence policy in the time between the 1991 Gulf War and the 2003 war against Iraq The book traces and explains the reaction of Europe s biggest and potentially most powerful country to the ethnic wars of the 1990s the emergence of large scale terrorism and the new US emphasis on pre emptive strikes Based on an analysis of Germany s strategic culture it portrays Germany as a security actor and indicates the conditions and limits of the new German willingness to participate in international military crisis management that developed over the 1990s It debates the implications of Germany s transformation for Germany s partners and neighbours and explains why Germany said yes to the war in Afghanistan but no to the Iraq War The Peace Corps Volunteer, a Quarterly Statistical Summary Peace Corps (U.S.). Division of Volunteer

Support,1962      **The Truman Presidency** Michael James Lacey,1991-06-28 The essays in this volume provide a wide ranging overview of the intentions achievements and failures of the Truman administration      **The Armed Forces: Instrument of Peace, Strength, Development and Prosperity** Joseph Babatunde Fagoyinbo,2013 Across the ages technological developments have been accelerated by the military This results from the fact that able bodied vibrant youths are generally involved and are also exposed to high tech training prevailing at their times for assignments defence and security that are essential but not desired They form the Armed Forces for the nations Such brilliant military officers like Caesar and Napoleon made their marks and in contemporary times the Armed Forces of United States France Britain Australia etc are making remarkable contributions to technological developments Such infrastructure as the Internet the GPS and the cell phones are products that have significant military contributions This book scans across the major regions of the world highlights the efforts of representative countries in the regions and observes that nations that have harnessed the efforts of their Armed Forces have progressively developed It is also observed that developments in America and Europe though not entirely dependent on their Armed Forces have been greatly affected by their efforts In Asia such countries as the People s Republic of China Brazil India Pakistan and Singapore utilise the human and material resources within the Armed Forces for national growth and cohesion Development effort is least in the African Region except South Africa and Egypt notwithstanding the high potentials as exhibited by Nigeria s Armed Forces Although attempts to industrialise through the Armed Forces may be able to create economic development for developing nations such factors as historical background economic resources political climate government policies and infrastructure are equally important Economic development programme of an aspiring country should i promote education and access to knowledge ii aspire to economic self sufficiency in economic power iii allow and promote private sector and foreign participation in defence production research and development iv commit itself to the establishment and support of defence industries v indigenise defence programmes establish a balance between military and economic development and vi mobilise the nation s economy through technology partnership with the private sector and foreign investors      *The War-Peace Establishment* Arthur Herzog, III,2003-04-29 There has come to exist in the United States as a result of the cold war a body of specialists accustomed to dealing with issues of war and peace which may be described as a war peace establishment It is clear that there are important divisions of viewpoint in the United States especially among those who have concerned themselves most with it on the question of what to do about the threat of thermonuclear war To some risks must not be run to others great risks must be taken and to still others we have reached the point of absurdity either way What gives urgency to the debates then is not only the seriousness of the present situation but also the question of how to avoid the cold war s recurrence It may be that a cold warless world will require that we reshape a host of notions concerning war peace and the future      Information Technology for Peace and Security Christian Reuter,2024-10-31 Technological and scientific progress especially the rapid development in information

technology IT and artificial intelligence AI plays a crucial role regarding questions of peace and security This textbook extended and updated in its second edition addresses the significance potential of IT as well as the challenges it poses with regard to peace and security It introduces the reader to the concepts of peace conflict and security research especially focusing on natural technical and computer science perspectives In the following sections it sheds light on cyber conflicts war and peace cyber arms control cyber attribution infrastructures artificial intelligence as well ICT in peace and conflict
