Getting Personal Laura Gray-Rosendale, 2018-01-29 Addresses how digital forms of personal writing can be most effectively used by teachers, students and other community members. At a time when Twitter, Facebook, blogs, Instagram and other social media dominate our interactions with one another and with our world, the teaching of writing also necessarily involves the employment of multimodal approaches, visual literacies and online learning. Given this new digital landscape, how do we most effectively teach and create various forms of personal writing within our rhetoric and composition classes, our creative writing classes and our community groups? Contributors to *Getting Personal* offer their thoughts about some of the positives and negatives of teaching and using personal writing within digital contexts. They also reveal intriguing teaching activities that they have designed to engage their students and other writers. In addition, they share some of the innovative responses they have received to these assignments. *Getting Personal* is about finding ways to teach and use personal writing in the digital age that can truly empower writing teachers, writing students as well as other community members. *Getting Personal* offers an engaging, comprehensive view of how and why instructors in both creative and academic writing can integrate contemporary writing and communication practices into their classrooms, assignments and curricula.

Jill Talbot, editor of *Metawritings: Toward a Theory of Nonfiction*. I am right now rethinking some of my assumptions about what it means to do and to teach personal writing, especially in digital environments. I'm also taken with the fact that while the chapters are clearly academic, they are also personal and while several of them explicitly call the false binary between the personal and the academic into question, my sense is that they themselves do so implicitly as well.

Barry M. Maid, coauthor of *The McGraw-Hill Guide to Writing for College Writing for Life*, Fourth Edition. *The Remedial Writing Teacher's Handbook*. Vicki L. Hackett, Paul C. Dalmas, 1996. A comprehensive guide to help students develop basic writing competencies and to encourage them to continue writing for their own enjoyment and satisfaction.

Literacy as Social Exchange Maureen M. Hourigan, 1994-09-27 Literacy as Social Exchange examines the intersection of culture and literacy education In particular it explores the roles that class race ethnicity and gender play in students learning to negotiate the conventions of academic discourse It argues that recent literacy scholarship has tended to isolate class gender and culture as discrete marginalizing factors but such isolation may unintentionally silence voices from non Western non mainstream cultures Writing program administrators and writing teachers who are interested in constructing programs that address the needs of all students in increasingly multicultural classrooms will need to examine how cultural factors influence the way students learn to read write and think critically The author points out that some of the most influential scholars writing about the plight of underprivileged writers teach at some of the most exclusive institutions in the nation These basic writers are not nearly so disadvantaged as many of the student writers most writing teachers encounter every day The author explores enrollment trends in higher education that indicate conclusively that writing classrooms will soon be filled with students from non Western non mainstream cultures Because these students rhetorical and literacy traditions will be unlike both those of their teachers and of the basic writers upon which so much literacy
