**Encyclopedia of Television** Horace Newcomb,2014-02-03 The Encyclopedia of Television second edition is the first major reference work to provide description history analysis and information on more than 1100 subjects related to television in its international context For a full list of entries contributors and more visit the Encyclopedia of Television 2nd edition website     *The Pulse of Politics* James David Barber,2017-09-29 Every four years journalists propel a presidential campaign into the national consciousness New candidates and issues become features of the political landscape while familiar rituals are reshaped by the unpredictability of personalities and events Underlying this apparent process of change however is a recurrent cycle of political themes and social attitudes a pulse of politics that locks the process of choosing a president into a predictable pattern In this bold and brilliant examination of modern presidential politics James David Barber reveals the dynamics of this cycle and shows how the pattern of drift and reaction may be broken in this most critical of political choices Barber probes beneath the surface of campaigns to detect a steady rhythm of major political motifs The theory he advances in colorful narrative chapters is that three dominant themes conflict conscience conciliation recur in foreseeable twelve year cycles A combative campaign Truman vs Dewey in 1948 is followed four years later by a moral crusade Eisenhower vs Stevenson in 1952 which in turn is succeeded by a contest to unify the nation the Eisenhower Stevenson rematch in 1956 The pattern is then renewed the fierce combat between Kennedy and Nixon in 1960 was followed in 1964 by the contest of

principle between Johnson and Goldwater In 1968 Richard Nixon defeated Hubert Humphrey by promising to bring the nation together Monitoring shifting national political moods is a new elite the journalists Barber makes the case that the party system increasingly clumsy and inflexible can no longer pick up the beat of politics Instead it is through newspapers magazines and television that the main themes of a campaign are sounded created and destroyed This new edition of *The Pulse of Politics* provides a timely guide to the themes of the 1992 presidential campaign and to future elections It will be of special interest to political scientists historians media analysts and journalists

*When the News Broke* Heather Hendershot, 2024-04-05 A riveting blow by blow account of how the network broadcasts of the 1968 Democratic convention shattered faith in American media The whole world is watching cried protestors at the 1968 Democratic convention as Chicago police beat them in the streets When some of that violence was then aired on network television another kind of hell broke loose Some viewers were stunned and outraged others thought the protestors deserved what they got No one least of all Chicago mayor Richard J Daley was happy with how the networks handled it In *When the News Broke* Heather Hendershot revisits TV coverage of those four chaotic days in 1968 not only the violence in the streets but also the tumultuous convention itself where Black citizens and others forcefully challenged southern delegations that had excluded them anti Vietnam delegates sought to change the party's policy on the war and journalists and delegates alike were bullied by both Daley's security forces and party leaders Ultimately Hendershot reveals the convention as a pivotal moment in American political history when a distorted notion of liberal media bias became mainstreamed and nationalized At the same time she celebrates the values of the network news professionals who strived for fairness and accuracy Despite their efforts however Chicago proved to be a turning point in the public's trust in national news sources Since those critical days the political Right in the United States has amplified distrust of TV news to the point where even the truest and most clearly documented stories can be deemed fake As Hendershot demonstrates it doesn't matter whether the whole world is watching if people don't believe what they see

**The Sixties** David Farber, 2012-12-01 This collection of original essays represents some of the most exciting ways in which historians are beginning to paint the 1960s onto the larger canvas of American history While the first literature about this turbulent period was written largely by participants many of the contributors to this volume are young scholars who came of age intellectually in the 1970s and 1980s and thus write from fresh perspectives The essayists ask fundamental questions about how much America really changed in the 1960s and why certain changes took place In separate chapters they explore how the great issues of the decade the war in Vietnam race relations youth culture the status of women the public role of private enterprise were shaped by evolutions in the nature of cultural authority and political legitimacy They argue that the whirlwind of events and problems we call the Sixties can only be understood in the context of the larger

*The Channeled Image* Erica Levin, 2022-11-23 A fascinating look at artistic experiments with televisual forms Following the integration of television into the fabric of American life in the 1950s experimental artists of the 1960s began to appropriate this novel medium toward new aesthetic and political ends As Erica Levin details in *The Channeled Image* groundbreaking artists like Carolee Schneemann Bruce Conner Stan VanDerBeek and Aldo Tambellini developed a new formal language that foregrounded television's mediation of a social order defined by the interests of the state capital and cultural elites The resulting works introduced immersive projection environments live screening events videographic distortion and televised happenings among other forms For Levin the channeled image names a constellation of practices that mimic simulate or disrupt the appearance of televised images This formal experimentation influenced new modes of installation which took shape as multi channel displays and mobile or split screen projections or in some cases experimental
