know and want to know about mobilizing their pawns and pieces Traditional chess opening books concentrate on the variations in different openings Charles Hertan believes that for beginners and advanced beginners memorizing lines in the Sicilian and Nimzo Indian defenses is not only boring but also a waste of time Hertan's approach is different He helps kids to develop a solid understanding of the fundamental opening ideas and principles What are the properties of each chess piece and how can they be mobilized effectively to work together and get a strong position on the board In his trademark humorous and kid friendly way Hertan teaches what you should actually be trying to achieve at the start of a game Kids will love learning how to avoid The Five Most Common Opening Mistakes This is a fun easy to use down to earth and accessible chess opening primer *Replay 428 winning chess with the white pieces against the high chess software + All the chess rules and much more* J.C. as soon as one asks for an explanation of this foundational premise it begins to look shaky After all on any conceivable metric human beings are notably unequal and often to striking degrees Philosophers in this area tend to talk of equal worth but often without trying to specify what exactly that means Philosophically basic equality is neither acceptable nor rejectable It is not rejectable because we appear to be as a matter of fact profoundly committed to the truth of the claim that we are all one another's basic equals But to the extent that there appear to be no philosophical arguments for believing in the truth of basic equality it is not acceptable either The aim of this book is to try and show why basic equality is acceptable To do so however it will also contend that we need to approach the question rather differently to how it has mostly been handled so far What's required is an exercise in what Bernard Williams called impure philosophy it must include insights from other areas of human intellectual endeavour whether psychology and history or even what we learn from how we go about practicing basic equality in our collective lives
