system that is based on six levels of proficiency A1 and A2 beginner B1 and B2 intermediate C1 and C2 advanced This book is
intended to be a concise grammar reference resource aimed at Learners of English Learners can use the book to check that
they have covered all of the grammar areas appropriate to their CEFR level They can also use it to see which grammatical
structures they still need to master to be able to score more highly in an English test Teachers of English This book can be
used as a handy refresher to help explain the most salient points of a grammar feature to learners It could be especially
useful for teachers on a CELTA TESOL training course who need to get to grips with unfamiliar grammatical terms Materials
developers Want to have an overview of where grammatical items stand relative to the progression of learner abilities Use
this book to help sequence the grammar items in your materials Many of the grammar points in this book are accompanied
by short exercises with answers to help consolidate the main ideas of those grammar points At the back of the book there are
also some ideas for classroom activities that teachers can give learners to help them practice the different past tenses in
English The book came into being after one of the author s students asked what grammar items she needed to know to be a
B1 level Although being able to check off grammar items does not necessarily constitute success in English it can in part help
with goal setting and confidence building to be able to identify concrete can and can t dos The author has twenty five years
experience in teaching English language learners from around the world and regularly writes and edits different types of
educational materials and articles for many international publishers Asian English Language Classrooms Handoyo Puji

dynamic because both teachers and learners have diverse linguistic and cultural backgrounds Equally important where

English is not widely used outside the classroom English language classrooms are an authentic site of learner engagement For these reasons for all those concerned with contemporary English language teaching ELT in Asia Asian English Language Classrooms Where Theory and Practice Meet provides an account of theoretical orientations and practices in the teaching of English to multilingual speakers whose primary language is not English While covering the fundamental ELT areas e g the teaching of language skills educational literature the use of technology in ELT the role of pragmatics in ELT social psychology of the language classroom and language classroom management with which every language teacher and teacher trainer must be concerned this volume showcases how particular orientations shape ELT practices We believe that practicing English teachers must have a heightened awareness of the theory behind their practice At the same time the theoretical stance must be firmly anchored in actual classrooms Containing newly commissioned chapters written by well regarded and emerging scholars this book will appeal not only to beginning teachers or teachers in training but also to established teachers around Asia where English is used as a lingua franca If you are a student teacher of English or an English teacher who would like to see what other progressive teachers like you are doing across Asia this is the book you have been looking for
