The Eye of the Storm series chronicles the exploits of Air Force Special Warfare Combat Control Teams CCT. It is told in the form of short stories many etched by a cocktail of blood sweat and tears. The Combat Control story began in the de facto Volume I with the appearance of the first CCTs i.e. command and control teams cobbled together by the WWII U.S. Army Air Force USAAF for Operation Varsity. The CCT story continued in Volume II detailing the 21st Century fight in the Global War on Terrorism GWOT. Included are two humanitarian missions operations of epic proportion in Haiti and Japan. In this third volume subtitled Medal of Honor MOH the CCT story is expanded incorporating the two previously self-published volumes and adding hundreds of new stories from around the globe. But with a concentration on operations in southwest Asia including Afghanistan now America's longest war. This volume is an all-inclusive compilation presented as a single premium publication. The diversity of feature stories subjects and styles present a well-rounded unbiased look at the CCT's view at the eye of the storm. Each published PA reporter and volunteer contributor has a by-line in the book. Thanks to all for their remarkable journalistic work. The book is expected to engage a wider ranging audience of American and allied military elements families historians and enthusiasts. More importantly Medal of Honor celebrates the first ever award of the Air Force Medal of Honor to a Combat Control patriot and hero. On April 20 2018 after more than fifteen years technical review and Air Staff deliberation the Medal of Honor for TSgt John Chapman was approved by President Donald Trump. The MOH award ceremonies and associated events are covered in detail near the end of this book. In preparing CCT The Eye of the Storm Medal of Honor the goal was to collect stories from hundreds of sources written by an even larger band of vetted professionals selected to observe record and report truths about military units in action. In my mind the U.S. Government Public Affairs Offices were the perfect choice. For that reason you will find hundreds of PA generated stories used herein. Through our collective efforts we have published a fair and accurate chronicle of USAF Combat Control Team's stories exploiting the public domain and declassified accounts. This is a documentary of Air Force Combat Control Teams operating at The Eye of the Storm. Subtitled Medal of Honor it is the most in-depth CCT history ever published.
