Recent Advances in Anaesthesia and Intensive Care: Volume 22 A. P. Adams, J. N. Cashman, R. M. Grounds, 2002-01-12 Recent Advances in Anaesthesia and Intensive Care 22 is the latest volume in this very successful and long established series previously entitled Recent Advances in Anaesthesia and Analgesia to present a series of cutting edge topics for anaesthetists from some of the world's leading authorities in their subjects As the title suggests this and future volumes will have increased input from the field of intensive care but the emphasis will remain on producing articles of high quality and interest to the reader and providing exceptional value for money

Pediatric Sedation Outside of the Operating Room Keira P. Mason, 2014-10-11 This is a major revision updating and expansion of the leading single source volume on pediatric sedation outside of the operating room Edited and written by an international roster of outstanding experts it is the only book aimed at the broad range of specialists who deliver pediatric sedation in the non OR setting The Second Edition features a significant expansion of contributions from international leaders and individual new chapters on pre sedation assessment sedatives short and long term effects on neurocognition non pharmacologic distractions Michael Jackson's death and medical ethics the role of simulation in safety and training and palliative sedation in terminally ill children The specialty specific chapters continue to be geared toward all sedation providers regardless of where they practice and patient safety is again emphasized Fundamental chapters provide in depth reviews of topics which include among others physiology and pharmacology The book presents the latest guidelines across the specialties both in the United States and abroad and noteworthy ongoing research endeavors From reviews of the First Edition This meritorious volume is a splendid collection of materials from highly experienced authors I will make extensive use of this reference as the academic

medical center in which I work continues to build sedation practices and assess credentialing privileging aspects for professionals of all fields Joseph R Tobin MD in Journal of the American Medical Association Brings together sedation practice from a broad range of specialties into one well written pediatric text I will certainly be using this book as a reference text in the future Pediatric Anesthesia The first text directed at all specialists that treat children who require some sedation also recognizes the contributions to pediatric sedation of many international societies and governmental organizations It should be on the shelves of all office based practices Journal of Neurosurgical Anesthesiology With the ever increasing opportunities to perform various investigations and therapeutic procedures combined with increasing demands and expectations from children and their parents the need and demand for safe and effective sedation of paediatric patients outside the operating room is increasing Against this background the second edition of Pediatric Sedation Outside the Operating Room is a very timely addition to the anaesthesia literature British Journal of Anesthesia
