Conceptual History of Botanical Classification Tod F. Stuessy, 2025-09-02 This book focuses on plant systematics and evolution with special interest on the history and philosophy of botanical classification Tracing the history of how humans have dealt with ordering the plant world is very much a glimpse of how human culture and science have progressed over the past 2000 years The objective in this book is to present ideas on plant classification beginning with classical Greek and Roman scholars through the Middle Ages into the Renaissance and finally to the modern 21st century Significant quantitative methods in classification have originated within the past 70 years which have never before been integrated with previous historical perspectives Most textbooks of systematic botany contain an historical introduction or perhaps a chapter on the history of classification but this book presents much greater detail on the classifications themselves and the cultural dimensions of the different time periods Biographical detail is also provided to give a better appreciation of the individual botanists who have contributed new ideas in the search for maximally predictive systems *Ebook: Plants and Society* Estelle Levetin, Karen McMahon, 2014-10-16 This introductory one quarter one semester text takes a multidisciplinary approach to studying the relationship between plants and people The authors strive to stimulate interest in plant science and encourage students to further their studies in botany Also by exposing students to society's historical connection to plants Levetin and McMahon hope to instill a greater appreciation for the botanical world *Plants and Society* covers basic principles of botany with strong emphasis on the economic aspects and social implications of plants and fungi **Plant Biology and Biotechnology Volume - I** Mr. Rohit Manglik, 2024-01-23 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **Proceedings of the Annual Convention** National Association of State Universities and Land-Grant Colleges, 1928 Caryophyllales H.D.
